Skyland Road Closed Due to Impassible Conditions

The Hungry Horse District of the Flathead National Forest has closed Forest Road #569, the Skyland Road, at the 5-mile marker from US Highway 2, due to impassible conditions on the Skyland Road. It is anticipated the road will remain closed until repairs are conducted.

This road is the access to the Granite and Morrison Creek Trailheads which are the mainline trails into the Great Bear Wilderness. Thus, these trailheads are not accessible by vehicle.

Please contact the Hungry Horse Office at 387-3800 for more information.
