## Exhibit 300: Capital Asset Plan and Business Case Summary

## PART I: SUMMARY INFORMATION AND JUSTIFICATION (All Capital Assets)

#### Section A: Overview (All Capital Assets)

- 1. Date of Submission: 12/14/2007
- 2. Agency: 393
- 3. Bureau: 000
- 4. Name of this Capital Asset: IT Infrastructure
- 5. Unique Project (Investment) Identifier: (For IT investments only, see section 53. For all other, use agency ID system.) 393-00-02-00-01-0008-00
- What kind of investment will this be in FY2009? (Please NOTE: Investments moving to O&M in FY2009, with Planning/Acquisition activities prior to FY2009 should not select O&M. These investments should indicate their current status.)

Planning Full Acquisition Operations and Maintenance Mixed Life Cycle Multi-Agency Collaboration

- 7. What was the first budget year this investment was submitted to OMB?FY2003
- 8. Provide a brief summary and justification for this investment, including a brief description of how this closes in part or in whole an identified agency performance gap:

Dramatic increases in computer interconnectivity, especially in the use of the Internet, continue to revolutionize the way our Government, our nation, and much of the world communicate and conduct business. Our customers expect information and services to be available when they need them. However, this widespread interconnectivity poses significant risks to the Government's computer systems and the critical operations they support. The speed and accessibility, as well as the other enormous benefits of the computer age, if not properly controlled, allow individuals and organizations to interfere with critical operations for mischievous or malicious purposes. Reliable performance and security of our public network applications is essential to ensuring that customer expectations for access to our information and services can be met. In addition to supporting public network applications, successful implementation and deployment of many NARA initiatives, including ERA, is dependent upon a robust, reliable, stable, scalable, and high performance technology infrastructure.

- 9. Did the Agency's Executive/Investment Committee approve this request? Yes
  - a. If "yes," what was the date of this approval? 08/27/07
- 10. Did the Project Manager review this Exhibit? Yes
- 11. Contact information of Project Manager?

Name:	Mario Barroga,
Phone:	301-837-3175
Email:	Mario.Barroga@nara.gov

- a. What is the current FAC-P/PM certification level of the project/program manager? 2
- 12. Has the agency developed and/or promoted cost effective, energy-efficient, and environmentally sustainable techniques or practices for this project. (Answer applicable to non-IT assets only) Yes
  - a. Will this investment include electronic assets (including computers)? Yes

- b. Is this investment for new construction or major retrofit of a Federal building or facility? (answer applicable to non-IT assets only) )  $N\!/\!A$ 
  - 1. If "yes," is an ESPC or UESC being used to help fund this investment? N/A
  - 2. If "yes," will this investment meet sustainable design principles? N/A
  - 3. If "yes," is it designed to be 30% more energy efficient than relevant code? N/A

13. Does this investment support one of the PMA initiatives? Yes

If "yes," check all that apply: To check all that applies, double click the grey box next to the initiative you would like to add. Select CHECKED from the default value section and then select OK.

- Human Capital
- Budget Performance Integration
- Financial Performance

Expanded E-Government

 $\boxtimes$  Competitive Sourcing

Faith Based and Community

Real Property Asset Management

Eliminating Improper Payments

Privatization of Military Housing

Research & Development Investment Criteria

Housing & Urban Development Management & Performance

Broadening Health Insurance Coverage through State Initiatives

"Right Sized" Overseas Presence

Coordination of VA & DoD Programs and Systems

a. Briefly and specifically describe for each selected how this asset directly supports the identified initiative(s)? (e.g. If E-Gov is selected, is it an approved shared service provider or the managing partner?)

The contract resources used to support the O&M of the NARA IT Infrastructure leverage commercial resources obtained through competitive acquisition processes and will, in this budget year, consider alternatives such as competitive outsourcing for services.

