This Notice also provides the following information:

Title of Proposal: Quality Control for Rental Assistance Subsidy Determinations

Description of the Need for Information and Proposed Use: The Department is conducting under contract a study to update its estimate of the extent and type of errors associated with income, rent, and subsidy determinations for the 4.4 million households covered by Public Housing and Section 8 housing subsidies. The QC process involves selecting a nationally representative sample of assisted households to measure the extent and types of errors in rent and income determinations, which in turn cause subsidy errors. On-site tenant interviews, file reviews, third-party income verifications, and income matching with other Federal data are conducted. The data obtained are used to identify the most serious problems and their associated costs. HUD programs offices are then responsible for designing and implementing corrective actions. In addition to providing current estimates of error, results will be compared with those from the 2000 study. These comparisons will indicate whether corrective actions initiated since the 2000 study have been effective and if changes in priorities are needed.

The first QC study found that about one-half of the errors measured using on-site tenant interviews and file reviews could not be detected with the 50058/50059 form data collected by the Department, which is why HUD and other agencies with means-tested programs have determined that on-site reviews and interviews are an essential complement to remote monitoring measures. The 2000 study showed that the calculation errors detectable with 50058/50059 data had further decreased, probably because these data

were increasingly subject to automated computational checks.

This study will provide current information on the quality of tenant interviewing (e.g., whether they are they being asked about all sources of income) and the reliability of eligibility determinations and income verifications. It is anticipated successive studies will be done on a one or two year cycle. Legislation that has been approved by the House and the Senate (H.R. 4878) may require annual updates.

Members of the Affected Public: Recipients of Public Housing and Section 8 housing assistance subsidies.

Estimation of the Total Number of Hours Needed With Those Surveyed to Conduct the Information Collection, Including Number of Respondents, Frequency of Response, and Hours of Response: The researchers will survey approximately 400 PHA/program sponsor staff about (re)certification procedures, training, interview procedures, and problems encountered in conducting (re)certifications. Although more than one staff member may need to be contacted to obtain answers to all questions, the questionnaire will be administered once at each participating project and the interviews are expected to take less than 35 minutes. Researchers will survey approximately 2,400 program participants to obtain information on household composition, expenses, and income. The time required for these interviews will vary, but is estimated to require an average of about 50 minutes per interview.

The time estimated provided are based on the 2000 QC survey. This survey will again make use of Computer Assisted Interviewing (CAI) questionnaire and equipment, which are being used in part because they are known to reduce interview times. This software also provides for consistency checks and ensures that all needed data have been collected, thereby reducing the need for follow-up contacts.

Status of the Proposed Information Collection: Pending OMB approval.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: November 13, 2002.

Harold L. Bunce,

Deputy Assistant, Secretary for Economic Affairs.

SUPPLEMENTARY INFORMATION: The Community Outreach Partnership Centers Program was enacted in the Housing and Community Development Act of 1992 (Pub. L. 102-550, approved October 28, 1992) and is administered by the Office of University Partnerships under the Assistant Secretary for Policy Development and Research. In addition to this program, the Office of University Partnerships administers HUD's ongoing grant programs to institutions of higher education as well as creates initiatives through which colleges and universities can bring their traditional missions of teaching, research, service, and outreach to bear on the pressing local problems in their communities.

The Community Outreach Partnership Centers Program provides funds for: Research activities which have practical

application for solving specific problems in designated communities and neighborhoods; outreach, technical assistance and information exchange activities which are designed to address specific problems associated with housing, economic development, neighborhood revitalization, infrastructure, health care, job training, education, crime prevention, planning, and community organizing. On March 26, 2002 (67 FR 13927), HUD published a Notice of Funding Availability (NOFA) announcing the availability of \$7.5 million in Fiscal Year 2002 for the Community Outreach Partnership Centers Program. The Department reviewed, evaluated and scored the applications received based on the criteria in the NOFA. As a result, HUD has funded 15 applications for New Grants and 7 applications for New Directions Grants. New Grants, which cannot exceed \$400,000, are for institutions of higher education just beginning a COPC project. New Directions Grants, which cannot exceed \$150,000, are for institutions of higher education that are undertaking new activities or expanding into new neighborhoods. These grants, with their grant amounts are identified below.

The Catalog Federal Domestic Assistance number for this program is 14.511.

In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, U.S.C. 3545), the Department is publishing details concerning the recipients of funding awards, as follows:
