## Summary of County Agricultural Data

California's counties reported a slight decrease of 0.9 percent in the value of their agricultural production for 2006. Fourteen counties reported a value of production in excess of \$1.01 billion. Fresno continued as the leading county with an agricultural production value of \$4.84 billion, an increase of 4.4 percent from the 2005 value. Tulare County was second in value of production with \$3.87 billion, 11.2 percent below 2005. Monterey had an increase of 4.3 percent in production to \$3.49 billion, moving the county to third in value. Kern's decrease of 2.1 percent to \$3.48 billion in agricultural production, dropped the county to fourth in value.

### Notable Changes in County Ranks and State Totals:

Milk and Cream	Tulare leads with more than 26 percent of the State total
Grapes, All	Fresno leads, followed closely by Kern and Napa
Nursery Products	San Diego continues to lead with more than 18 percent of the total
Cattle and Calves	Tulare is number one, followed by Stanislaus and Imperial
Almonds	Fresno leads with 19 percent, followed by Kern
Lettuce	Monterey still leads with 65 percent of the State total
Strawberries	Monterey and Ventura lead with more than 60 percent of the total
Oranges	Tulare leads with more than half of the total
Alfalfa Hay	Kern leads the way, followed by Tulare and Imperial
Chickens	Merced and Stanislaus lead the State with more than 56 percent
Flowers and Foliage	San Diego has more than 51 percent of the total
Walnuts, English	San Joaquin leads, followed closely by Tulare and Stanislaus
Tomatoes, Processing	Fresno leads with nearly 39 percent, followed by San Joaquin and Yolo
Cotton	Fresno still leads with 34 percent, followed by Kings
Rice (Excl. seed)	Colusa leads with more than 28 percent, followed by Butte

## Notes to the Agricultural Commissioners' Data

The gross value of production published in this report includes all farm production, whether sold into usual marketing channels or used on the farm where it is produced. Values placed on pasture and range feed are included and fresh fruit and vegetable crop values are based on the Free-On-Board (F.O.B.) packed price. Values are recorded for all products grown during the calendar year, regardless of when they are marketed. *The County Agricultural Commissioners' Reports* also provide statistics on a broader range of commodities than estimates prepared by other agencies.

Because of these concepts, the State total for gross dollar values summarized in this report differs from the cash receipts to farmers estimated by USDA's National Agricultural Statistics Service, California Field Office. The larger total value reported by the agricultural commissioners results from the different definitions used in estimating total value of production rather than cash receipts to producers.

Some counties are now including timber as a part of their crop report, following the pattern set by the County Agricultural Commissioners' Association. Since it is not comparable to earlier county summaries, timber has not been made a part of the main tables of this summary. The total value reported by the counties, including timber, is 0.2 percent more than the \$38.3 billion recorded in the "County Gross Value of Agricultural Production, by Commodity Group, 2005-2006" table on page 7. The totals, with and without timber, are shown in the "County Rank by Gross Value of Agricultural Production, 2005-2006" table on page 3.

### California Timber Industry

California has more forest land than any state, except Alaska. Nearly two billion board feet (equivalent to 132,000 homes) of commercial lumber are produced from California's private and public timberlands each year, making the "Golden State" the third largest producer of wood products in the nation. California's abundant forests could provide nearly 100 percent of the state's demand for wood.

**California's Leading Timber Counties, 2006**

Timber Rank	County	Timber Volume	Total Agricultural Value (Including Timber)	Timber Value	Timber Percentage of Total Agricultural Value
		<i>Thousand Bd. Ft.</i>	<i>\$1,000</i>	<i>\$1,000</i>	<i>Percent</i>
1	Humboldt	336,743	294,783	171,628	58.2
2	Mendocino	110,168	190,193	53,379	28.1
3	Shasta	189,501	139,712	50,461	36.1

5	Plumas	118,936	49,112	28,812	58.7

### County Agricultural Commissioners' Reports

Copies of individual County Agricultural Commissioners' Reports may be requested or obtained directly from each County Agricultural Commissioner's Office. For your convenience, a listing is included at the end of this report. Many of the counties publish the reports on their web sites.

USDA's National Agricultural Statistics Service, California Field Office publications are available free-of-charge on the Internet at: [www.nass.usda.gov/ca](http://www.nass.usda.gov/ca).

9. Almonds and Almond Hulls	3,144				
10. ---	---				

<sup>1/</sup> The data rankings were extracted from County Agricultural Commissioners' Reports where published. Those not ranked by the counties were ranked by USDA's National Agricultural Statistics Service, California Field Office. Timber was omitted in rankings. Trinity County's County Agricultural Commissioners' Report was not available at publication so 2003 data were used for this report.
