Type of Request: Extension of an OMB-approved information collection.

Number of Respondents: 3,950,000.

Frequency of Response: 1.

Average Burden Per Response: 3 minutes.

2. Request for Internet Services Representative Payee, 20 CFR 401.45 Report—0960-NEW

Background

SSA is developing an Internet Representative Payee Report form (I623) to electronically report on the use of benefit payments made on behalf of Social Security beneficiaries and SSI recipients. As part of this process, SSA will conduct a proof of concept (POC) test that will be limited to 40 organizational representative payees. During the projected 6-month POC test, participating organizations will use the I623 to complete and file the representative payee report instead of using the paper SSA-623.

The Collection

Organizations participating in the POC will designate up to three employees that will be authenticated using SSA's existing Integrated Registration for Employers and Submitters (IRES) OMB control number 0960-0626. Once authenticated, the employee will be required to enter a Personal Identification Number (PIN) and Password to gain access to the online I623 application. The PIN and Password will serve as the electronic signature. SSA will use the information collected through the I623 to determine whether the payments provided to the representative payee have been used for the beneficiary's current maintenance

and personal needs and whether the representative payee continues to be concerned with the beneficiary's welfare. The respondents are organizational representative payees designated to receive funds on behalf of Social Security beneficiaries and/or SSI recipients.

Type of request: New information collection.

Number of Respondents: 40 organizations.

Frequency of Response: 117.5 per respondent.

Average Burden Per Response: 15 minutes.

Estimated Annual Burden: 1,175 hours.

Dated: December 19, 2002.