# 14. Does this investment support a program assessed using the Program Assessment Rating Tool (PART)? (For more information about the PART, visit www.whitehouse.gov/omb/part.) Yes

- a. If "yes," does this investment address a weakness found during the PART review? No
- b. If "yes," what is the name of the PARTed program? Records Services Program
- c. If "yes," what rating did the PART receive? Adequate (Effective, Moderately

Effective, Adequate, Ineffective, Results Not Demonstrated)

15. Is this investment for information technology? (see section 53 for definition) Yes

If the answer to Question 15 is "Yes," complete questions 16-23 below. If the answer is "No," do not answer questions 16-23.

For information technology investments only:

- 16. What is the level of the IT Project (per CIO Council PM Guidance)?
  - Level 1
  - $\Box$  Level 2
  - Level 3
- 17. What project management qualifications does the Project Manager have? (per CIO Council PM Guidance):
  - Project manager has been validated as qualified for this investment
  - Project manager qualification is under review for this investment
  - Project manager assigned to investment, but does not meet requirements
  - Project manager assigned but qualification status review has not yet started
  - No Project manager has yet been assigned to this investment
- 18. Is this investment or any project(s) within this investment identified as "high risk" on the Q4-FY 2007 agency high risk report (per OMB Memorandum M-05-23)? Yes
- 19. Is this a financial management system? No
  - a. If "yes," does this investment address a FFMIA compliance area? N/A
    - 1. If "yes," which compliance area: N/A
    - 2. If "no," what does it address? N/A
  - b. If "yes," please identify the system name(s) and system acronym(s) as reported in the most recent financial systems inventory update required by Circular A–11 section 52 N/A
- 20. What is the percentage breakout for the total FY2009 funding request for the following? Hardware 18.8 Software 12.5 Services 68.7 Other 0
- 21. If this project produces information dissemination products for the public, are these products published to the Internet in conformance with OMB Memorandum 05-04 and included in your agency inventory, schedules and priorities? N/A
- 22. Contact information of individual responsible for privacy related questions:

Name	Gary M. Stern
Phone Number	301-837-3206
Title	Senior Official for Privacy Policy
E-mail	GaryM.Stern@nara.gov

- 23. Are the records produced by this investment appropriately scheduled with the National Archives and Records Administration's approval? Yes
- 24. Does this investment directly support one of the GAO High Risk Areas? No

## Section B: Summary of Spending (All Capital Assets)

Provide the total estimated life-cycle cost for this investment by completing the following table. All amounts represent budget authority in millions, and are rounded to three decimal places. Federal personnel costs should be included only in the row designated "Government FTE Cost," and should be **excluded** from the amounts shown for "Planning," "Full Acquisition," and "Operation/Maintenance." The "TOTAL" estimated annual cost of the investment is the sum of costs for "Planning," "Full Acquisition," and "Operation/Maintenance." For Federal buildings and facilities, life-cycle costs should include long term energy, environmental, decommissioning, and/or restoration costs. The costs associated with the entire life-cycle of the investment should be included in this report.

Table 1: SUMMARY OF SPENDING FOR PROJECT PHASES (REPORTED IN MILLIONS)       (Estimates for BY+1 and beyond are for planning purposes only and do not represent budget decisions)									
	PY-1 and Earlier	PY 2007	CY 2008	BY 2009					
Planning:	0.000	0.000	0.000	0.000					
Acquisition:	0.000	0.000	0.000	0.000					
Subtotal Planning & Acquisition:	0.000	0.000	0.000	0.000					
Operations & Maintenance:	118.466	27.401	27.692	30.897					
TOTAL:	118.466	27.401	27.692	30.897					
	Government FTE	Costs should not be includ	led in the amounts provided al	pove					
Government FTE Costs:	11.520	2.251	2.515	2.590					
Number of FTE represented by Costs:	143	18	21	21					

2. Will this project require the agency to hire additional FTE's? No

a. If "yes," How many and in what year? N/A

3. If the summary of spending has changed from the FY2008 President's budget request, briefly explain those changes: Summary of Spending table has been updated to reflect increased costs.

OMB Exhibit 300 BY 2009	Page 4 of 30	12/14/2007

## Section C: Acquisition/Contract Strategy (All Capital Assets)

1. Complete the table for all (including all non-Federal) contracts and/or task orders currently in place or planned for this investment. Total Value should include all option years for each contract. Contracts and/or task orders completed do not need to be included.

