

Capital Asset Realignment for Enhanced Services (CARES)

Business Plan Studies for Louisville, Kentucky

Presentation to the Local Advisory Panel

Introduction and Background

- **The Secretary's CARES Decision Document, May 2004, calls for additional studies to improve the previous analyses for eighteen sites**
- **Louisville, KY is one of these study sites**
- **Team PricewaterhouseCoopers (PwC) was selected as the prime contractor to complete these studies**

Study Objective

Identify the optimal approach to provide veterans with healthcare equal to or better than is currently provided in terms of:

- **Access**
- **Quality, and**
- **Cost Effectiveness**

Study Outcomes

As a result of this study, VA will receive a broad range of healthcare options to meet VA's current and forecasted needs, from which the VA will select 3 to 6 options to study further, from which one option will be recommended.

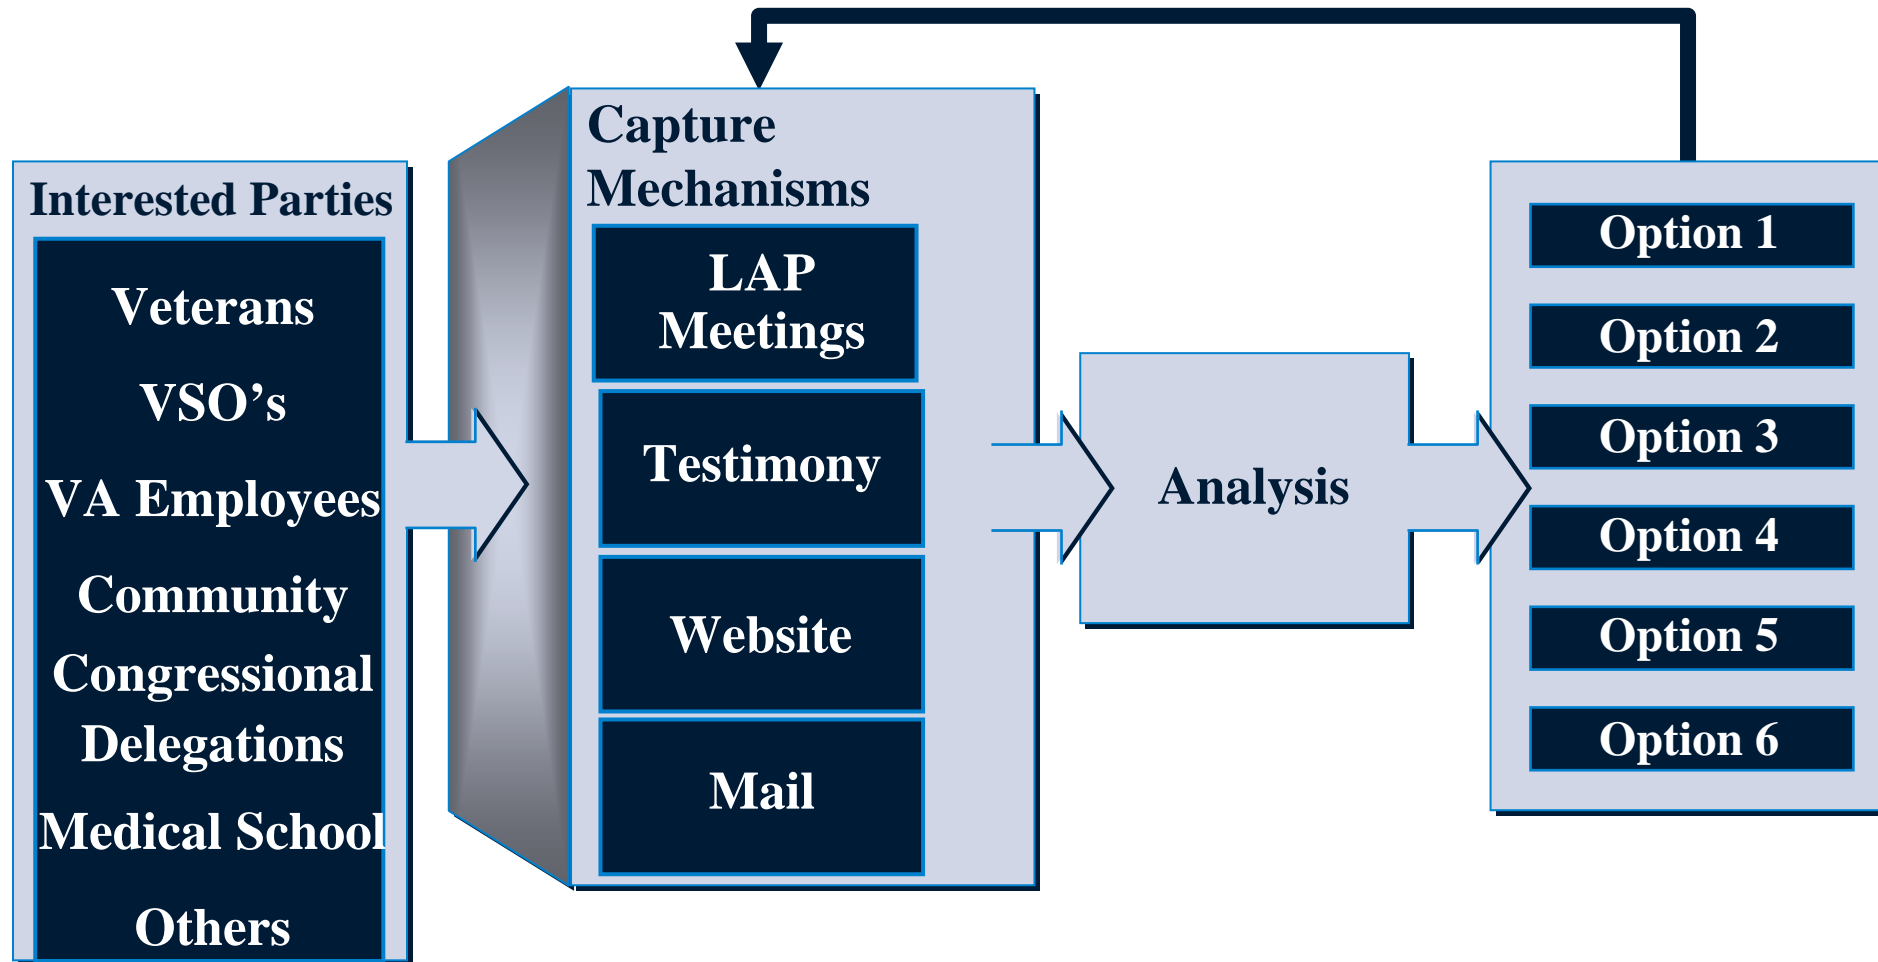

Any option selected by the Secretary which requires capital investment will have to compete with all other construction initiatives currently requiring funding.

Study Considerations

- **Demand for services based on VA forecasts**
- **Access to services**
- **Quality of care**
- **Research and education**
- **Capital requirements**
- **Cost – operating and capital**
- **Consider collocation opportunities**
- **Potential for collaboration with other healthcare providers**

