Subject: LES Comment 11: LES nuclear waste containers

>>> "PHILLIP BARR" <pharb2@msn.com> 02/16/04 10:46AM >>>
I have a couple of questions for the NRC.

What is the life expectancy of a Les nuclear waste container?
Now the first time I asked LES, I was told that information wasn't available.
We were told that even if there was an accident with the containers, nothing would ever leave the site.

Now Les wants an 4 mile impact zone around their plant. Now with the winds we have here (35mph and higher), when something is released from that plant, what happens to it when it reaches that 4 mile mark? Winds in this area blow from the south a lot. Hobbs and one rural community lie north of the plant site.
