

ONLINE FEMA COURSES AVAILABLE
AT UNITED TRIBES TECHNICAL COLLEGE IN BISMARCK, ND

The need for emergency managers at the Federal level has been steadily increasing as our society becomes more complex and vulnerable. Also, many private businesses and agencies hire security managers and other personnel who have a background in emergency management. Numerous jobs are available in this field.

United Tribes Technical College is working in collaboration with FEMA and North Dakota State University to provide students and professionals with opportunities for advancement in the field of Emergency Management.

Professionals from a wide variety of public and private agencies will find the courses essential in advancing their careers. Also, students in a wide range of subject areas choose to take Emergency Management as a Minor or second Major. UTTC students can take courses sequentially as they work towards certificates and degrees. Courses can also be transferred to other universities.

COURSES AVAILABLE ONLINE: FALL 2003:

- EMP 101 Emergency Planning: offers training in the fundamentals of the emergency planning process.
- EMP 102 Principles of Emergency Management: introduces the fundamentals of emergency management as an integrated system,
