

under either section 112(c)(6) or 112(k). As a result, two area source categories: Asphalt Processing and Asphalt Roof Manufacturing, and Carbon Black Production were added to the section 112(k) list above to ensure that 90 percent of the emissions of the HAP, polycyclic organic matter, are addressed.

III. Administrative Requirements

Today's notice is not a rule; it is essentially an information-sharing activity which does not impose regulatory requirements or costs. Therefore, the requirements of Executive Order 13045 (Protection of Children from Environmental Health Risks and Safety Risks), Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments), Executive Order 13132 (Federalism), Executive Order 13211 (Actions Concerning Regulations that Significantly Affect Energy Supply, Distribution, or Use), the Regulatory Flexibility Act, the National Technology Transfer and Advancement Act, and the Unfunded Mandates Reform Act do not apply to today's notice. Also, this notice does not contain any information collection requirements and, therefore, is not subject to the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

Under Executive Order 12866 (58 FR 51735, October 4, 1993), a regulatory action determined to be "significant" is subject to the Office of Management and Budget (OMB) review and the requirements of the Executive Order. The Executive Order defines "significant" regulatory action as one that is likely to lead to a rule that may either: (1) Have an annual effect on the economy of \$100 million or more, or adversely affect a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local or tribal governments or communities; (2) create a serious inconsistency or otherwise interfere with an action take or planned by another agency; (3) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order. The OMB has determined that this action is not significant under the terms of Executive Order 12866.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section

309 of the Clean Air Act and section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 12, 2002 (67 FR 17922).

Draft EISs

ERP No. D-AFS-L65404-AK Rating EC2, Kosciusko Island Timber Sale(s), Timber Harvesting, Tongass National Forest, Thorne Bay Ranger District, Kosciusko Island, AK.

Summary: EPA expressed environmental concerns about potential adverse impacts to water quality and quantity from road construction and timber harvest and aquatic resources in roadless areas, especially the Van Sant Creek watershed. EPA recommends that the final EIS include additional information on project impacts to these resources and on the drinking water supply.

ERP No. D-FHW-F40407-IN Rating EO2, I-69 Evansville to Indianapolis Corridor Study, I-69 Completion in Southwestern Indiana and Corridor Selection, IN.

Summary: EPA expressed environmental objections regarding the magnitude of impacts to wetland and aquatic resources, forests, farmland, and potential impacts to sensitive karst features. EPA expressed concern regarding future project compliance with Section 404 of the Clean Water Act and recommended the agencies reevaluate alternatives.

ERP No. D-FHW-J40156-ND Rating EC2, US 2 Highway Transportation Improvements from near U.S. 85 (milepost 31.93) to west of U.S. 52 (milepost 131.24), Funding, NPDES and U.S. Army COE Section 404 Permits Issuance, Williams, Mountrail and Ward Counties, ND.

Summary: EPA has environmental concerns about substantial losses of wetlands as a result of expanding the highway from two to four lanes. EPA recommends the development of an alternative with fewer impacts to wetlands and inclusion of sufficient information that is necessary to streamline the NEPA and 404 permit processes.

ERP No. D-NPS-J61022-MT Rating EC2, Glacier National Park—Going-to-Sun Road Rehabilitation Plan to Protect and Preserve a National Historic Landmark, Waterton-Glacier International Peace Park, The World's First International Peace Park, A World Heritage Site, MT.

Summary: EPA expressed environmental concerns with potential construction impacts to water quality, especially consistency of proposed road improvements with restoration and TMDL development. EPA also has concerns about potential impacts from disturbance to sensitive and fragile vegetation (e.g., State rare velvet-leaf blueberry plant), and wildlife and habitat adjacent to the roadway and near proposed visitor facility improvements.

ERP No. DS-AFS-F05123-00 Rating LO, Bond Falls Hydroelectric Project related to Terms and Conditions for Geology and Soils, Water Quality and Quantity, Fisheries, Terrestrial, Recreation, Aesthetic, Cultural, Socioeconomic and Land Use Resources, Ontonagon River Basin, Valas County, WI and Ontonagon and Gogebic Counties, MI.

Summary: EPA has no objections to the proposed terms and conditions for the Bond Falls Hydroelectric Relicensing Project.

ERP No. DS-AFS-L61199-ID Rating NS, Salmon Wild and Scenic River Management Plan, Timeline Change From December 31, 2002 to December 31, 2005 and Clarification of Economic Impacts on the Camps, Stub Creek, Arctic Creek and Smith Gulch Creek, Salmon National Forest, Salmon County, ID.

Summary: EPA Region 10 used a screening tool to conduct a limited review of the Salmon Wild and Scenic River Management Plan. Based upon the screen, EPA does not foresee having any environmental objections to the proposed project. Therefore, EPA will not be conducting a detailed review.

Final EISs

ERP No. F-AFS-J65361-MT Black Ant Salvage Project, Salvage of 739 Acres of Dead Merchantable Trees from the Lost Fork Fire of 2001, Lewis and Clark National Forest, Meagher Basin County, MT.

Summary: EPA's environmental concerns about increased potential for erosion and sediment transport and compaction of sensitive post-fire soils during salvage logging were reduced with the selection of a new winter logging alternative. EPA recommended mitigation measures to avoid rutting of logging roads during spring breakup that could increase sediment to down-gradient 303(d) listed streams.

ERP No. F-NPS-E65058-GA Fort Frederica National Monument General Management Plan, Implementation, Saint Simons Island, Glynn County, GA.

Summary: EPA did not identify any potential environmental impacts.

Dated: November 18, 2002.
