

§ 10.18

19 CFR Ch. I (4-1-06 Edition)

the invoice and entry papers, or, if no purchase was made, the value of the components at the time of their shipment for exportation, f.o.b. United States port of exportation or point of border crossing, as set out in the invoice and entry papers. However, if the appraising officer concludes that the cost or value of the fabricated components so ascertained does not represent a reasonable cost or value, then the value of the components shall be determined in accordance with section 402 or section 402a, Tariff Act of 1930, as amended (19 U.S.C. 1401a, 1402).

[T.D. 75-230, 40 FR 43024, Sept. 18, 1975]

§ 10.18 Valuation of assembled articles.

As in the case of the appraisement of any other import merchandise (see subpart C of part 152 of this chapter), the full value of assembled articles imported under subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202), is determined in accordance with 19 CFR 152.100 *et seq.*

[T.D. 87-89, 52 FR 24445, July 1, 1987, as amended by T.D. 89-1, 53 FR 51248, Dec. 21, 1988]

§§ 10.19-10.20 [Reserved]

§ 10.21 Updating cost data and other information.

When a claim for the exemption is predicated on estimated cost data furnished either in advance of or at the time of entry, this fact should be clearly stated in writing at the time of entry, and suspension of liquidation may be requested by the importer or his agent pending the furnishing of actual cost data. Actual cost data must be submitted as soon as accounting procedures permit. To insure that information used for Customs purposes is

reasonably current, the importer shall ordinarily be required to furnish updated cost and assembly data at least every six months, regardless of whether he considers that significant changes have occurred. The 6-month period for the submission of updated cost or other data may be extended by the port director if such extension is appropriate for the type of merchandise involved, or because of the accounting period normally used in the trade, or because of other relevant circumstances.

[T.D. 75-230, 40 FR 43025, Sept. 18, 1975]

§ 10.23 Standards, quotas, and visas.

All requirements and restrictions applicable to imported merchandise, such as labeling, radiation standards, flame-retarding properties, quotas, and visas, apply to assembled articles eligible for the exemption in the same manner as they would apply to all other imported merchandise.

[T.D. 75-230, 40 FR 43025, Sept. 18, 1975]

§ 10.24 Documentation.

(a) *Documents required.* The following documents shall be filed in connection with the entry of assembled articles claimed to be subject to the exemption under subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202).

(1) *Declaration by the assembler.* A declaration by the person who performed the assembly operations abroad shall be filed in substantially the following form:

I, _____, declare that to the best of my knowledge and belief the _____ were assembled in whole or in part from fabricated components listed and described below, which are products of the United States:

Marks of identification, numbers	Description of component	Quantity	Unit value at time and place of export from United States ¹	Port and date of export from United States	Name and address of manufacturer
----------------------------------	--------------------------	----------	--	--	----------------------------------

¹In accordance with U.S. Note 4 to Subchapter II of Chapter 98, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202).

Description of the operations performed abroad on the exported components (in sufficient detail to enable Customs officers to determine whether the operations performed are within the preview of subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202) (attach supplemental sheet if more space is required)):

Date	Signature
Address	Capacity

(2) *Endorsement by the importer.* An endorsement, in substantially the following form, shall be signed by the importer:

I declare that to the best of my knowledge and belief the (above), (attached) declaration, and any other information submitted herewith, or otherwise supplied or referred to, is correct in every respect and there has been compliance with all pertinent legal notes to the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202).

Date	Signature
Address	Capacity

(b) *Revision of format.* In specific cases, the port director may revise the format of either of the documents specified in paragraph (a) of this section and may make such changes as conditions warrant, provided the data and information required to be supplied in these documents are presented. For example, if the components were furnished by the importer, the information on components may be supplied as part of the importer's endorsement, rather than as part of the assembler's declaration.

(c) *Reference to previously filed documents.* In lieu of filing duplicate lists of components and descriptions of assembly operations with each entry, the documents specified in paragraph (a) of this section may refer to assembly descriptions and lists of components previously filed with and approved by the port director, or to records showing costs, names of manufacturers, and other necessary data on components, provided the importer has arranged with the port director to maintain such records and keep them available for examination by authorized Customs officers.

(d) *Waiver of specific details for each entry.* There are cases where large quantities of United States components are purchased from various sources or exported at various ports and dates on a continuing basis, so that it is impractical to identify the exact source, port and date of export for each particular component included in an

entry of merchandise claimed to be subject to the exemption under subheading 9802.00.80, HTSUS (19 U.S.C. 1202). In these cases, specific details such as the port and date of export and the name of the manufacturer of the United States components may be waived if the port director is satisfied that the importer and assembler have established reliable controls to insure that all components for which the exemption is claimed are in fact products of the United States. These controls shall include strict physical segregation of United States and foreign components, as well as records of United States components showing quantities, sources, costs, dates shipped abroad, and other necessary information. These records shall be maintained by the importer and assembler for 5 years from the date of the released entry in a manner so that they are readily available for audit, inspection, copying, reproduction or other official use by authorized Customs officers.

