

**You know that question  
that goes through your mind  
when you take your  
generic drug?  
Here's the answer.**

FDA ensures that your generic drug is safe and effective. All generic drugs are put through a rigorous, multi-step approval process. From quality and performance to manufacturing and labeling, everything must meet FDA's high standards. We make it tough to become a generic drug in America so it's easy for you to rest assured.
