Introduction

Purpose of the End-of-Year Report

The Federal Pell Grant End-of-Year Report presents primary aspects of Federal Pell Grant Program activity for the 2004-2005 award period.

This presentation is a compilation of quantitative program data assembled to offer insights into the changes to the Title IV applicant universe and the Federal Pell Grant Program. The Federal Pell Grant End-of-Year Report provides factual information and highlights important programmatic issues.

Since 1973, the Office of Postsecondary Education has compiled summary information on Title IV applicants and Federal Pell Grant Program activity. The information provides a basis for program planning and development. The Report can also be used by policy makers to estimate the potential impact of actual or proposed policies on Pell Grant recipients and federal aid applicants. In addition, the End-of-Year Report can assist researchers, students, higher education officials and financial aid administrators to better understand current patterns of Federal Pell Grant disbursements and Title IV applicant activity.

The Title IV/Federal Pell Grant Program End-of-Year Report is produced by Pearson, Inc., under contract to the Office of Postsecondary Education of the U. S. Department of Education. Comments, questions, or requests for copies should be addressed to:

Federal Pell Grant Program

Title IV Programs are managed by the Office of Federal Student Aid within the U.S. Department of Education. The programs are authorized by the

Higher Education Act of 1965 and as amended by the Higher Education Amendments Act of 1998.

A formula established by Congress is used to calculate a student's Expected Family Contribution (EFC). This is the amount that a family can be expected to contribute towards the student's cost of attendance. For the Federal Pell Grant Program the EFC is used to determine the financial eligibility of the student.

The Federal Pell Grant Program is designed to help the neediest undergraduate students. For many students, Federal Pell Grants provide a foundation of financial aid, to which aid from other federal and non-federal sources may be added. The program provided grants ranging from \$400-\$4,050 to over 5.3 million students in 2004-2005. Since its inception in 1973, expenditures for the Federal Pell Grant Program have increased more than hundred-fold (not adjusting for inflation) to over \$13.1 billion in 2004-2005.

Databases for the End-of-Year Report Tables

All tables in the 2004-2005 End-of-Year Report are derived from a merged file containing Title IV applicant and Federal Pell Grant recipient data through January 2006. The applicant data are from the student applications processed by the central processing system; recipient information is from the common origination and disbursement system. Since the Pell Grant recipient system continues to process data long after the end of the award year, some unreconciled student payment data may be included in the universe file. The potential number of students with this unreconciled payment data is very small, and would have minimal impact on the dollar figures and student distributions herein presented.

Eligibility

The Federal Pell Grant is distinguished from other financial assistance in that all students meeting certain criteria are guaranteed aid, with the amount of aid determined by financial need, enrollment level and educational cost. However, because of limited funding, the program is not a true entitlement, as benefits may be reduced from those anticipated under a fully-funded system. To be eligible for a grant, an individual must meet certain residency requirements,

be enrolled in an eligible program at a school participating in the Federal Pell Grant Program, and be determined to have sufficient financial need.

As mentioned above, financial need for 2004-2005 is calculated using formulae mandated by Congress in the Higher Education Amendments Act of 1998. These formulae, applied consistently to all applicants, take into account such indicators of financial strength as income, assets, and family size. The calculation result, called the Expected Family Contribution (EFC), is combined with the cost of the student's education and the student's enrollment status (full-time, three-quarter-time, half-time or less than half-time) to determine the amount of the Federal Pell

Grant (although cost of education only affects the student's award amount if the cost is less than \$4,050). Tuition may also be a factor in calculating the amount of the award for students enrolled at low-tuition schools.

The lower the EFC, the greater the demonstration of a student's financial need. Consequently, the amount of the grant increases as the EFC decreases, such that an applicant with the minimum EFC of zero may generally receive the maximum award equal to the applicant's educational cost for the year up to \$4,050. Proportionally smaller awards are made to part-time students.

