Proposed Project: National Vital Statistics Report Forms (OMB No. 0920-0213)—Extension—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background

The National Vital Statistics Report Forms (0920-0213) is an approved collection of the compilation of national vital statistics. This collection dates back to the beginning of the 20th century and has been conducted since

1960 by the Division of Vital Statistics of the National Center for Health Statistics, CDC. The collection of the data is authorized by 42 U.S.C. 242k. The National Vital Statistics Report forms provide counts of monthly occurrences of births, deaths, infant deaths, marriages, and divorces. Similar data have been published since 1937 and are the sole source of these data at the national level. The data are used by the Department of Health and Human Services and by other government, academic, and private research and commercial organizations in tracking changes in trends of vital events.

Respondents for the Monthly Vital Statistics Report Form (CDC 64.146) are registration officials in each State and Territory, the District of Columbia, and New York City. In addition, 60 local (county) officials in New Mexico who record marriages occurring and divorces and annulments granted in each county of New Mexico will use this Form. The data are routinely available in each reporting office as a by-product of ongoing activities. This form is designed to collect counts of monthly occurrences of births, deaths, infant deaths, marriages, and divorces immediately following the month of occurrence. There are no costs to respondents.

Respondents to the form: Monthly Vital Statistics Report (CDC 64.146)	No. of respondents	No. of responses/re-spondent	Avg. burden/response (in hours)	Total burden (in hours)
State and Territory registration officials	57	12	12/60	137
New Mexico County officials	60	12	6/60	72
Total				209

The Annual Marriage and Divorce Statistical Report Form (CDC 64.147) collects final annual counts of marriages and divorces by month for the United States and for each State. The statistical counts requested on this form differ from provisional estimates obtained on the Monthly Vital Statistics Report Form in that they represent complete and final counts of marriages, divorces, and annulments occurring during the months of the prior year. These final counts are usually available from State

or county officials about eight months after the end of the data year. The data are widely used by government, academic, private research, and commercial organizations in tracking changes in trends of family formation and dissolution.

Respondents for the Annual Marriage and Divorce Statistical Report Form are registration officials in each State, the District of Columbia, New York City, Guam, Puerto Rico, Virgin Islands, Northern Marianas, and American

Samoa. In addition, counts of marriages will be collected from individual counties in New Mexico, and counts of divorces will be collected from individual counties in California, Colorado, Indiana, Louisiana, New Mexico, and the boroughs of New York City due to a lack of centralized complete collections in these registration areas. The data are routinely available in each reporting office as a by-product of ongoing activities.

Respondents	No. of respondents	No. of responses/re-spondent	Avg. burden/response (in hours)	Total burden (in hours)
State/Territory/City registration officials	56	1	30/60	28
County/Borough officials	348	1	30/60	174
Total				202
