Human Services (DHHS)
Centers for Medicare &
Medicaid Services (CMS)

Transmittal 54

Date: DECEMBER 24, 2003

CHANGE REQUEST 3022

I. SUMMARY OF CHANGES: A new basis for Medicare drug payment amounts has been established with the “Medicare Prescription Drug, Improvement, and Modernization Act” (MPDIMA) of 2003. Chapter 17 has been updated to include this new basis for Part B drugs.

NEW/REVISED MATERIAL - EFFECTIVE DATE: January 1, 2004

***IMPLEMENTATION DATE:** January 5, 2004

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged.

II. CHANGES IN MANUAL INSTRUCTIONS: (N/A if manual not updated.)

**SUBJECT: New Basis for Medicare Drug Payment Amounts Under Part B –
Amendment of Instructions Specified in Transmittal AB-02-174**

I. GENERAL INFORMATION

A. Background:

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (DIMA) provides that as of January 1, 2004, the payment limits for drugs and biologicals are based on 85 percent of the April 1, 2003 Average Wholesale Price (AWP), for those drugs and biologicals furnished on and after January 1, 2004.

B. Policy:

The Medicare payment limits for drugs and biologicals not paid on a cost or prospective payment basis, and furnished on or after January 1, 2004, through December 31, 2004, are as described below:

- The payment limits for blood clotting factors are 95 percent of the AWP.
- The payment limits for new drugs or biologicals are 95 percent of the AWP. For the purposes of this instruction, a new drug is defined as an unlisted drug (not currently covered by a HCPCS code) that was approved by the Food and Drug Administration (FDA) subsequent to April 1, 2003. A drug is not considered to be a new drug if: the brand or manufacturer of the drug changes; a new vial size is developed, or the drug receives a new indication.
- The payment limits for pneumococcal and hepatitis B drugs and biologicals are 95 percent of the AWP.
- The payment limits for certain drugs studied by the OIG and GAO are based on the percentages of the April 1, 2003 AWP's specified in Table 1 in §20 of Chapter 17 of the Medicare Claims Processing Manual, Pub. 100-04.
- The payment limits for infusion drugs furnished through an item of implanted durable medical equipment on or after January 1, 2004, are 95 percent of the October 1, 2003 AWP.
- Drugs and biologicals not described above are paid at 85 percent of the April 1, 2003 AWP.

The Medicare payment limit for drugs and biologicals not paid on a cost or prospective payment basis and furnished prior to January 1, 2004, is 95 percent of AWP.

Payment limits determined under this instruction shall not be updated during 2004.

Effective January 1, 2004, the SDP mailbox at SDP@cms.hhs.gov will no longer be available. Questions must be sent to your appropriate regional office.

C. Provider Education:

Intermediaries and carriers shall inform affected providers by posting either a summary or relevant portions of this document on their Web site within 2 weeks. Also, intermediaries and carriers shall publish this same information in their next regularly scheduled bulletin. If they have a listserv that targets affected providers, they shall use it to notify subscribers that information about Single Drug Pricer is available on their Web site.

II. BUSINESS REQUIREMENTS

"Shall" denotes a mandatory requirement

"Should" denotes an optional requirement

Requirement #	Requirements	Responsibility
3022.1	For claims for drugs and biologicals not paid on a cost or prospective payment basis with dates of service on or after January 1, 2004, use the payment limits shown on the accompanying DIMA pricing file. Carriers shall use the DIMA_Drug_Payment_Limits121703a.xls file. FIs shall use the FI_DIMA_Drug_Payment_Limits122203a.xls file.	Carriers, FIs
3022.2	For claims drugs and biologicals not paid on a cost or prospective payment basis with dates of service before January 1, 2004, use the payment limits shown on the October 1, 2003 SDP file, previously furnished in September 2003.	Carriers, FIs
3022.3	Contractors may discard the January 1, 2004 SDP file previously sent in November 2003.	Carriers, FIs
3022.4	Claims for infusion drugs furnished through implanted DME, with dates of service on or after January 1, 2004, shall be identified using the "KD" modifier. The payment limit for these drugs shall be 95 percent of the October 1, 2003 AWP.	Carriers
3022.5	Contractors shall calculate payment limits for For Not Otherwise Classified (NOC) drugs	Carriers

