

Weather Radar Processor (WARP)

Version 1.0
November 14, 2007

A component of:

SIGNAL

Simulation and Integration of Ground, Network, and Air Links

Status:

Operational

Connections:

This software connects to Charter as a client and provides Server Communication for the DSR WARP Logical Interface Unit (LIU).

Overview:

This project converts the SIGNAL weather patterns into DSR WARP information. The DSR WARP LIU connects as a client and is passed the DSR WARP information every 30 seconds.
