October 2006

Summary of County Agricultural Data

California's counties reported an increase of 5.1 percent in the value of their agricultural production for 2005. Thirteen counties reported a value of production in excess of \$1.10 billion. Fresno continued as the leading county with an agricultural production value of \$4.64 billion, a slight increase of 0.8 percent from the 2004 value. Tulare County was second in value of production with \$4.36 billion, 8.0 percent above 2004. Kern's agricultural production increased 10.4 percent to \$3.55 billion.

Notable Changes in County Ranks and State Totals:

Milk and Cream	Tulare leads with more than 27 percent of the State total
Grapes, All	Fresno leads, followed closely by Napa and Kern
Nursery Products	San Diego continues to lead with more than 19 percent of the total
Almonds	Kern leads with 20 percent, followed by Stanislaus
Cattle and Calves	Tulare is number one, followed by Fresno and Imperial
Lettuce	Monterey still leads with 60 percent
Strawberries	Monterey and Ventura lead with more than 60 percent of the total
Oranges	Tulare leads with more than half of the total
Alfalfa Hay	Kern leads the way, followed by Tulare and Imperial
Flowers and Foliage	San Diego has more than 52 percent of the total
Chickens	Merced and Stanislaus lead the State with more than 60 percent
Cotton	Fresno still leads with 34 percent, followed by Kings
Pistachios	Kern is number one, followed by Fresno and Tulare
Walnuts, English	San Joaquin leads, followed closely by Tulare and Stanislaus
Tomatoes, Processing	Fresno leads with nearly 42 percent, followed by San Joaquin and Yolo

Notes to the Agricultural Commissioners' Data

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. *The County Agricultural Commissioners' Reports* also provide statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by USDA's National Agricultural Statistics Service, California Field Office. The larger total value reported by the agricultural commissioners results from the different definitions used in estimating total value of production rather than cash receipts to producers.

Some counties are now including timber as a part of their crop report, following the pattern set by the County Agricultural Commissioners' Association. Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total value reported by the counties, including timber, is 0.2 percent more than the \$38.6 billion recorded in the "County Gross Value of Agricultural Production, by Commodity Group, 2004-2005" table on page 7. The totals, with and without timber, are shown in the "County Rank by Gross Value of Agricultural Production, 2004-2005" table on page 3.

California Timber Industry

California has more forest land than any state, except Alaska. Nearly two billion board feet (equivalent to 132,000 homes) of commercial lumber are produced from California's private and public timberlands each year, making the "Golden State" the third largest producer of wood products in the nation. California's abundant forests could provide nearly 100 percent of the state's demand for wood.

California's Leading Timber Counties, 2005

Timber Rank	County	Timber Volume	Total Agricultural Value (Including Timber)	Timber Value	Timber Percentage of Total Agricultural Value
		<i>Thousand Bd. Ft.</i>	<i>\$1,000</i>	<i>\$1,000</i>	<i>Percent</i>
1	Humboldt	390,333	320,170	193,363	60.4
2	Mendocino	120,841	173,932	53,914	31.0
3	Siskiyou	207,726	195,206	47,567	24.4
4	Shasta	170,690	127,678	43,469	34.4
5	Plumas	107,817	47,669	26,387	55.4

County Agricultural Commissioners' Reports

Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's Office. For your convenience, a listing is included at the end of this report. A number of the counties publish the reports on their web sites.

USDA's National Agricultural Statistics Service, California Field Office publications are available free-of-charge on the Internet at: www.nass.usda.gov/ca.

^{1/} The data rankings were extracted from County Agricultural Commissioners' Reports where published. Those not ranked by the counties were ranked by USDA's National Agricultural Statistics Service, California Field Office. Timber was omitted in rankings. County Agricultural Commissioners' Reports for San Francisco and Trinity counties were not available at publication so 2004 and 2003 data were used, respectively, for this report.