	furnished during 2004. For NOC drugs first priced prior to April 1, 2003, the payment limit shall be based on 85 percent of the April 1, 2003 AWP. For NOC drugs first priced after April 1, 2003, the payment limit shall be based on 95 percent of the earliest AWP available.

Chapter 17 - Drugs and Biologicals

Table of Contents

(Rev. 54, 12-24-03)

[Crosswalk to Old Manuals](#)

- 10 - Payment Rules for Drugs and Biologicals
- 20 - Payment Allowance Limit for Drugs and Biologicals *Not Paid on a Cost or Prospective Payment Basis*
 - 20.1 - Single Drug Pricer (SDP)
 - 20.2 - Calculation of the AWP
 - 20.3 - Detailed Procedures for Determining AWP and the Drug Payment Allowance Limits
 - 20.3.1 - Background
 - 20.3.2 - Review of Sources for Medicare Covered Drugs and Biologicals
 - 20.3.3 - Use of Generics
 - 20.3.4 - Find the Strength and Dosage
 - 20.3.5 - Restrictions
 - 20.3.6 - Inherent Reasonableness for Drugs and Biologicals
 - 20.3.7 – Injection Services
 - 20.3.8 – Injections Furnished to ESRD Beneficiaries
- 30 - Carrier Distribution of Limit Amounts
- 40 - Discarded Drugs and Biologicals
- 50 - Assignment Required for Drugs and Biologicals
- 60 – DMEPOS Suppliers Require a License to Dispense Drugs
 - 60.1 - Prescription Drugs Billed by Suppliers Not Licensed to Dispense Them
- 70 - Claims Processing Requirements - General
 - 70.1 – Billing Drugs Electronically - NCPDP
 - 70.1.1 – Reporting Modifiers in the Compound Drug Segment
 - 70.1.2 – Coordination of Benefits (COB)

70.1.3 – Inbound NCPDP Claim

80 - Claims Processing for Special Drug Categories

80.1 - Oral Cancer Drugs

80.1.1 - HCPCS Service Coding for Oral Cancer Drugs

80.1.2 - HCPCS and NDC Reporting for Prodrugs

80.1.3 - Other Claims Processing Issues for Oral Cancer Drugs

80.1.4 - MSN/ANSI X12N Message Codes for Oral Cancer Drug Denials

80.2 - Oral Anti-Emetic Drugs Used as Full Replacement for Intravenous Anti-Emetic Drugs as Part of a Cancer Chemotherapeutic Regimen

80.2.1 - HCPCS Codes for Oral Anti-Emetic Drugs

80.2.2 - Claims Processing Jurisdiction for Oral Anti-Emetic Drugs

80.2.3 - MSN /ANSI X12N Denial Messages for Anti-Emetic Drugs

80.3 - Billing for Immunosuppressive Drugs

80.3.1 - Requirements for Billing FI for Immunosuppressive Drugs

80.3.2 - MSN/Remittance Messages for Immunosuppressive Drugs

80.4 - Billing for Hemophilia Clotting Factors

80.5 - Self-Administered Drugs

90 - Claims Processing Rules for Hospital Outpatient Billing and Payment

90.1 - Blood/Blood Products and Drugs Classified in Separate APCs for Hospital Outpatients

90.2 - Changes to Pass-Through Drugs and Biologicals Final Rule

90.2.1 - HCPCS Codes Replacements

90.2.2 - Codes Not Recognized for Medicare Under the Hospital OPSS

90.2.3 - Additional Drugs Eligible for Pass-Through Payments

90.2.4 - Changes to Payment Rates and Co-Pay From the March 1, 2002 OPSS Final Rule