Section 1: Highlights of the Federal Pell Grant Program

Figure 1: Percentage of Title IV Applicants Eligible for a Federal Pell Grant by Family Income.

Source: 2004-2005 Title IV/Federal Pell Grant End-of-Year Report

This chapter highlights key 2004-2005 Federal Pell Grant Program statistics. Exhibit 1 at the end of this section summarizes some of the most notable changes in 2004-2005, illustrated by various tables throughout the End-of-Year Report.

Applicant Summary

In the 2004-2005 award year, 13,538,240 students enrolled in higher education applied for Title IV aid. This represents a 4.06 percent increase over the number of applicants in 2003-2004 and constituted an 89.64 percent increase since 1990-91.

Of the students who applied for Federal Student aid in 2004-2005, 51.8 percent are eligible to receive a Federal Pell Grant. 33.5 percent did not qualify to receive a grant and the status of the remaining 2.5 percent could not be determined because they

provided insufficient information on the application and did not complete application processing.

Recipient Summary

Several changes came about as a result of the enactment of the 1992 Amendments to the Higher Education Act and have been in effect since 1993-94. Most notably, changes were implemented regarding the criteria and eligibility of independent students. Married and/or graduate or professional students are automatically considered independent. In addition, a student is no longer considered to be independent solely on the basis of having received \$4,000 in resources for 2 years. Also, the need analysis formulae were divided into two classifications of independents: independent with dependents other than a spouse, and independents without dependents other than a spouse, with significantly higher

Figure 2: Family Income of Federal Pell Grant Recipients.

Source: 2004-2005 Title IV/Federal Pell Grant End-of-Year Report

contributions from the latter group. This latter group experienced a decrease in eligibility rates under the new rules.

Consistent with the intent of the Federal Pell Grant Program, the data shows that grants are directed towards the lowest income students. As shown in Figure 1, 57.6 percent of applicants eligible to receive a Federal Pell Grant report income of \$20,000 or less, in comparison, only 42.4 percent of eligible applicants report income greater than \$20,000. The percents differ by dependency status. For instance, 98.0 percent of eligible independents with no dependents have incomes of \$20,000 or less, while 39.2 percent of parents of eligible dependent applicants have incomes of less than \$20,000, and 60.8 percent have incomes of \$20,000 or more.

Most actual Pell Grant recipients are also in the lower income ranges. In 2004-2005, only 43.6 percent of all recipients report family income of greater than \$20,000. Figure 2 shows that independents are more

likely to be in the lower income ranges than dependents: 38.2 percent of all independents report family income of \$9,000 or less compared to only 13.9 percent of dependent recipients. Likewise, about 61.3 percent of dependents report family income greater than \$20,000 while only 31.1 percent of independents report income in this range.

The average family income for the total recipient population decreased 0.83 percent from \$19,460 in 2003-2004 to \$19,299 in 2004-2005. Dependents experienced a decrease (.08 percent) in average family income from \$24,912 in 2003-2004 to \$24,893 in 2004-2005. Independents had a decrease of 1.1 percent, from \$15,474 to \$15,299.

Most 2004-2005 recipients reported few available assets. More than nine out of ten (96.6 percent) recipients have net assets of less than \$25,000. Over ninety-nine percent of independent recipients had less than \$25,000 in net assets compared to 92.8 percent of dependent recipients.

