

RULES AND REGULATIONS

this paragraph or an "Other Method" described in subparagraph (2) of this paragraph under the conditions provided therein. The modified cost finding method provided in subparagraph (3) of this paragraph must be used for reporting periods beginning after December 31, 1971, by providers which are required to use the Combination Method of cost apportionment.

(3) Modified cost finding for providers using the Combination Method for reporting periods beginning after December 31, 1971. This method differs from the Step-Down Method in that services rendered by nonrevenue-producing departments or centers are allocated directly to revenue-producing departments or centers even though these services may be utilized by other nonrevenue-producing departments or centers. In the application of this method the cost of nonrevenue-producing centers having a common basis of allocation are combined and the total distributed to revenue producing centers. All nonrevenue-producing centers having significant percentages of cost in relation to total costs will be allocated this way. The combined total costs of remaining nonrevenue-producing cost centers will be allocated to revenue-producing cost centers in the proportion that each bears to total costs, direct and indirect, already allocated. The bases which are to be used and the centers which are to be combined for allocation are not optional, but are identified and incorporated in the cost report forms developed for this method. Providers using this method must use the program cost report forms devised for it. Alternative forms may not be used without prior approval of the Social Security Administration, based upon a written request by the provider submitted through the intermediary.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 130—NEW DRUGS

Procedures for Classification of Over-the-Counter Drugs; Correction

In F.R. Doc. 72-7190 appearing at page 9464 in the May 11, 1972 issue of the FEDERAL REGISTER, the penultimate paragraph is deleted and the Effective date statement, due to error, is corrected to read:

Effective date. This order shall be effective upon signature by the Commissioner of Food and Drugs. It would be contrary to the public interest to delay the effective date because:

(1) The review and classification of OTC drugs as generally recognized as safe and effective and not misbranded under prescribed, recommended, or suggested conditions of use cannot be con-

ducted until these regulations are placed into effect; and

(2) Delay in the effective date would serve no useful purpose since interested persons were provided 60 days for the submission of comments on the proposal published in the FEDERAL REGISTER of January 5, 1972 (37 F.R. 85), and all comments have been considered in detail and discussed in the preamble to this order.

Dated: May 15, 1972.

SAM D. FINE, Associate Commissioner for Compliance.
