

## § 10.251

## 19 CFR Ch. I (4–1–06 Edition)

If the declaration is completed in a language other than English, the producer or the entity controlling production must provide to Customs upon request a written English translation of the declaration; and

(ii) Must be filed with the New York Strategic Trade Center, U.S. Customs Service, 1 Penn Plaza, New York, New York 10119.

(d) *Verification of declaration of compliance*—(1) *Verification procedure.* A declaration of compliance filed under this section will be subject to whatever verification Customs deems necessary. In the event that Customs for any reason is prevented from verifying the statements made on a declaration of compliance, Customs may deny any claim for preferential treatment made under § 10.245 that is based on that declaration. A verification of a declaration of compliance may involve, but need not be limited to, a review of:

(i) All records required to be made, kept, and made available to Customs by the importer, the producer, the entity controlling production, or any other person under part 163 of this chapter;

(ii) Documentation and other information regarding all articles that meet the production standards specified in § 10.243(a)(4) that were exported to the United States and that were entered during the year in question, whether or not a claim for preferential treatment was made under § 10.245. Those records and other information include, but are not limited to, work orders and other production records, purchase orders, invoices, bills of lading and other shipping documents;

(iii) Evidence to document the cost of fabrics formed in the United States that were used in the production of the articles in question, such as purchase orders, invoices, bills of lading and other shipping documents, and customs import and clearance documents, work orders and other production records, and inventory control records;

(iv) Evidence to document the cost or value of all fabric other than fabrics formed in the United States that were used in the production of the articles in question, such as purchase orders, invoices, bills of lading and other shipping documents, and customs import and clearance documents, work orders

and other production records, and inventory control records; and

(v) Accounting books and documents to verify the records and information referred to in paragraphs (d)(1)(ii) through (d)(1)(iv) of this section. The verification of purchase orders, invoices and bills of lading will be accomplished through the review of a distinct audit trail. The audit trail documents must consist of a cash disbursement or purchase journal or equivalent records to establish the purchase of the fabric. The headings in each of these journals or other records must contain the date, vendor name, and amount paid for the fabric. The verification of production records and work orders will be accomplished through analysis of the inventory records of the producer or entity controlling production. The inventory records must reflect the production of the finished article which must be referenced to the original purchase order or lot number covering the fabric used in production. In the inventory production records, the inventory should show the opening balance of the inventory plus the purchases made during the accounting period and the inventory closing balance.

(2) *Notice of determination.* If, based on a verification of a declaration of compliance filed under this section, Customs determines that the applicable 75 or 85 percent standard specified in paragraph (b)(1)(i) or paragraph (b)(1)(ii) of this section was not met, Customs will publish a notice of that determination in the FEDERAL REGISTER.