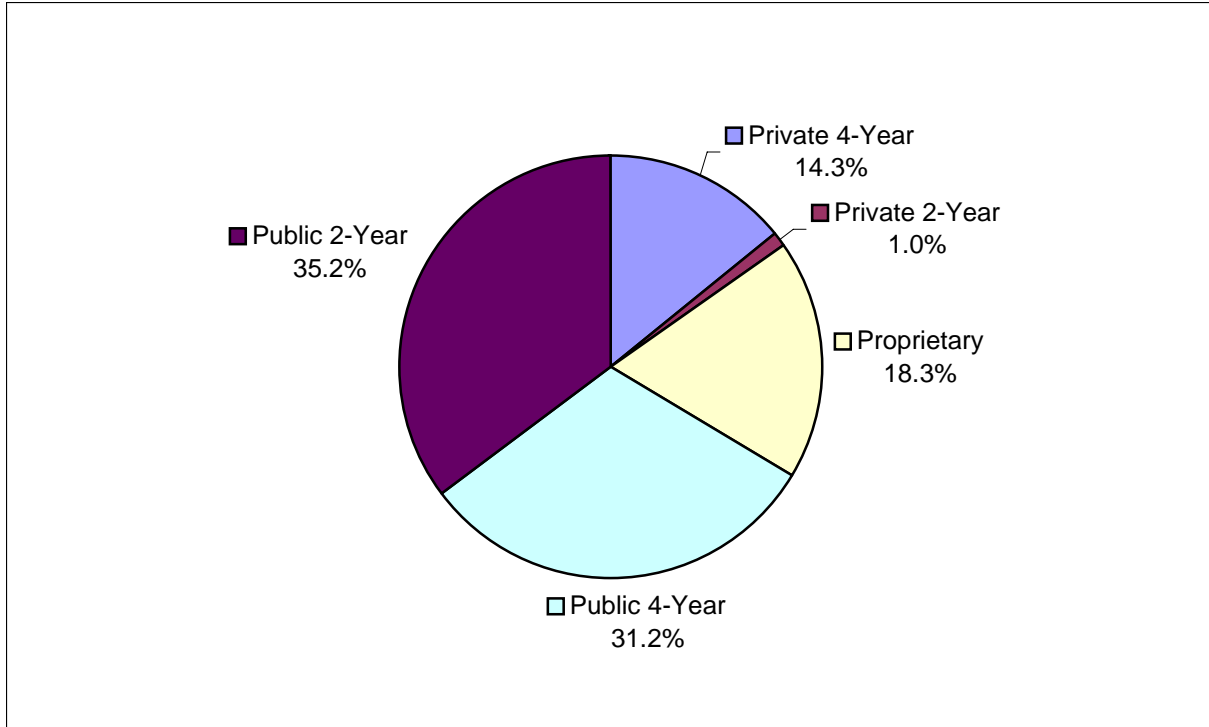

Figure 3: Federal Pell Grant Recipients by Type and Control of Institutions

Source: 2004-2005 Title IV/Federal Pell Grant End-of-Year Report

Expenditure Summary

The average grant rose from \$2,473 in 2003-2004 to \$2,477 in 2004-2005 (a 0.16 percent increase), reflecting no change in the maximum grant available to Federal Pell Grant recipients (\$4,050 in 2003-2004 and \$4,050 in 2004-2005). Total grants for the 2004-2005 cycle are \$13.1 billion dollars, a \$442.0 million, or 3.4 percent, increase from 2003-2004.

enroll fewer recipients, with private 4-year institutions accounting for 14.3 percent of recipients and private 2-year schools enrolling only 1.0 percent of all recipients. Proprietary institutions account for 18.3 percent of Federal Pell Grant recipients.

Institutional Characteristics

In 2004-2005, 5,427 institutions participated in the Federal Pell Grant Program. 36.1 percent of the institutions participating in the program are public schools. Proprietary schools are next in number, representing 35.5 percent of the total. Private non-profit institutions account for the remaining 28.4 percent of all schools. This information is found on Table 18.

