### **West-Side Reservoir Road Open to Snowmobiles**

The West-side Reservoir Road on the Flathead National Forest, Forest Road #895, is open to snowmobile travel beginning this weekend, Saturday, February 17. The Alpha Beta and Doris Roads, Forest Roads #895H and #895A, are also open to snowmobile traffic.

Snowmobilers accessing the West-side Reservoir Road must park vehicles at the Hungry Horse Dam parking lot. Wheeled vehicle traffic is not allowed on the road.

Snowmobile riders should use caution along these roads and be alert to log decks and berms throughout the sale area.

These roads were temporarily closed to snowmobile traffic due to winter salvage logging operations on the Beta Timber Sale. Winter operations are completed, and salvage logging activities will begin again this summer. For more information, please contact the Hungry Horse Glacier View Ranger District at 387-3800.