(e) *Waiver of documents.* When the port director is satisfied that unusual circumstances make the production of either or both of the documents specified in paragraph (a) of this section, or of any of the information set forth therein, impractical and is further satisfied that the requirements of subheading 9802.00.80, HTSUS, and related legal notes have been met, he may waive the production of such document(s) or information.

(f) *Unavailability of documents at time of entry.* If either or both of the documents specified in paragraph (a) of this section are not available at the time of entry, a bond on Customs Form 301 containing the bond conditions set forth in §113.62 of this chapter for the production of the document(s) may be given pursuant to §§113.41—113.46 and 141.66 of this chapter.

(g) *Responsibility of correctness.* Subject to the civil and criminal sanctions provided by law for false or fraudulent entries, the importer has the ultimate responsibility for supplying all information needed by the Customs Service

§ 10.25

to process an entry, and for the completeness and truthfulness of such information. If certain information cannot be supplied by the assembler, it must be provided by the importer.

[T.D. 75-230, 40 FR 43025, Sept. 18, 1975, as amended by T.D. 79-159, 44 FR 31967, June 4, 1979; T.D. 84-213, 49 FR 41165, Oct. 19, 1984; T.D. 89-1, 53 FR 51248, Dec. 21, 1988]

§ 10.25 Textile components cut to shape in the United States and assembled abroad.

Where a textile component is cut to shape (but not to length, width, or both) in the United States from foreign fabric and exported to another country, territory, or insular possession for assembly into an article that is then returned to the United States and entered, or withdrawn from warehouse, for consumption on or after July 1, 1996, the value of the textile component shall not be included in the dutiable value of the article. For purposes of determining whether a reduction in the dutiable value of an imported article may be allowed under this section:

(a) The terms "textile component" and "fabric" have reference only to goods covered by the definition of "textile or apparel product" set forth in § 102.21(b)(5) of this chapter;

(b) The operations performed abroad on the textile component shall conform to the requirements and examples set forth in § 10.16 insofar as they may be applicable to a textile component; and

(c) The valuation and documentation provisions of §§ 10.17, 10.18, 10.21 and 10.24 shall apply.

[T.D. 95-69, 60 FR 46196, Sept. 5, 1995; T.D. 95-69, 60 FR 55995, Nov. 6, 1995]

§ 10.26 Articles assembled or processed in a beneficiary country in whole of U.S. components or ingredients; articles assembled in a beneficiary country from textile components cut to shape in the United States.

(a) No article (except a textile article, apparel article, or petroleum, or any product derived from petroleum, provided for in heading 2709 or 2710, Harmonized Tariff Schedule of the United States (HTSUS)) shall be treated as a foreign article or as subject to duty:

19 CFR Ch. I (4-1-06 Edition)

(1) If the article is assembled or processed in a beneficiary country in whole of fabricated components that are a product of the United States; or

(2) If the article is processed in a beneficiary country in whole of ingredients (other than water) that are a product of the United States; and

(3) Neither the fabricated components, materials or ingredients after their exportation from the United States, nor the article before its importation into the United States, enters into the commerce of any foreign country other than a beneficiary country.

(b) No article (except a textile or apparel product) entered, or withdrawn from warehouse, for consumption on or after July 1, 1996, shall be treated as a foreign article or as subject to duty:

(1) If the article is assembled in a beneficiary country in whole of textile components cut to shape (but not to length, width, or both) in the United States from foreign fabric; or

(2) If the article is assembled in a beneficiary country in whole of both textile components described in paragraph (b)(1) of this section and components that are products of the United States; and

(3) Neither the components after their exportation from the United States, nor the article before its importation into the United States, enters into the commerce of any foreign country other than a beneficiary country.

(c) For purposes of this section:

(1) The terms "textile article", "apparel article", and "textile or apparel product" cover all articles, other than footwear and parts of footwear, that are classifiable in an HTSUS sub-heading which carries a textile and apparel category number designation;

(2) The term "beneficiary country" has the meaning set forth in § 10.191(b)(1); and

(3) A component, material, ingredient, or article shall be deemed to have not entered into the commerce of any foreign country other than a beneficiary country if:

(i) The component, material, or ingredient was shipped directly from the United States to a beneficiary country, or the article was shipped directly to the United States from a beneficiary country, without passing through the