Enrollment of Federal Pell Grant recipients vary by type and control of school (Figure 3). Public 2-year and 4-year institutions enrolled 35.2 and 31.2 of all recipients, respectively. Private non-profit institutions

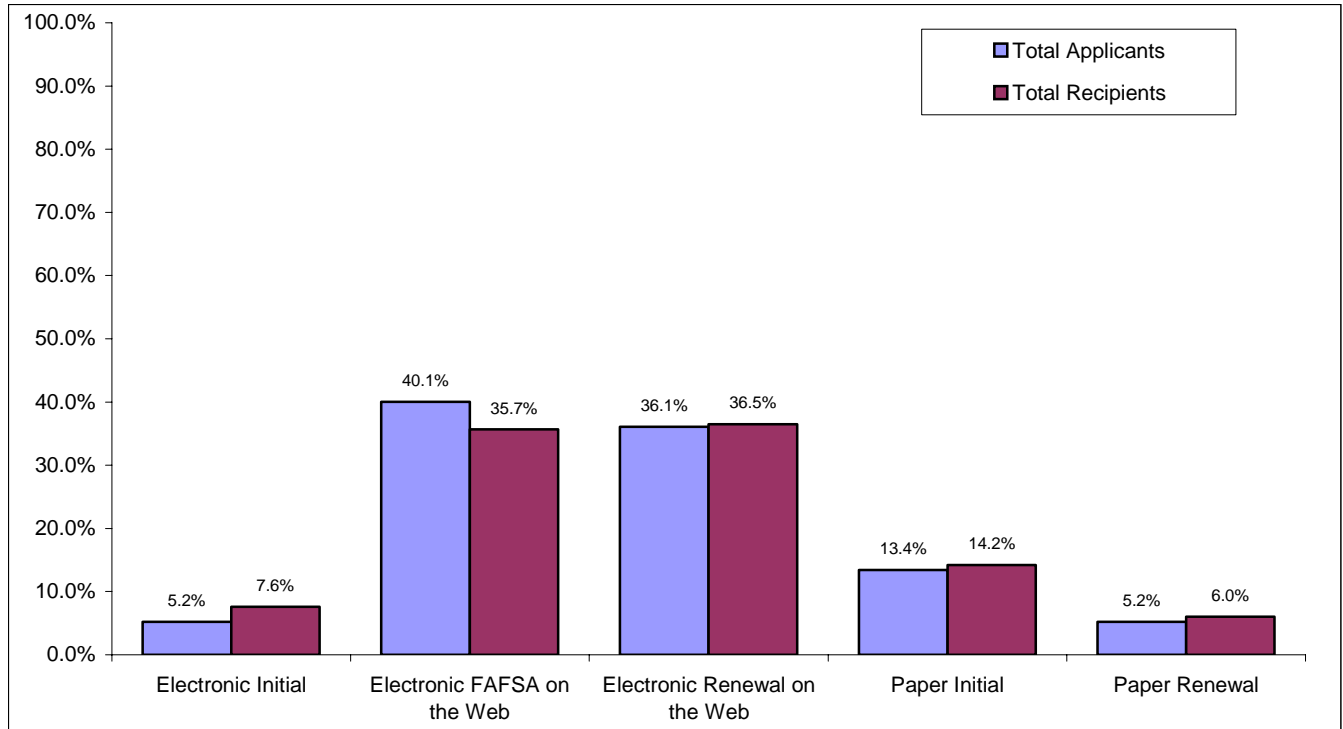

Figure 4: Title IV Applicants and Pell Grant Recipients by Application source

Source: 2004-2005 Title IV/Federal Pell Grant End-of-Year Report

Application Source

In 2004-2005 students could apply using either paper or electronic applications. Applications could be initial forms for first-time applicants, or renewal forms for returning applicants. Electronic applications could be completed at institutions, using Free Application for Federal Student Aid Express software, or via the World Wide Web (the majority). First-time applicants submitted an “initial” application, whereas returning applicants applied using a “renewal” application, which only required updating key information (such as income) from last year’s application.

Approximately 2.5 million of all applications are paper (18.6 percent). The remaining 81.4 percent, or approximately 11 million applicants, filed using one of the electronic methods of applying for student aid. A detailed breakout of applicants by application type is found in Figure 4.

