Huntsman Polymers Corporation; Huntsman Polymers Corporation Utilities Division, Odessa, TX; Notice of Determinations on Reopening

The Department, on its own motion, reopened on September 3, 2002, the certification regarding eligibility for workers of the subject firm to apply for North American Free Trade Agreement-Transitional Adjustment Assistance (NAFTA-TAA), applicable to workers and former workers of the subject firm engaged in activities related to the production of styrene monomers (NAFTA-5171). The certification was issued on August 29, 2001, and was published in the **Federal Register** on September 11, 2001 (66 FR 47241).

The petition investigation was reopened because the Department failed to include a determination as to whether workers in the Utilities Division of Huntsman Polymers Corporation, Odessa, Texas are eligible to apply for NAFTA-TAA. The workers at Huntsman Polymers are separately identifiable by product produced at the plant.

The findings of the investigation on reopening show that workers of Huntsman Polymers Corporation, Utilities Division, Odessa, Texas, "managed" the water supply and other raw materials utilized in the various manufacturing processes performed at the subject firm.

The investigation revealed that the workers of the subject firm do not produce an article within the meaning of section 250(a) of the Trade Act of 1974. The Department of Labor has consistently determined that the performance of services does not constitute production of an article, as required by the Trade Act of 1974. Workers of the subject facility may be certified only if their separation was caused importantly by a reduced demand for their services from a parent firm, a firm otherwise related to the subject firm by ownership, or a firm related by control.

The investigation revealed that the workers in the Utilities Division spent some of their time in support of the production of styrene monomers, but the majority of their work was in support of other production operations at the Odessa, Texas plant.

Conclusion

The certification applicable to workers engaged in activities related to the production of styrene monomers at Huntsman Polymers Corporation, Odessa, Texas (NAFTA-5171), remains in effect through August 29, 2003.

After careful review of the findings of the investigation on reopening, I conclude that workers of Huntsman Polymers Corporation, Utilities Division, Odessa, Texas (NAFTA-5171A), are denied eligibility to apply for NAFTA-TAA under section 250 of the Trade Act.

Signed in Washington, DC this 23rd day of October, 2002.

Director, Division of Trade Adjustment Assistance.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* Billing Instructions for NRC Cost Type Contracts.
2. *Current OMB approval number:* 3150-0109.
3. *How often the collection is required:* Monthly.
4. *Who is required or asked to report:* NRC Contractors.
5. *The number of annual respondents:* 55.
6. *The number of hours needed annually to complete the requirement or request:* 1,070 (754 hours-Billing Burden + 316 hours License Fee Recovery Cost Summary).

7. *Abstract:* The NRC Division of Contracts in administering its contracts provides Billing Instructions for its contractors to follow in preparation of invoices. These instructions stipulate the level of detail in which supporting data must be submitted for NRC review. The review of this information ensures that all payments made by NRC for valid and reasonable costs in accordance with the contract terms and conditions.

Submit, by January 6, 2003, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
