For questions on viewing material in the docket, call Ms. Dorothy Beard, Chief, Dockets, Department of Transportation, at 202-366-5149.

SUPPLEMENTARY INFORMATION: In accordance with the National Environmental Policy Act (NEPA) (42 U.S.C. 4321 *et seq.*) and the Council on Environmental Quality's Regulations for Implementing NEPA (40 CFR parts 1500-1508), the Coast Guard is announcing that it has approved its Supplemental Program Environmental Assessment (SPEA) and has made available its Finding of No Significant Impact (FONSI) for the proposed modernization of the National Distress and Response System (NDRS) known as "Rescue 21."

Supplemental Program Environmental Assessment

The Coast Guard prepared an SPEA that assessed the impacts of the no action alternative and three action alternatives that could meet the system requirements for modernizing the National Distress and Response System (NDRS). On September 30, 2002, we published a notice of availability of the SPEA in the **Federal Register** (67 FR 61372). We also circulated 183 copies of the SPEA to interested persons. During the comment period, September 27, 2002, to October 28, 2002, a total of 18 comment letters were received. We reviewed the comments but they revealed no new or additional environmental information.

Finding of No Significant Impact

After considering the comments received during the review and comment period, the Coast Guard issued a Finding of No Significant Impact as a result of modernizing the National

Distress and Response System. The modernization of the NDRS will utilize a combination of all three of the action alternatives analyzed in the SPEA by using existing antenna towers, leasing antenna space from a service provider, or constructing a new antenna tower site.

The purpose of this notice is to inform local, State, and Federal government agencies and the public that the Supplemental PEA and FONSI are available for review.

Dated: November 12, 2002.
