Flathead National Forest Showcases New Office in Kalispell

The Flathead National Forest is hosting a public open house on Thursday, April 24, 4-7pm, to showcase the new co-located Supervisor's Office and Tally Lake Ranger District Office in Kalispell.

The public is invited to stop by anytime during the open house to tour the new facility and meet forest and district personnel. A ribbon-cutting ceremony will take place at 4pm. The address is 650 Wolfpack Way, located off of Stillwater Drive south of the Glacier High School.

Glacier Association, a partner of the forest that helps support educational programs with aid generated by book sales located at forest offices, is helping to sponsor the open house. A variety of publications and materials such as maps, guides, DVDs and other materials will be available at the open house, and year round at the new office. Refreshments will be served during the open house.

For more information about the open house, please call 758-5208.
