

draft EIS in the **Federal Register** at that time. The comment period on the draft EIS will extend for 45 days from the date the EPA notice appears in the **Federal Register**. At that time, copies of the draft EIS will be mailed to potentially interested and affected agencies, organizations, and individuals for their review and comment and to those who provided comment during the scoping period. It is very important that those interested in the Cottonwood Fire Vegetation Management Project participate by providing comment at that time.

The final EIS would be completed in April 2003. In the final EIS, the Forest Service is required to respond to substantive comments received during the comment period that pertain to the environmental consequences discussed in the draft EIS, as well as applicable laws, regulations, and policies considered in making the decision regarding this proposal.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court ruling related to public participation in the environmental review process. First, reviewers of Draft Environmental Impact Statement must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the Draft Environmental Impact Statement stage, but that are not raised until after completion of the FEIS, may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the two-week comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the FEIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the DEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the DEIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for

implementing the procedural provisions of the National Environmental Policy Act of 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Dated: October 30, 2002.

Steven T. Eubanks,

Forest Supervisor, Tahoe National Forest.
