

who have just completed ninth grade to select careers in science, mathematics, and/or research, and (2) broadening and enriching students' science, research, and sociocultural backgrounds. The program was a 5- to 6-week residential program taking place on two university campuses—University of Kentucky, Lexington, and San Diego State University—in summers 1998–2002. The 5-year evaluation was designed as

a controlled, longitudinal study, consisting of the five SEP cohorts and two cohorts of control group students who did not attend the program. The evaluation will provide NCI with valuable information regarding specific components that promoted or limited the program's effectiveness, the extent to which the program was implemented as planned, how much the two regional programs varied, and how the program

can be improved or made more effective. NCI will use this information to make decisions regarding continuation and expansion of the program. *Frequency of Response:* One time. *Affected Public:* Individuals or households. *Type of Respondents:* High school and college students. *Cost to Respondents:* \$9,600. The annual reporting burden is as follows:

Type of respondents	Average number of respondents/Yr.	Frequency of response	Average time per response	Average annual hour burden
Estimates of Hour Burden: Burden not Previously Approved (1998–2002)				
SEP Participants	200	1	0.5	100
Control Group Students	200	1	0.5	100
Control Group Students	100	2	1.00	100
Total	500			300
Estimates of Hour Burden: Burden Requested				
SEP Participants	500	2 ¹	0.5	250
Control Group Students	300	2 ¹	0.5	150
Total	800			400

¹ Pre and post.
² Follow up.

There are no Capital Costs, Operating Costs, and/or Maintenance Costs to report.

Requests for Comments: Written comments and/or suggestions from the public and affected agencies on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Mr. Frank Jackson, Center to Reduce Cancer Health Disparities, National Cancer Institute, National Institutes of Health, 6116 Executive Boulevard, Suite 602, Rockville, MD 20852, or call non-toll-

free number (301) 496–8589, or E-mail your request, including your address to: fj12i@nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of this publication.

Dated: November 25, 2002.

Submission for OMB Review; Comment Request; Tobacco Use Supplement to the Current Population Survey: 2003 Tobacco Use Special Cessation Supplement to CPS

Summary: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on August 15,

2002, page 53357 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comments. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: Tobacco Use Supplement to the Current Population Survey: 2003 Tobacco Use Special Cessation Supplement to CPS. *Type of Information Collection Request:* Revision of OMB #0925–0368, Expiration 02/28/2003. *Need and Use of Information Collection:* The 2003 Tobacco Use Special Cessation Supplement to the Current Population Survey conducted by the Census Bureau will collect data from the civilian non-institutionalized population on tobacco use and smoking prevalence, cessation behavior (*i.e.*, quit attempts, successful quitting), use of cessation products and methods, measure level of addiction and plans to quit, workplace smoking policies, health professional advice to stop smoking, and use of different types of cigarettes and potential harm reduction products. This survey will provide invaluable information to government agencies, other scientists and the general public necessary for

tobacco control research, as well as measure progress toward tobacco control as part of the National Cancer Institute's Extraordinary Opportunities in Tobacco Research. This survey is part of a continuing series of surveys that were sponsored by NCI and fielded periodically over the 1990's by the Census Bureau as part of the American Stop Smoking Intervention Study for Cancer Prevention (ASSIST) project and made available for general public use. The Tobacco Use Supplements will be continuing over the next decade alternating between a standard or core tobacco use survey (such as the 2001-2002 survey) and a special topic survey focusing on emerging tobacco control issues (such as this 2003 Tobacco Use Special Cessation Supplement). The survey will allow state specific estimates to be made. Data will be collected in February 2003, June 2003 and November 2003 from approximately 265,000 respondents. The National Cancer Institute is co-sponsoring this survey with the Centers for Disease Control and Prevention. *Frequency of Response:* One-time study. *Affected Public:* Individual or households. *Type of Respondents:* Persons 15 years of age or older. The annual reporting burden is as follows: *Estimated Number of Respondents:* 88,333; *Estimated Number of Responses per Respondent:* 1; *Averaging Burden Hours Per Response:* 0.1169; and *Estimated Total Annual Burden Hours Requested:* 10,326. The total cost to the respondents is estimated at: \$309,800. There are no Capital Costs, Operating Costs, and/or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

Direct Comments to OMB: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response

time, should be directed to: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503. Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Anne Hartman, Health Statistician, National Cancer Institute, Executive Plaza North, Suite 4005, Bethesda, Maryland 20892-7344, or call non-toll free (301) 496-4970, or FAX your request, to (301) 435-3710, or E-mail your request, including your address, to ah42@nih.gov or Anne.Hartman@nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 30 days of the date of this publication.

Dated: November 26, 2002.

National Institutes of Health

National Eye Institute, Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Eye Institute Special Emphasis Panel, SBIR Meeting.

Date: December 10, 2002.

Time: 8 a.m. to 6 p.m.

Agenda: To review and evaluate grant applications.

Place: Embassy Suites at the Chevy Chase Pavilion, 4300 Military Road, NW., Washington, DC 20015.

Contact Person: Samuel Rawlings, PhD, Chief, Scientific Review Branch, Division of Extramural Research, National Eye Institute, Bethesda, MD 20892. 301-451-2020.

This notice is being published less than 15 days prior to the meeting due to the timing

limitations imposed by the review and funding cycle.
