

Huron-Manistee National Forests

Success Story

Title

District Ranger Les Russell presents the Golden Presidential Service Award to Pat Brower of the Two Trackers Club.

This year marked the 10 year anniversary of the Two Trackers 4 Wheel Drive Club's Annual Earth Day Clean Up. The group received the Golden Presidential Service Award: Take Pride in America for volunteering over 4,000 man hours over the past 10 years.

They began with one site located on the southern portion of the Huron-Manistee National Forests and have adopted almost 12,000 acres of land in three townships. During the past 10 years they have picked up 650 yards of trash, 2,255 tires, 111,000 shingles, 189 gallons of used oil, 2 junk vehicles and 1 stolen vehicle.

During a short presentation during lunch District Ranger Les Russell and NEPA Planner Chris Fredericks presented the group with an award and read a letter from President Bush commending the group for their years of service to the Forest and the community.
