National Oceanic and Atmospheric Administration

United States Climate Change Science Program

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice of open workshop.

SUMMARY: The U.S. Global Change Research Act of 1990 initiated the U.S. Global Change Research Program (USGCRP) that continues today as a major sponsor of global change research. In June 2001 President George W. Bush directed the USGCRP agencies to develop a focused Climate Change Research Initiative (CCRI) with the goal of accelerating the USGCRP research activities in the next 2 to 5 years to assist in the development of public

policy and natural resource management tools related to climate change issues. The U.S. Climate Change Science Program (CCSP), incorporating the USGCRP and the CCRI, will hold a comprehensive workshop to receive participants' individual comments on a discussion draft version of its Strategic Plan for climate change and global change studies. When finalized, the draft strategic Plan reviewed during and after the Workshop will provide the principal guidance for the U.S. global change and climate change research programs during the next several years, subject to revisions as appropriate to respond to newly developed information and decision support tools.

TIME AND DATE: The workshop will be held Tuesday, December 3, 2002, from 9:30 a.m.–5:30 p.m., Wednesday, December 4, 2002, from 8:30 am–5:30 p.m., and Thursday, December 5, 2002, from 8:30 a.m.–4 p.m. *These times may be subject to change. Refer to the Web site listed below for a final meeting agenda.*

PLACE: The workshop will be held at the Marriott Wardman Park Hotel, 2660 Woodley Road, NW., in Washington, DC.

STATUS: The meeting will be open to registered participants. The public may register at the Web site below or by sending a fax to 303-497-8633 with the following information: (1) Prefix: (Dr., Mr., Ms., other); (2) first name/given name; (3) middle initial; (4) last name/surname; (5) name as you want it printed on your name badge; (6) organization/institution; (7) department, division or program; (8) street address; (9) city; (10) state/province (if applicable); (11) ZIP or postal code; (12) country; (13) telephone number; (14) fax number; and (15) email address. *Limited registration may be available at the Workshop, but cannot be guaranteed due to space consideration.* The Workshop will include daily plenary sessions and several breakout sessions. Each breakout session will include invited reviewer comments as well as the opportunity for general attendee comments. All comments must be submitted by individual participants. Group consensus comments will not be accepted. The discussion draft of the Strategic Plan and directions for submitting comments has been posted on the Web site below. Comments, questions and suggestions are welcomed from both scientific and stakeholder communities during and after the Workshop. Comments on the Strategic Plan can be submitted up to January 13, 2003.

MATTERS TO BE CONSIDERED: To assure the continued scientific credibility of the CCSP, the Workshop will provide a comprehensive review of the discussion draft of the Strategic Plan.

FOR FURTHER INFORMATION CONTACT: Ms. Sandy MacCracken, U.S. Climate Change Science Program, Suite 250, 1717 Pennsylvania Ave, NW., Washington, DC 20006. (Phone: 202-223-6262, Fax: 202-223-3065, e-mail: smaccrac@usgcrp.gov); or visit the CCSP Web site at <http://www.climate-science.gov>.

SUPPLEMENTARY INFORMATION: On June 27, 2002, notice was published in the *Federal Register* (67 FR 43283) that requests for scientific research permits and permit amendments to take Steller sea lions had been submitted by the above-named individuals/organizations. The requested permits and permit amendments have been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

Permit No. 358-1564-02, which expires on June 30, 2005, authorized the permit holder to take Steller sea lions of all ages and both sexes in Alaska and British Columbia by aerial/boat surveys, capturing, handling, flipper tagging, blood/biopsy sampling, hot-branding, collection of blood and tissue samples, attachment of scientific instruments, recaptures, and accidental mortality. The amended permit authorizes takes of additional sea lions by increased frequency of aerial surveys, and additional takes of individual sea lions by additional recaptures, increased blood and tissue sampling, tagging, administering Evans blue dye, and additional accidental mortality.

Permit No. 782-1532, which expires on December 31, 2004, authorizes the permit holder to take Steller sea lions of

all ages and both sexes in Alaska, by aerial/boat surveys, capturing, handling, flipper tagging, blood/biopsy sampling, attachment of scientific instruments, and hot-branding. The amended permit increase the frequency of takes by aerial surveys; includes Southeast Alaska in monthly surveys; increases the number of animals to be incidentally harassed during scat collection; and allows additional procedures for animals already authorized for capture, including using gas anesthesia, branding of any animal captured, injecting Evan's blue dye and deuterated water, collecting additional blood and tissue samples, using bioelectric impedance analysis, and an increase in the number of accidental mortalities.

Permit No. 800-1664 authorizes takes of threatened and endangered juvenile and adult female Steller sea lions in Alaska by capture, anesthesia, hot-branding, tissue sampling (including blood, skin, and blubber), attachment of scientific instruments (video system/data logger and satellite transmitters), and accidental mortality.

Permit No. 1016-1641 authorizes takes of threatened and endangered Steller sea lions in the Aleutian Islands, Gulf of Alaska, and southeast Alaska by remote biopsy darting, incidental harassment, and accidental mortality, to collect blubber samples for analysis to assess prey selection. Some samples will be exported to Canada for analysis. Northern fur seals (*Callorhinus ursinus*) and harbor seals (*Phoca vitulina richardsi*) may be incidentally harassed during biopsy sampling.

Permit No. 434-1669 authorizes takes of threatened Steller sea lions in California, Washington, and Oregon by capture, hot-branding, flipper tagging, collection of blood and tissue samples from, attachment external scientific instruments to, harassment incidental to these activities and remote monitoring, and accidental mortality.

Permit No. 881-1668, issued to the Alaska SeaLife Center, authorizes takes of threatened and endangered Steller sea lions in Alaska by capture, hot-branding, flipper tagging, collection of blood and tissue samples from, attachment of external scientific instruments, accidental mortality, and harassment incidental to these activities and remote monitoring.

Permit No. 1010-1641 authorizes takes of Steller sea lions of all ages by harassment during aerial surveys and vessel-based behavioral observations in the western Gulf of Alaska, and scat collection at rookeries and haulouts along the Alaska Peninsula and Eastern Aleutian Islands.

Issuance of these permits and permit amendments, as required by the ESA, was based on a finding that the permits (1) were applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of these permits, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.