The remaining chapters focus on a variety of aspects of the Federal Pell Grant population with special emphasis on income-related characteristics, grant

levels, educational costs, and enrollment status, for each EFC dependency status and institution type.

Exhibit I

Summary of Selected Changes in the Pell Grant Program: 2003-2004 to 2004-2005

- Applicants increased over 4.06 percent from 13.0 million to 13.5 million.
- 3.8 percent increase in recipients, from approximately 5.1 million to 5.3 million.
- Average family income of recipients decreased 0.83 percent from \$19,460 to \$19,299.
- Average educational cost for total recipients was \$15,309, up from \$14,395 in 2003-2004 (a 6.3 percent increase).
- .16 percent increase in the average Federal Pell Grant, from \$2,473 to \$2,477. The maximum allowable grant for the 2004-2005 cycle was \$4,050.
- Total Federal Pell Grant expenditures increased over 3.4 percent, from \$12.71 billion to \$13.15 billion.

Source: 2004-2005 Title IV/Federal Pell Grant End-of-Year Report

Table 1: Federal Pell Grant Program: Summary Statistics for Cross-Year Reference

Table 1 summarizes the general applicant and recipient trends in the Federal Pell Grant Program from award period 1973-74, the first year of the program, through award period 2004-2005.

Note that the 'Total Expenditures' line only includes grants to students; the figure does not include the administrative allowance paid to institutions (\$5 per student).

2. STARTING IN 1995-96 ALL APPLICATIONS WERE CONSIDERED OFFICIAL.

Section 2: Select Characteristics of Selected Federal Pell Grant Recipients

Table 2: Distribution of Federal Pell Grant Recipients by Expected Family Contribution and Family Income

Table 2A: Total
Table 2B: Dependent
Table 2C: Independent

Table 2A shows the distribution of Federal Pell Grant recipients by Expected Family Contribution (EFC) and family income. Tables 2B and 2C show the same data for dependents and independent students, respectively.

Family income is defined as all taxable income, untaxed income and benefits, including child support received, earned income credit, social security, and welfare benefits received minus certain income, such as taxable grant and scholarship aid, earnings from work-study programs, and child support paid.

For a dependent student, family income is the parents' income. For an independent student, family income is the student's (and spouse's) income.

Table 4: Distribution of Federal Pell Grant Recipients by Expected Family Contribution and Grant Level

Table 4A: Total

Table 4B: Dependent

Table 4C: Independent

Tables 4A, 4B, and 4C present the distribution of Federal Pell Grant recipients by Expected Family Contribution (EFC) and grant level for all recipients, dependents, and independents respectively.

TABLE 4A

Table 5: Distribution of Federal Pell Grant Recipients by Expected Family Contribution and Type and Control of Institution

Table 5A: Total
Table 5B: Dependent
Table 5C: Independent

Tables 5A, 5B, and 5C show the distribution of Federal Pell Grant recipients by Expected Family Contribution (EFC) and type and control of institution attended for all recipients, dependents, and independents. Type of institution is identified by the length of the programs principally offered by the institution and control is whether the school is public, private non-profit, or proprietary. The 4-year designation includes colleges offering baccalaureate and/or graduate programs. The 2-year designated denotes a community college or vocational/technical school. The proprietary category refers to profit-making schools primarily offering programs of 2 years or less in duration.

Table 7: Distribution of Federal Pell Grant Recipients by Expected Family Contribution and Educational Cost

Table 7A: Total
Table 7B: Dependent
Table 7C: Independent

Tables 7A, 7B, and 7C show the distribution of Federal Pell Grant recipients by Expected Family Contribution (EFC) and educational cost. Table 7A shows the distribution for all recipients. Table 7B and 7C present the same breakdown for dependents and independents respectively.

Student educational costs considered for Federal Pell Grant award purposes include tuition and

fees, and allowances for room and board, the cost of books, supplies, transportation, and miscellaneous expenses as determined by the institution.

