

other forms of information technology; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be received by February 7, 2003, to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to splimpto@nsf.gov.

FOR FURTHER INFORMATION CONTACT: Suzanne Plimpton on (703) 292-7556 or send e-mail to splimpto@nsf.gov.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title of Collection: 2003 and 2005 Survey of Scientific and Engineering Research Facilities.

Expiration Date of Approval: August 31, 2002.

Type of Request: Intent to seek approval to reinstate, with revisions, an information collection for three years.

Proposed Project: The National Science Foundation Survey of Scientific and Engineering Research Facilities is a Congressionally mandated (Pub. L. 99-159), biennial survey that has been conducted since 1986. The survey collects data on the amount, condition, and costs of the physical facilities used to conduct science and engineering research. It was expected by Congress that this survey would provide the data necessary to describe the status and needs of science and engineering research facilities and to formulate appropriate solutions to documented needs. During the 1999 and 2001 survey cycles, data were collected from a population of approximately 600 research-performing colleges and universities. This survey population was supplemented with approximately 250 nonprofit biomedical research institutions receiving research support from the National Institutes of Health. During the 2001 cycle, a very limited survey consisting of two questions was fielded in order to allow the National Science Foundation to focus on updating and redesigning the survey. Through this extensive redesign effort, a

new section has been added to the survey requesting information on the computing and networking capacity at the surveyed institutions, an increasingly important part of the infrastructure for science and engineering research. Other important changes include the deletion of a question on the adequacy of research space, the deletion of the Large Facilities Follow-up Survey, the additional collection of data on individual construction projects and the addition of a more detailed question on how research space is divided among laboratories, laboratory support space, and office space.

Use of the Information: Analysis of the Facilities Survey data will provide updated information on the status of scientific and engineering research facilities. The information can be used by Federal policy makers, planners, and budget analysts in making policy decisions, as well as by academic officials, the scientific/engineering establishment, and state agencies that fund universities.

Burden on the Public: The Facilities Survey will be sent by mail to approximately 600 academic institutions and 250 nonprofit research organizations and hospitals. The completion time per academic institution is expected to average 30 hours and the completion time per research organization/hospitals is expected to average 5 hours. Assuming a 90% response rate, this would result in an estimated burden of 16,200 hours for academic institutions and 1,125 hours for nonprofit research organizations/hospitals.

Dated: December 4, 2002.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-M

NEIGHBORHOOD REINVESTMENT CORPORATION

Sunshine Act Meeting

TIME AND DATE: 2 PM, Wednesday, December 11, 2002.

PLACE: Washington Hilton & Towers Hotel, 1919 Connecticut Avenue NW, Cabinet Room, Concourse Level, Washington, DC 20009.

STATUS: Open/Closed.

CONTACT PERSON FOR MORE INFORMATION: Jeffrey T. Bryson, General Counsel/Secretary, (202) 220-2372.

Agenda

- I. Call to Order
- II. Approval of Minutes: September 10, 2002 Regular Meeting
- III. Audit Committee Meeting 11/18/02
- IV. Treasurer's Report
- V. Executive Directors Report
- VI. Executive Session (CLOSED)
 - A. Personnel Committee Meeting 11/15/02
- VII. Adjournment

Jeffrey T. Bryson,

General Counsel Secretary.

BILLING CODE 7570-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-269, 50-270, and 50-287]

Duke Energy Corporation; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Duke Energy Corporation (the licensee) to withdraw its December 6, 2002, application for proposed amendments to Renewed Facility Operating License Nos. DPR-38, DPR-47, and DPR-55 for the Oconee Nuclear Station, Units 1, 2, and 3 located in Seneca, South Carolina.

The proposed amendments would have revised Technical Specification (TS) 3.7.16, "Control Room Area Cooling System (CRACS)," that currently requires entry into TS 3.0.3 when two trains of CRACS are inoperable. The proposed amendments would have eliminated the required entry into TS 3.0.3 and would have allowed 6 hours to restore the operability of one train.

The Commission had previously issued a notice of consideration of issuance of amendment published in the **Federal Register** on February 5, 2002 (67 FR 5326). However, by letter dated November 26, 2002, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated December 6, 2002, and the licensee's letter dated November 26, 2002, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public
