

# Voice Response Software

**(ADVISE)**

Version 1.0  
November 15, 2007

A component of:

**SIGNAL**

Simulation and Integration of Ground, Network, and Air Links

### Status:

Operational

### Connections:

Advise connects to charter as a client. Other processes such as PRMCS and Pilot use Advise as a Voice Response Server.

### Overview:

This project's goal is to add Voice Response capability to the SIGNAL software. This software allows prompts to be send into the Communication System as if it came from a Pilot or other Controller.