Also permitted are certain additional allowances, such as provisions for child care and costs of special services or equipment required by handicapped students for attendance, but which are not provided by other assisting agencies.

Table 10: Distribution of Federal Pell Grant Recipients by Family Income and Net Asset Level

Table 10A: Total
Table 10B: Dependent
Table 10C: Independent

Tables 10A, 10B, and 10C present the distribution of Federal Pell Grant recipients by family income and asset level for all recipients, dependents and independents, respectively.

Net assets is the sum of the market value, less unpaid debts, of real estate and investments, a business, or a non-family farm, plus cash, savings, and checking accounts. In 1993-94, the net value of the principal residence and the net value of a farm on which the family resides were eliminated from all EFC formulas.

Table 11: Distribution of Federal Pell Grant Recipients by Age and Family Income

Table 11A: Total
Table 11B: Dependent
Table 11C: Independent

Tables 11A, 11B, and 11C show the distribution of Federal Pell Grant recipients by the student's age and family income. Table 11A displays the distribution for all recipients, while Tables 11B and 11C provide the same data for dependents and independents, respectively.

Section 3: Miscellaneous Student Characteristics

Table 12: Distribution of Title IV Applicants by Pell Grant Eligibility Status and Income Range

Table 12 presents a distribution of Title IV applicants by dependency status and income range.

Figures are broken out for total applicants, dependents, independents without dependents other than a spouse, and independents with dependents other than a spouse. Within each of these categories, total Title IV applicants by income are shown, as well as the number of applicants eligible to receive a Pell Grant.

Table 13: Federal Pell Grant Recipient Enrollment Status by Type and Control of Institution

Table 13 shows the distribution of Federal Pell Grant recipients by enrollment status and type and control of institution. For recipients whose progress is measured in credit hours, enrollment status is expressed as full-time, three-quarter-time, half-time, and less than half-time. The Other category includes persons who changed enrollment status during the year or who had no enrollment status reported, such as students enrolled in clock hour programs.

Note that the Pell Grant recipient system (the common origination and disbursement system) no longer collects enrollment status for Pell Grant recipients from the institution. Table 13 assigns enrollment status based on the ratio of the actual Pell Grant received to the Scheduled Pell Grant.

Table 14: Summary Statistics for Federal Pell Grant Professional Judgment Filers

Table 14 provides summary statistics for the small percent of applicants who received professional judgment adjustments from their financial aid administrator. Professional judgments refer to the authority given to financial aid administrators to adjust the components of an applicant's EFC or cost of education based on extenuating personal circumstances.

Table 15: Distribution of Verified Federal Pell Grant Recipients by Family Income and Grant Level

Table 15 presents family income and grant levels for recipients selected for verification, 54.8 percent of the recipient population.

Verification is a process by which applicants for Federal student aid who meet error-prone criteria are selected and required to present to the institution's financial aid administrator those forms (such as a Federal income tax return and W-2 statements) which confirm the accuracy of the information they reported on their applications.

Section 4: Students by Application Type

Table 16: Summary Statistics by Application Type

Table 16 presents summary statistics by application type for all Title IV applicants. These statistics include information on all applicants, valid applicants (applicants less applications returned for insufficient data and never re-submitted), and applicants selected for verification, as well as data on Federal Pell Grant recipients by application type.

In 2004-2005, a student applied for Title IV student aid in one of several ways: submitting paper initial or renewal application form, completing an electronic initial or renewal application at the

school, who then submitted the data directly to the Central Processing System (CPS), or applying via an electronic initial or renewal application on the World Wide Web.

Section 5: Students by Institution

Table 18: Summary Statistics by Type and Control of Institution

Table 18 displays summary statistics by type and control of institution for the 2004-2005 award year.

The institution type categories used in this table is the more detailed classification method used by the Postsecondary Education Participants System. Note that some of the categories do not apply to schools participating in the Federal Pell Grant Program.