					Contra	cts/Task	Orde	rs Ta	ble:							
Contractor Task Order Number	Type of Contract/Task Order	Has the contract been awarded (Y/N)	If so what is the date of the ward? If not, what is the planned award date?	Start & end date of Contact / Task Order	End date of Contract/Task Order	Total Value of Contract/Task Order (\$M)	Is this an Interagency Acquisition? (Y/N)	Is it performance based? (Y/N)	Competitively awarded? (Y/N)	What, if any, alternative financing option is being used? (ESPC, UESC, EUL, N/A)	Is EVM in the contract? N)	Does the contract include the Required security & privacy clauses $2(Y/N)$	Name of CO	CO Contact information (phone/email)	Contracting Officer Certification Level(Level 1, 2, 3, N/A)	If N/A, has the agency determined the CO assigned has the competencies and skills necessary to support this acquisition? Y/N)
GS-35F-4549G NAMA-04-F-0011	FFP / T&M	Yes	Oct 1, 2003	Oct 1, 2003	Sep 30, 2008	\$56.000	No	Yes	Yes	N/A	No	Yes	Anne Hasselbra ck	Anne.Has selbrack@ nara.gov 301-837- 0521	2	Yes
GS-35F-4461G NAMA-07-F-0003	FPO	Yes	Sep 15, 2006	Oct 1, 2006	Sep 30, 2011	\$22.279	No	Yes	Yes	N/A	No	Yes	Anne Hasselbra ck	Anne.Has selbrack@ nara.gov 301-837- 0521	2	Yes
GS-35F-0499K NAMA-07-F-0004	FFP	Yes	Oct 1, 2006	Oct 1, 2006	Sept 30, 2007	\$5.084	No	Yes	Yes	N/A	No	Yes	LaVerne Fields	LaVerne Fields@n ara.gov 301-837- 3063	2	Yes

2. If earned value is not required or will not be a contract requirement for any of the contracts or task orders above, explain why:

This is an Operations and Maintenance contract and does not require EVM.

Do the contracts ensure Section 508 compliance? Yes
a. Explain why:

NARA specifies Section 508 compliance in all contracts, including small acquisitions to ensure that assistive technology, devices, and services are available to all NARA employees and members of the public with disabilities who use NARA Information Technology equipment in NARA facilities. Contractors are required to design, develop, implement, maintain and upgrade all technologies to demonstrate full compliance with all existing accessibility legislation.

- 4. Is there an acquisition plan which has been approved in accordance with agency requirements? Yes
  - a. If "yes," what is the date? 06/06/2003
  - b. If "no," will an acquisition plan be developed? NA
    - 1. If "no," briefly explain why: N/A

#### Section D: Performance Information (All Capital Assets)

In order to successfully address this area of the exhibit 300, performance goals must be provided for the agency and be linked to the annual performance plan. The investment must discuss the agency's mission and strategic goals, and performance measures (indicators) must be provided. These goals need to map to the gap in the agency's strategic goals and objectives this investment is designed to fill. They are the internal and external performance benefits this investment is expected to deliver to the agency (e.g., improve efficiency by 60 percent, increase citizen participation by 300 percent a year to achieve an overall citizen participation rate of 75 percent by FY 2xxx, etc.). The goals must be clearly measurable investment outcomes, and if applicable, investment outputs. They do not include the completion date of the module, milestones, or investment, or general goals, such as, significant, better, improved that do not have a quantitative measure.

Agencies must use the following table to report performance goals and measures for the major investment and use the Federal Enterprise Architecture (FEA) Performance Reference Model (PRM). Map all Measurement Indicators to the corresponding "Measurement Area" and "Measurement Grouping" identified in the PRM. There should be at least one Measurement Indicator for each of the four different Measurement Areas (for each fiscal year). The PRM is available at www.egov.gov. The table can be extended to include performance measures for years beyond FY 2009.

