1. Transfer of Manufacture Rights. Effective on _____, the Company did sell or otherwise transfer to _____ ("Successor in Interest") the rights and liabilities associated with manufacture of the above-referenced chemical substance, which was the subject of a Low Release and Exposure Exemption (LOREX) governed by the LOREX rule at 40 CFR 723.50(c)(2), promulgated by the U.S. Environmental Protection Agency (EPA) under authority of §5(h)(4) of the Toxic Substances Control Act (TSCA, 15 U.S.C. §2604(h)(4)).

2. Assumption of Liability.

(a) The Successor in Interest shall be liable for compliance with the requirements of this LOREX effective as of the date and time of transfer. The Successor in Interest hereby certifies that, as of the effective date of transfer, all actions or omissions governed by the applicable TSCA LOREX limiting manufacture, processing, use, distribution in commerce and disposal of the LOREX substance, shall be the responsibility of the Successor in Interest. Successor in Interest also certifies that it is incorporated, licensed, or doing business in the United States in accordance with 40 CFR 720.22(3).

(b) The Company shall be liable for compliance with the requirements of this LOREX until the effective date and time of the transfer described above. Nothing in this notice shall be construed to prohibit EPA from taking enforcement action against the Company after the effective date of the transfer for actions taken, or omissions made, during the time in which the Company manufactured, processed, used, distributed in commerce, or disposed of the LOREX substance pursuant to the terms of this LOREX.

3. Certification of Compliance. Successor in Interest further certifies that Successor in Interest will not, without satisfying the applicable notice requirements, engage in any changes to operations involving the LOREX substance that would require submission to EPA of a new LOREX notice (or other TSCA §5 notice) pursuant to 40 CFR 723.50(j).