Public and Interest Group Input Process

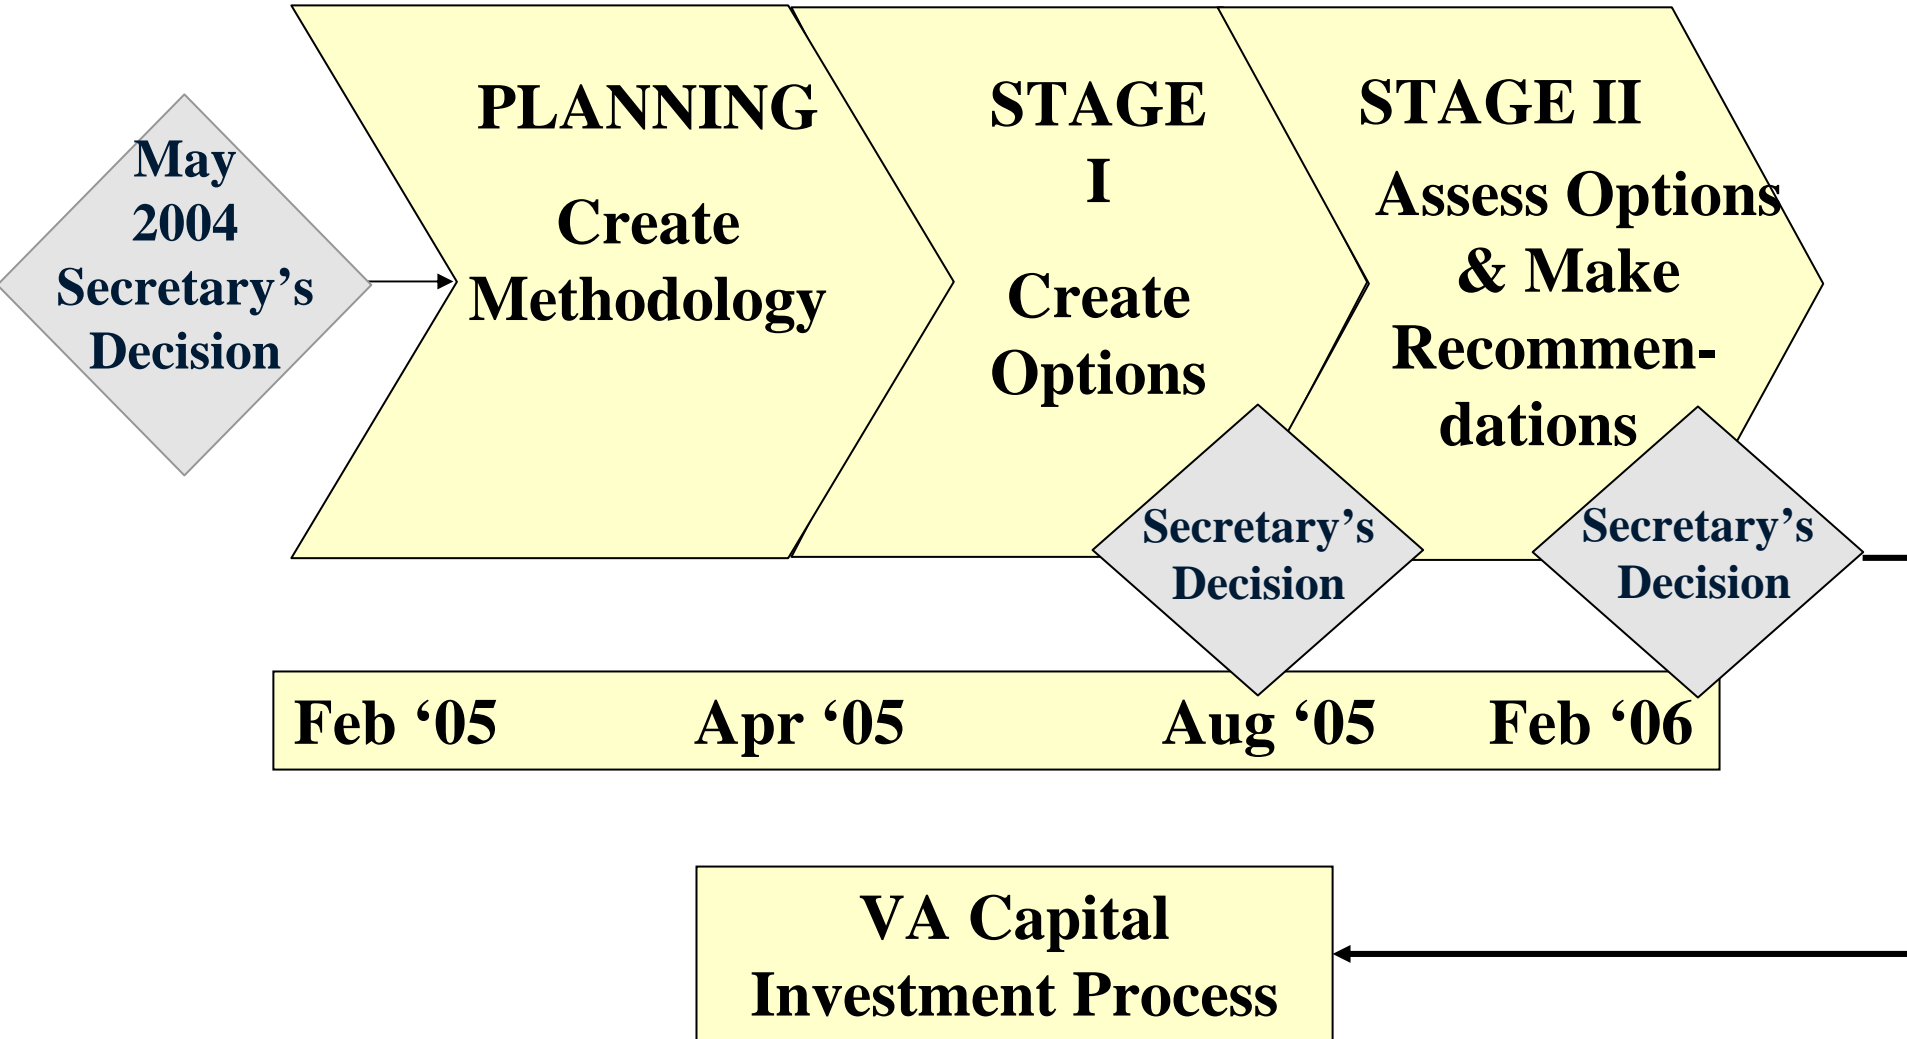

Study Scope for Louisville, KY

- **Healthcare Delivery Study – Determine type and volume of services and best location**
- **General Capital Plan – Determine best design and use of VA’s assets**
- **General Re-use/Redevelopment Plan – Determine real estate potential for each campus**
- **Financial Analysis – Develop a cost effectiveness analysis**
- **Public and Veterans’ Interest Group Input – Capture Public/Veterans’ Opinions and Preferences**

Project Overview

Veteran and Public Input

Stage I Business Plan Options and Decisions

Stage I

- **Develop a broad range of credible options**
 - Type of services
 - Where and how they can be provided
 - Alternative capital / infrastructure plans
 - Re-use/Redevelopment potential of VA healthcare resources
- **Assess each option's potential to meet or exceed the CARES objectives**
- **Take into account veteran/public needs and concerns**
- **All options will be presented from which six credible options will be considered for further study in Stage II**

VA Decision

Which of the options should be selected for detailed study in Stage II

Stage II Business Plan Options and Decisions

Stage II

- Detailed development and analysis by Team PwC of VA's selected business plan options
- Provide opportunity for veteran/public input
- Take into account veteran/public needs and concerns
- PwC independently selects a recommended business plan option
- Prepare a draft business plan for the recommended option

VA Decision

Approval of a recommended business plan option for implementation at each study site

Overview of the Option Development Process

Inputs & Analysis

VA Forecast of Demand for Healthcare

Existing Facilities and Services

Future Modernization Needs

Public/Veteran Opinions and Preferences