		Per	formance Info	ormation Table	e		
Fiscal Year	Strategic Goal(s) Supported	Measurement Area	Measurement Grouping	Measurement Indicator	Baseline	Target	Actual Results
2007	Goal 6. We will equip NARA to meet the changing needs of our customers	Mission & Business Results	Information Sharing	% of time that public network applications are available	99%	98.8%	99.32% as of 7/31/07
2007	Goal 6. We will equip NARA to meet the changing needs of our customers	Customer Results	Customer Satisfaction	Staff satisfaction with NARA internal IT help desk	N/A	N/A	90.3% as of 7/31/07
2007	Goal 6. We will equip NARA to meet the changing needs of our customers	Processes & Activities	Innovation and Improvement	Percentage of time that internal network are available.	99.85%	99.9%	99.8% as of 7/31/07
2007	Goal 6. We will equip NARA to	Technology	Compliance and Deviations	Maintain overall green rating on	Green	Green	Green

## Section E: Security and Privacy (IT Capital Assets only)

In order to successfully address this area of the business case, each question below must be answered at the system/application level, not at a program or agency level. Systems supporting this investment on the planning and operational systems security tables should match the systems on the privacy table below. Systems on the Operational Security Table must be included on your agency FISMA system inventory and should be easily referenced in the inventory (i.e., should use the same name or identifier).

For existing Mixed-Life Cycle investments where enhancement, development, and/or modernization is planned, include the investment in both the "Systems in Planning" table (Table 3) and the "Operational Systems" table (Table 4). Systems which are already operational, but have enhancement, development, and/or modernization activity, should be included in both Table 3 and Table 4. Table 3 should reflect the planned date for the system changes to be complete and operational, and the planned date for the associated C&A update. Table 4 should reflect the current status of the requirements listed. In this context, information contained within Table 3 should characterize what updates to testing and documentation will occur before implementing the enhancements; and Table 4 should characterize the current state of the materials associated with the existing system.

All systems listed in the two security tables should be identified in the privacy table. The list of systems in the "Name of System" column of the privacy table (Table 8) should match the systems listed in columns titled "Name of System" in the security tables (Tables 3 and 4). For the Privacy table, it is possible that there may not be a one-to-one ratio between the list of systems and the related privacy documents. For example, one PIA could cover multiple systems. If this is the case, a working link to the PIA may be listed in column (d) of the privacy table more than once (for each system covered by the PIA)

The questions asking whether there is a PIA which covers the system and whether a SORN is required for the system are discrete from the narrative fields. The narrative column provides an opportunity for free text explanation why a working link is not provided. For example, a SORN may be required for the system, but the system is not yet operational. In this circumstance, answer "yes" for column (e) and in the narrative in column (f), explain that because the system is not operational the SORN is not yet required to be published.

Please respond to the questions below and verify the system owner took the following actions:

- 1. Have the IT security costs for the system(s) been identified and integrated into the overall costs of the investment: Yes
  - a. If "yes," provide the "Percentage IT Security" for the budget year: 6.00
- 2. Is identifying and assessing security and privacy risks a part of the overall risk management effort for each system supporting or part of this investment. Yes

#### 3. Systems in Planning and Undergoing Enhancement(s), Development, and/or Modernization – Security Table(s):

Name of System	Agency/ or Contractor Operated System?	Planned Operational Date	Date of Planned C&A update (for existing mixed life cycle systems) or Planned Completion Date (for new systems)

# Section F: Enterprise Architecture (EA) (IT Capital Assets only)

In order to successfully address this area of the business case and capital asset plan you must ensure the investment is included in the agency's EA and Capital Planning and Investment Control (CPIC) process, and is mapped to and supports the FEA. You must also ensure the business case demonstrates the relationship between the investment and the business, performance, data, services, application, and technology layers of the agency's EA.

- 1. Is this investment included in your agency's target enterprise architecture? Yes
  - a. If "no," please explain why? N/A
- 2. Is this investment included in the agency's EA Transition Strategy? Yes
  - a. If "yes," provide the investment name as identified in the Transition Strategy provided in the agency's most recent annual EA Assessment.

Technology Progression

b. If "no," please explain why? N/A

3. Is this investment identified in a completed (contains a target architecture) and approved segment architecture? Yes

a. If "yes," provide the name of the segment architecture as provided in the agency's most recent annual EA Assessment: NARA does not have multiple segment architectures – Source: OMB FEA PMO EA Assessment for NARA Q2 FY2007 – March 2007.