TABLE 18

Section 7: Characteristics by Formula Type

Table 23: Distribution of Federal Pell Grant Recipients by Type and Control of Institution and Formula Type.

Table 23 presents the distribution of recipients by type and control of institution and formula. Six different formulae are used to determine Federal Pell Grant eligibility and are applied according to the applicant's dependency status and qualification for the Simplified Needs Test (SNT). Under the SNT, assets are excluded from the need analysis if the family income is less than \$50,000 and the family was not required to file a 1040 federal tax return.

Formulae 1, 2, and 3 are for students not meeting the SNT. Formula 1 is used for dependent applicants; Formula 2 is used for independent applicants who are single or married without other dependents; and Formula 3 is used for independent applicants with dependents other than a spouse. Formula 4, 5, and 6 apply to the same dependency categories, respectively, but are used for applicants meeting the SNT.

Glossary

Automatic Zero EFC: If the parents of a dependent applicant or an independent applicant with dependents, reports adjusted gross income of \$20,000 or less, and files a 1040A, 1040EZ, or is a non-tax filer, then the applicant receives a zero EFC, regardless of other aspects of the family's financial circumstances.

Average Grant: The sum of all grant awards divided by the number of Federal Pell Grant recipients.

Award Period: The period of time from July 1 of one year to June 30 of the next year. The award period covered in this 2004-2005 End-of-Year Report is July 1, 2004 to June 30, 2005.

C%: Column Percent. The number of responses in each cell within a column as a percentage of the total number of responses in the column.

Control of Institution: Refers to whether an educational institution is public, private, non-profit, or proprietary.

Dependent Recipient: An individual receiving a Federal Pell Grant who is dependent on his or her parent for financial support. To be considered dependent in 2004-2005, the student

- Is under 24 years of age, or
- Is not a veteran of active service in the U.S. Armed Forces, or
- Is not an orphan or ward of the court, or
- Does not have legal dependents, or
- Is not married or a graduate or professional student.

Educational Cost: The cost of attending an institution offering postsecondary education coursework for a full academic year. In 2004-2005, educational costs considered by Federal Pell Grant awards purposes include tuition and

fees, and allowances established by the institution for room and board, the cost of books supplies, transportation, and miscellaneous expenses. Certain additional allowances, such as provisions for childcare and costs of special services or equipment required by handicapped students, are also permitted.

EFC: Expected Family Contribution. Number given to the applicant, based upon the applicant's financial strength as indicated by factors such as family income, net assets, and household size, which is combined with the applicant's educational cost and enrollment status (full time, three-quarter time, half time, or less than half time) to determine the applicant's grant level.

Electronic Application: Introduced in 1990-91, the U.S. Department of Education's process for submitting applications for Title IV Federal Aid electronically directly to the Central Processing System, either directly from the institution, from software provided to the student, or via the World Wide Web.

Eligible Applicant: Individual who has submitted an official application for a Federal Pell Grant and has been determined eligible to receive a grant because of sufficient financial need. An eligible applicant in 2004-2005 had an EFC of 3,850 or less.

Expenditures: Funds awarded to Federal Pell Grant recipients for an award period.

Family Income: One of the primary factors considered in determining eligibility for a Federal Pell Grant. In this report, family income is considered to be the sum of a family's adjusted gross income (or earned income for non-tax filers), and non-taxable income

(including non-educational social security benefits, welfare benefits, and child support).

Free Application for Federal Student Aid

(FAFSA): The Department of Education form that may be used to apply for a Federal Pell Grant as well as other forms of Federal aid.

Formula Type: Six different formulae are used to determine Pell Grant eligibility and are applied according to the applicants dependency status and qualification for the Simplified Needs Test (SNT).

