

Safety Engineering Group Update

ES&H Coordinators Meeting

January 17, 2007

Steve Kane, CSP, PE

Overview

- GFCI Testing
- DOE Material Handling Assessment
- Pressure Safety Gap Analysis
- Subject Area Updates

GFCI Testing

GFCI Testing

- See Testing Procedure, courtesy of Bob Colichio
- Intermittent Use
 - Label being developed
 - “Test Before Use”
- Regular Use
 - ?

Material Handling Assessment

DOE Material Handling Assessment

- DOE Assessment January 22-25, 2007
- POCs Compiled, Materials submitted
- IA&O Assessment CAP put into ATS
 - Most Items already closed
- New Forklift Subject Area hopefully issued today
 - New inspection checklists
 - Only implementation impact (besides checklists) is one year to have PE inspect Forklifts
- Any scheduled activities for next week yet?

Pressure Safety Gap Analysis

Pressure Safety Gap Analysis

- Not too many on hand yet
 - Received maybe 5?
 - Needs to be submitted to SE this week
 - Compilation will take time and we don't have much left
- Many vessels have ASME stamp
 - Piping is pretty sketchy

Subject Area Updates

Subject Area Update

- New Forklift SA to be issued as soon as today
 - Replaces Section 6 of Lifting Safety SA
 - Formalizes Attachment Approval Procedure
 - Periodic (Annual) Inspection by HEMO Shop includes inspection of Forks
 - Map shows grade issues and weight limits
 - More work planning required

Subject Area Updates

- Lifting Safety
 - Update when Forklift is issued
 - Will have more clarification on color coding and what it means
 - Color indicates year of inspection
 - Date on tag indicates inspection due date

Compressed Gas Safety Responses

- Question last time about Transfilling
 - Doesn't appear that anyone is doing transfilling
- We didn't resolve 'not in use' last time
 - Time limit is fuzzy, but OSHA says 48 hours for welding and hot work
 - What should we do?

Subject Area Update

- Minor update on Traffic Safety in work
 - Railroad Car Safety
- Pressure Safety Subject Area in work
 - Being reviewed by Pressure Safety Subcommittee of LESHC
- Fall Protection is due

Subject Area Update

- What role do you want in Subject Area Updates?
