Operator

Version 1.0
November 14, 2007

A component of:

SIGNAL

Simulation and Integration of Ground, Network, and Air Links

Status:

Operational

Connections:

Operation connects to Charter as a client. It allows Plane Interface Link Object Tool (PILOT) and Precision Runway Monitor Controller Simulator (PRMCS) to connect as a client. Operator also can connect to multiply Advises as a client.

Overview:

This projects goal was to allow a method of routing messages to various Voice Response Messages (ADVISE) to simulate background Communication Traffic on a Frequency. Basically it functions like a telephone operator directing phone messages to various people.
