### Flathead National Forest Hosts Field Trip for Forest Plan Revision

The Flathead National Forest is hosting a field trip on Friday, August 5, 8:30am- 3pm, to discuss forest plan revision. Bus transportation will be provided. If interested in participating, please contact Denise Germann at 758-5252.

The forest plan is a strategic plan for managing the Flathead National Forest for the next 20 years and provides a framework for site-specific projects. The plan does not address site specific projects. A draft plan with a 90-day comment period is anticipated this fall. The Flathead National Forest is working in partnership with the Lolo and Bitterroot National Forests, the Western Montana Planning Zone, to revise forest plans for each forest.