#### 4. Service Component Table:

Identify the service components funded by this major IT investment (e.g., knowledge management, content management, customer relationship management, etc.). Provide this information in the format of the following table. For detailed guidance regarding components, please refer to http://www.whitehouse.gov/omb/egov/.

1	for detailed guida	ince regarding of	components, p	lease lefer to http://v	ww.winter	louse.gov/onib/e	egov/.

6. Will the application leverage existing components and/or applications across the Government (i.e., FirstGov, Pay.Gov, etc)? Noa. If "yes," please describe. N/A

# PART III: For "Operation and Maintenance" investments ONLY(Steady State)

Part III should be completed only for investments identified as "Operation and Maintenance" (Steady State) in response to Question 6 in Part I, Section A above.

# Section A: Risk Management (All Capital Assets)

You should have performed a risk assessment during the early planning and initial concept phase of this investment's life-cycle, developed a risk-adjusted life-cycle cost estimate and a plan to eliminate, mitigate, or manage risk, and be actively managing risk throughout the investment's life-cycle.

- 1. Does the investment have a Risk Management Plan? Yes
  - a. If "yes," what is the date of the plan? June 29, 2007
  - b. Has the Risk Management Plan been significantly changed since last year's submission to OMB? Yes
  - c. If "yes," describe any significant changes: Risk Management Plan formally developed to manage risks for this investment.
- 2. If there currently is no plan, will a plan be developed? N/A
  - a. If "yes," what is the planned completion date?  $\,$  N/A  $\,$
  - b. If "no," what is the strategy for managing the risks? N/A

# Section B: Cost and Schedule Performance (All Capital Assets)

- 1. Was operational analysis conducted? Yes
  - a. If "yes," provide the date the analysis was completed. May 25, 2007
  - b. If "yes," what were the results? An operational analysis was completed on 5/25/07. Findings indicate that the overall effectiveness of NARA Operations has been adequate to meet the NARA customers' technology needs. Based on previous feedback and helpdesk reports, NARA Operations has delivered the appropriate level of service and services requested by its customers. Internal customers utilize the Technical Review Board (TRB) and Configuration Control Board (CCB) to recommend changes or enhancements via Change Requests (RFC). NARA has assigned additional staff to assist with communications to its customers, which has helped expedite and resolve service requests. The NARAnet infrastructure is also meeting stated service level agreements for availability and reliability. Operationally, the contractor has met and exceeded the Service Level Agreements to support the systems. The systems are kept up-to-date, accurate, and are followed up by a regular system backup routine, which provides for efficient data archive, recovery, and off-site storage. A negative aspect of the analysis identified that

strategically, NARA is at risk because current IT resources in both staff and equipment cannot keep up with the growing demand for IT support and services. Performance measures are currently monitored through SLAs within various support areas within NARA (i.e. network performance and availability, and help desk responses). Additionally, network and application monitoring capabilities have become paramount to supporting new upgrades to the infrastructure. In order to supply these new services, skilled subject matter experts will need to be hired who will install and maintain these systems; however current budget does not afford NARA or the Operations contractor to hire new staff for these positions. On a positive note, NARA Operations as a whole is currently performing at an adequate level to support its customers' needs however, any future demands for services without an increase in staffing and upgrades to the infrastructure will have an adverse effect on quality of service and support efforts.

- c. If "no," please explain why it was not conducted and if there are any plans to conduct operational analysis in the future: N/A
- 2. Complete the following table to compare actual cost performance against the planned cost performance baseline. Milestones reported may include specific individual scheduled preventative and predictable corrective maintenance activities, or may be the total of planned annual operation and maintenance efforts).

2.b Comparison of Plan vs. Actual Performance Table:						
	Planned		Actual		Variance	
Description of Milestone	Completion Date (mm/dd/yyyy)	Total Cost (\$M)	Completion Date (mm/dd/yyyy)	Total Cost (\$M)	Schedule/Cost (# days/\$M)
