

educated individuals. Data are obtained via paper questionnaire or Web option from each person earning a research doctorate at the time they receive the degree. Data are collected on their field of specialty, educational background, source of support in graduate school, debt level, post graduation plans for employment, and demographic characteristics. The Federal government, universities, researchers, and others use the information extensively.

The National Science Foundation, as the lead agency, publishes statistics from the survey in many reports, but primarily in the annual publication series, "Science and Engineering Doctorates." The National Opinion Research Corporation at the University of Chicago disseminates a free interagency report entitled "Doctorate Recipients from U.S. Universities: Summary Report." These reports are available in print and electronically on the World Wide Web.

The survey will be collected in conformance with the Privacy Act of 1974 Confidential Information Protection and Statistical Efficiency Act of 2002. Responses from individuals are voluntary. NSF will insure that all information collected will be kept strictly confidential and will be used only for research or statistical purposes, analyzing data, and preparing scientific reports and articles.

2. *Expected Respondents:* A total response rate of 92% of the total 40,744 persons who earned a research doctorate was obtained in academic year 2000/2001. This level of response rate has been consistent for several years. The respondents will be individuals and the estimated number of respondents annually is 37,484 (based on 2001 data)

3. *Estimate of Burden:* The Foundation estimates that, on average, 19 minutes per respondent will be required to complete the survey, for a total of 11,714 hours for all respondents (based on the Academic 2000/2001 number). This is reduced by 2,514 hours from the last annual estimate approved by OMB; this reduction is due to a revised, more efficient section on educational history and a declining number of research doctorate recipients since 1998.

## RAILROAD RETIREMENT BOARD

### Proposed Data Collection Available for Public Comment and Recommendations

**SUMMARY:** In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

*Comments are invited on:* (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

*Title and purpose of information collection:* RRB Form DC-1, Employer's Quarterly Report of Contributions Under the Railroad Unemployment Insurance Act; OMB 3220-0012.

Under Section 8 of the Railroad Unemployment Insurance Act (RUIA), as amended by the Railroad Unemployment Improvement Act of

1988 (Pub. L. 100-647), the amount of each employer's contribution is determined by the RRB, primarily on the basis of RUIA benefit payments made to the employees of that employer. These experienced based contributions, take into account the frequency, volume and duration of RUIA benefits, both unemployment and sickness, attributable to a railroad's employees. Each employer's contribution rate includes a component for administrative expenses and a component to cover costs shared by all employers. The regulations prescribing the manner and conditions for remitting the contributions and for adjusting overpayments of underpayments of contributions are contained in 20 CFR 345.

RRB Form DC-1, Employer's Quarterly Report of Contributions Under the Railroad Unemployment Insurance Act, is currently utilized by the RRB for the reporting and remitting of quarterly contributions by railroad employers. The RRB utilizes a manual version of Form DC-1 and also provides railroad employers with the option of reporting the required information and remitting their quarterly contributions via and Internet equivalent version Form DC-1.

The RRB estimates that 2,200 responses are received annually. One response is requested quarterly of each respondent. Completion is mandatory. The RRB proposes non-burden impacting editorial changes to Form DC-1. The estimated completion for the manual and Internet version of Form DC-1 is estimated at 25 minutes.

**FOR FURTHER INFORMATION CONTACT:** To request more information or to obtain a copy of the information collection justification, forms, and/or supporting material, please call the RRB Clearance Officer at (312) 751-3363. Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 N. Rush Street, Chicago, Illinois 60611-2092. Written comments should be received within 60 days of this notice.