Potential Re-use / Redevelopment of Land or Buildings

Option Development

Healthcare Study

Facilities Requirements

Capital Planning

Land and Space that could be Marketed

Re-use / Redevelopment Planning

Alternative Options

Financial Evaluation and Assessment

The Baseline Option

No significant change either to the location or type of services provided in the study site, taking account of:

- **Projected changes in healthcare volume for particular procedures**
- **Ongoing preventative maintenance of buildings**
- **Capital investment required to maintain a safe healthcare delivery environment**

Alternative Business Plan Options

Alternatives to consider and as defined in the Secretary's CARES Decision Document, May 2004. Options could contain any combination of the following, but not limited to:

In house services

Locating complementary services

Contracting/fee basing services

Joint Ventures with DoD

Leasing of space

Newly located hospital

Transferring care

Sharing agreements

Renovation of an existing site

Enhanced Use Lease Authority

Business Plan Option Decision Criteria

Each acceptable Business Plan Option (BPO) will meet or exceed the following screening criteria:

- **Maintain or improve overall healthcare quality**
- **Maintain or improve veterans' access to care**
- **Result in a cost effective configuration of VA physical and operational resources**
- **Result in a modernized, safe and secure healthcare delivery environment**
- **Maximize the re-use/redevelopment potential of VA-owned sites**

The VA's Role

Oversight of Contract

- **Review of all deliverables**
- **Evaluation of feedback from Local Advisory Panels**

VA Provided Information

- **Local site team assistance**
- **Demand forecasts**
- **Baseline operating costs**
- **Facility plans and facility quality assessments**
- **Collaboration opportunities**
- **Environmental hazards**
