October 2005

Summary of County Agricultural Data

California's counties reported an increase of 13.7 percent in the value of their agricultural production for 2004. Thirteen counties reported a value of production in excess of \$1.06 billion. Fresno County increased its agricultural production value by nearly 16 percent, surpassing the \$4.68 billion mark and continued as the leading county. Tulare County was second in value of production with \$4.03 billion, 22.5 percent above last year. Monterey's agricultural production also increased 3.3 percent to \$3.39 billion.

Notable Changes in County Ranks and State Totals:

Milk and Cream	Tulare leads with nearly 26 percent of the State total
Grapes, All	Fresno leads, followed closely by Kern and Tulare
Nursery Products	San Diego continues to lead with more than 19 percent of the total
Cattle and Calves	Tulare is number one, followed by Fresno and Imperial
Almonds	Kern leads with more than 17 percent, followed closely by Stanislaus
Lettuce	Monterey still leads with more than 60 percent
Strawberries	Ventura and Monterey lead with more than half of the total
Oranges	Tulare leads with more than half of the total
Alfalfa Hay	Kern leads the way, followed by Tulare and Imperial
Cotton	Fresno still leads with 39 percent, followed by Kern
Flowers and Foliage	San Diego has more than 47 percent of the total
Tomatoes, Processing	Fresno leads with nearly 40 percent, followed by Yolo and San Joaquin
Broccoli	Monterey leads with almost half of the total
Pistachios	Kern is number one, followed by Madera and Tulare
Rice (Excl. Seed)	Colusa is number one with more than 23 percent

Notes to the Agricultural Commissioners' Data

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. *The County Agricultural Commissioners' Reports* also provide statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by USDA's National Agricultural Statistics Service, California Field Office. The larger total value reported by the agricultural commissioners results from the different definitions used in estimating total value of production rather than cash receipts to producers.

Some counties are now including timber as a part of their crop report, following the pattern set by the County Agricultural Commissioners' Association. Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total value reported by the counties, including timber, is 1.4 percent more than the \$36.9 billion recorded in the "County Gross Value of Agricultural Production, by Commodity Group, 2003-2004" table on page 7. The totals, with and without timber, are shown in the "County Rank by Gross Value of Agricultural Production, 2003-2004" table on page 3.

California Timber Industry

California has more forest land than any state, except Alaska. Nearly two billion board feet (equivalent to 132,000 homes) of commercial lumber are produced from California's private and public timberlands each year, making the "Golden State" the third largest producer of wood products in the nation. California's abundant forests could provide nearly 100 percent of the state's demand for wood.

California's Leading Timber Counties, 2004

Timber Rank	County	Timber Volume (Thousand Bd. Ft.)	Total Agricultural Value (Including Timber)	Timber Value	Timber Percentage of Total Agricultural Value
1	Humboldt	396,500	289,110	169,122	58.5
2	Siskiyou	239,349	181,950	51,565	28.3
3	Mendocino	109,548	148,405	40,995	27.6
4	Plumas	123,678	52,024	31,273	60.1
5	Shasta	135,723	89,451	29,828	33.3

County Agricultural Commissioners' Reports

Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's Office. For your convenience, a listing is included at the end of this report.

USDA's National Agricultural Statistics Service, California Field Office publications are available free-of-charge on the Internet at: www.nass.usda.gov/ca.

^{1/} The data rankings were extracted from County Agricultural Commissioners' Reports where published. Those not ranked by the counties were ranked by USDA's National Agricultural Statistics Service, California Field Office. Timber was omitted in rankings. County Agricultural Commissioners' Reports for Humboldt, Inyo, Mono, and Trinity counties were not available at publication so 2003 data were used for this report.
