Subject: Objection to Louisiana Energy service license application to the NRC(LEA county New Mexico)

I believe this is an unethical attempt to misrepresent to the public the amount of waste that would be stored by Les in Lea County.
I believe Louisiana Energy Services should not be allowed a license because of this.

Dear Mr. Barr:

Thank you for contacting me about the LES facility. Your question was where would LES store the waste. They are currently planning to store any wastes on-site in casks. Since there is a very minimal amount of waste from the gas centrifuge enrichment process, there will be very little waste.

Similar enrichment facilities in Europe have stored waste for decades, next to farms and homes without incident. I have similar expectations for the LES facility in Lea County.

Sincerely,
