BILLING CODE 6450-01-P

The Secretary of Energy
Washington, DC 20585

November 21, 2002

The Honorable John T. Conway
Chairman
Defense Nuclear Facilities Safety Board
625 Indiana Avenue, NW, Suite 700
Washington, D.C. 20004

Dear Mr. Chairman:

The Department acknowledges receipt of the Defense Nuclear Facilities Safety Board's (Board) recommendation 2002-1, *Quality Assurance for Safety-Related Software*, issued on September 23, 2002, and published in the *Federal Register* on October 9, 2002. The Department accepts recommendation 2002-1 and will develop an implementation plan that results in the following:

- Clear assignment of organizational roles, responsibility, and authority for safety-related software.
- Creation of infrastructure necessary to ensure an effective software quality assurance program, including personnel with the appropriate skill and expertise.
- Implementation of processes to identify safety analyses and design codes and ensure that they are subject to verification and validation appropriate for the application.
- Establishment of requirements and guidance for a rigorous software quality assurance process, which will include the use of industry standards where practicable.
- Creation of a process that will track continuous improvements and initiatives in software technology. This information will be used as a basis for maintaining safety-related software and will be shared across the complex.

The Department has initiated activities to improve the implementation of quality management systems at its defense nuclear facilities. Many of these activities resulted from the deficiencies documented in the Board's Technical Report DNFSB/TECH-25, *Quality Assurance for Safety-Related Software at Department*

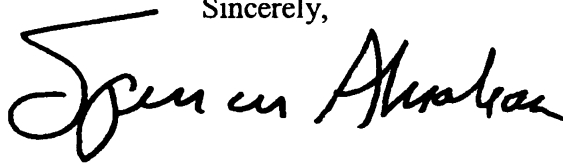

of Energy Defense Nuclear Facilities, and discussed at several of your public meetings on quality assurance. The Department considers its efforts to improve software quality assurance as a key element in the overall improvement of our quality management system, and the implementation plan will include and build on the actions that were previously undertaken as part of this initiative.

Ms. Beverly Cook, Assistant Secretary for Environment, Safety and Health, is the Department of Energy official responsible for safety-related quality assurance and for ensuring the successful completion of the implementation plan we will develop in response to your recommendation. Mr. Ray Hardwick, Office of Environment, Safety and Health, (301) 903-4244, is the responsible manager for the preparation of the Department's implementation plan.

Please feel free to contact either of them with any questions you may have as the Department moves forward with development of the implementation plan.

Sincerely,

Environmental Impact Statements and Regulations; Availability of EPA Comments; Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended

Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 12, 2002 (67 FR 17992).

Draft EISs

ERP No. D-FHW-E40796-NC Rating EC2, U.S. 64 Corridor Project, Transportation Improvements in the vicinity of the City of Asheboro and Access Improvements to the NC Zoological Park, Funding and U.S. Army COE section 404 Permit Issuance, Randolph County, NC.

Summary: EPA expressed environmental concerns regarding primary impacts as a result of project implementation. These include a large number of residential relocations, with many residences experiencing excessive noise increases and the loss of deciduous forest and surface water habitat. EPA requested that deletion of one or two proposed interchanges be evaluated.

ERP No. D-FHW-F40409-IN Rating LO, IN-25 Transportation Corridor Improvements from I-65 Interchange to U.S. 24, Funding, Right-of-Way and U.S. Army COE section 404 Permit Issuance, Hoosier Heartland Highway, Tippecanoe, Carroll and Cass Counties, IN.

Summary: EPA believes that the proposed project will result in minimum adverse impacts to the environment with the appropriate mitigation. No additional analyses are required.

ERP No. D-FHW-K40253-CA Rating 3, Riverside County Integrated Project, Winchester to Temecula Corridor Construction of a New Multi-Modal Transportation Facility, Route Location and Right-of-Way Preservation, Riverside County, CA.

Summary: EPA found that the DEIS was inadequate to satisfy the requirements of NEPA and lead to the selection of a preferred alignment containing the least environmentally damaging practicable alternative to satisfy section 404 of the Clean Water