- Formula 1 is used for dependent applicants not meeting the SNT.
- Formula 2 is used for independent applicants without dependents other than a spouse not meeting the SNT.
- Formula 3 is used for independent applicants with dependents other than a spouse not meeting the SNT.
- Formula 4 is used for dependent applicants who qualify for the SNT.
- Formula 5 is used for independent applicants without dependents other than a spouse who qualify for the SNT.
- Formula 6 is used for independent applicants with dependents other than a spouse who qualify for the SNT.

Independent Recipients: An individual receiving a Federal Pell Grant who is not dependent on his or her parent for financial support. To be considered independent in 2004-2005, the student...

- Is 24 years old or older, or
- Is a veteran of active service in the U.S. Armed Forces, or
- Is an orphan or ward of the court, or
- Has legal dependents, or
- Is a graduate, professional or married student, or

- The FAA makes a documented determination of independence by reason of unusual circumstances.

Ineligible Applicant: Individual who has submitted an official application for a Federal Pell Grant but has been determined ineligible to receive a grant because of insufficient financial need. An ineligible applicant in 2004-2005 had an EFC greater than 3,850.

N: Number. The number of applicants, recipients, or other values found in each table cell.

Net Asset Level: Estimated monetary value of an applicant's (or applicant's family if the applicant is a dependent) assets, minus the applicant's liabilities. Factors considered in estimating net asset level include the value of investments, business, non-family farm, and all debts against those assets, plus cash and bank accounts. Home and family farm are not included in determining Net Asset Level.

Professional Judgment: The FAA's ability to change a student's dependency status (dependent to independent only), adjust the components of the Cost of Attendance and/or components of the EFC (income or asset levels).

R%: Row Percent. The number of responses in each cell within a row as a percentage of the total number of responses in the row.

Renewal Application: Introduced in 1992-93, the renewal application allows schools to draw down records for returning students from the prior year, print a renewal application for the student, and key enter and transmit the data electronically to the Central Processing System. Alternatively, the student can be sent a paper or electronic renewal application directly from the Central Processing System (CPS), and the completed application is then sent by the student to the CPS.

SAR: Student Aid Report. A report provided to an applicant showing the applicant's EFC. The applicant must submit a SAR to the institution he or she plans to attend in order to receive an award.

Simplified Needs Test: Eligibility calculation based on a reduced set of family and financial indicators, comprised of: family size, the number of family members enrolled in college at least half-time, adjusted gross income, (or earnings, in the case of non-tax filers), Federal income taxes paid, and untaxed income and benefits. To qualify for the Simplified Needs Test (SNT) a student (or student and parents, for a dependent) must file or be eligible to file an IRS Form 1040A or 1040EZ (not a 1040) or be a non-tax filer, and must have a combined adjusted gross income (or earnings) of less than \$50,000.

Title IV: The section of the Higher Education Act of 1965 that pertains to federal student financial aid programs. Title IV applicants data may be used to determine eligibility for programs other than the Pell Grant Program.

In addition to the Pell Grant Program, the main Title IV programs are:

- Federal Family Education Loan Program
- Ford Direct Loan Program
- Perkins Loan Program
- Federal Work-study Program and

- Federal Supplemental Educational Opportunity Grant Program

Type and Control of Institution: Institutions are classified according to the length of programs and control of the institution

- 4-year public or private, non-profit, includes colleges offering baccalaureate and/or graduate programs.
- 2-year public or private, non-profit usually denotes a community college or vocational/technical school.
- Proprietary refers to private, profit-making schools offering primarily programs of 2 years or less in duration. It also includes a small number of schools with programs greater than 2 years in length.

Valid Application: An application with sufficient data to calculate an EFC. A graduate student is not considered a valid applicant for Pell Grant purposes.

Verification: The process by which applicants for Federal student aid who meet error-prone criteria are selected and required to present to the institution's financial aid administrator those forms (such as a federal income tax return and W-2 statements) which confirm the accuracy of the information they reported on their applications.
