September 2003

Summary of County Agricultural Data

California's counties reported an increase of 3.1 percent in the value of their agricultural production for 2002. Twelve counties reported a value of production in excess of 1.02 billion dollars. Fresno County returned as the leading county with a production value of \$3.41 billion, an increase of 6.2 percent from last year's total. Tulare County was second in value of production with \$3.20 billion, down nearly 8 percent from last year. Monterey's agricultural production also increased 2.4 percent, to \$2.81 billion.

Notable Changes in County Ranks and State Totals:

Milk and Cream	-- Tulare increases their lead to 25 percent of the total
Grapes, All	-- Kern is number one, followed by Fresno and Tulare
Nursery Products	-- San Diego leads with 18 percent of the total
Cattle and Calves	-- Tulare is number one and growing
Lettuce	-- Monterey leads with more than five of every ten dollars
Almonds	-- Kern is number one followed by Stanislaus and Fresno
Oranges	-- Tulare is first with almost half the total
Alfalfa Hay	-- Imperial is number one with 16 percent
Strawberries	-- Ventura has more than one-third of the total
Cotton	-- Fresno has over one-third of the total
Flowers and Foliage	-- San Diego has more than half the total
Tomatoes, Processing	-- Fresno leads with 40 percent of the total
Rice (Excluding Seed)	-- Colusa is number one followed by Sutter
Broccoli	-- Monterey is number one with more than half
Salad Greens	-- Monterey dominates with 99 percent of the total

Notes to the Agricultural Commissioners' Data

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. The County Agricultural Commissioners' Reports also provide statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by the California Agricultural Statistics Service. The larger total value reported by the Agricultural Commissioners results from the different definitions used in estimating total value of production rather than cash receipts to producers.

Some counties are now including timber as a part of their crop report, following the pattern set by the County Agricultural Commissioners' Association. Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total value reported by the counties, including timber, is 1.5 percent more than the \$30.6 billion recorded in the "County Gross Value of Agricultural Production, by Commodity Group, 2001-02" table on page 7. The totals, with and without timber, are shown in the "County Rank by Gross Value of Agricultural Production, 2001-02" table on page 3.

California Timber Industry

California has more forest land than any state, except Alaska. Nearly two billion board feet (equivalent to 132,000 homes) of commercial lumber are produced from California's private and public timberlands each year, making the "Golden State" the third largest producer of wood products in the nation. California's abundant forests could provide nearly 100 percent of the state's demand for wood.

California's Leading Timber Counties, 2002

Timber Rank	County	Timber Volume (Thousand Bd. Ft.)	Total Agricultural Value (Including Timber)	Timber Value	Timber Percentage of Total Agricultural Value
1	Humboldt	374,041	235,249	130,554	55.5
2	Siskiyou	187,215	159,479	40,458	25.4
3	Shasta	152,104	91,459	39,261	42.9
4	Mendocino	97,722	156,432	29,479	18.8
5	Trinity	81,086	25,452	23,313	91.6

County Agricultural Commissioners' Reports

Copies of individual County Agricultural Commissioner Reports may be requested or obtained directly from each County Agricultural Commissioner's Office. For your convenience, a listing is included at the end of this report.

California Agricultural Statistics Service publications are available free-of-charge on the Internet at: <http://www.nass.usda.gov/ca>.

^{1/} The data rankings were extracted from County Agricultural Commissioners' Reports where published. Those not ranked by the counties were ranked by the California Agricultural Statistics Service. Timber was omitted in rankings. Reports for Alpine and Trinity counties were not available at publication so 2001 data were used for this report.

County Agricultural Commissioners

County	Commissioner	Address	Telephone	Fax