90.2.5 - Additional Corrections

90.2.6 - Additional Billing and Reporting Information Related to Pass-Through Drugs Effective April 1, 2002

90.2.7 - Typographical Errors from the March 1, 2002, OPSS Final Rule

90.2.8 - Correction to 2003 HCPCS Code Books

90.2.9 - Pro-Rata Reduction in Drug and Device Pass-Through Payments

10 - Payment Rules for Drugs and Biologicals

(Rev. 54, 12-24-03)

A3-2049, A3-5201; A-00-36, B-01-10, B-01-38, AB-01-16, AB-02-075, AB-02-174, AB-03-014

Drugs for inpatient hospital and inpatient skilled nursing facility (SNF) beneficiaries are included in the respective prospective payment system (PPS) rates except for hemophilia clotting factors for hospital inpatients under Part A. These drugs and the codes used to bill for them are listed in Addendum B on the Centers for Medicare & Medicaid Services (CMS) Web site: <http://cms.hhs.gov/providerupdate/regs/cms1206cn2.pdf>. The Web site is updated as the list of drugs or codes change. HCPCS codes are used by hospitals and SNFS to bill for drugs that are separately billable through September 30, 2002, at which time national drug codes (NDC) are required by the Health Insurance Portability and Accountability Act (HIPAA). A separate payment may be made for hospital inpatients, who receive hemophilia clotting factors (but not SNF). See Chapter 3 for instructions on billing inpatient hospital hemophilia clotting factors.

All hospital outpatient drugs are excluded from SDP because the payment allowance for such drugs is determined by a different procedure. Most drugs furnished to hospital outpatients are packaged under the outpatient prospective payment system (OPPS). Their costs are recognized and included but paid as part of the ambulatory payment classification (APC) for the service with which they are billed. Certain drugs, however, are paid separately. These include chemotherapeutic agents and the supportive and adjunctive drugs used with them, immunosuppressive drugs, orphan drugs, radiopharmaceuticals, and certain other drugs such as those given in the emergency room for heart attacks.

The classes of drugs required to have “pass through” payments made under the Balanced Budget Refinement Act of 1999 (BBRA) have coinsurance amounts that can be less than 20 percent of the Average Wholesale Price (AWP). This is because pass-through amounts, by law, are not subject to coinsurance. The CMS considers the amount of the payment rate that exceeds the estimated acquisition cost of the drug to be the pass-through amount. Thus, the coinsurance is based on a portion of the payment rate, not the full payment rate.

Drugs are billed in multiples of the dosage specified in the HCPCS/NDC. If the dosage given is not a multiple of the Health Insurance Common Procedure Coding System (HCPCS) code, the provider rounds to the next highest units in the HCPCS description for the code.

If the full dosage provided is less than the dosage for the code specifying the minimum dosage for the drug, the provider reports the code for the minimum dosage amount.

OPPS PRICER includes a table of drugs and prices and provides the intermediary (FI) with the appropriate prices.

Section [90](#) relates specifically to billing for hospital outpatients. The remainder of this chapter relates to procedures for pricing and paying DME recipients, and to beneficiaries who receive drugs under special benefits such as pneumococcal, flu and hepatitis vaccines; clotting factors, immunosuppressive therapy, self administered cancer and anti emetic drugs, and drugs incident to physicians services.

Drugs and biologicals not paid on cost or prospective payment basis have been paid based on the lower of the billed charge or 95 percent of the average wholesale price (AWP) as reflected in published sources (e.g., Red Book, Price Alert, etc.). Examples of drugs that have been paid on this basis include but are not limited to drugs furnished incident to a physician's service, immunosuppressive drugs furnished by pharmacies, drugs furnished by pharmacies under the durable medical equipment benefit, covered oral anticancer drugs, and blood clotting factors. *The Medicare Prescription Drug, Improvement, and Modernization Act (MPDIMA) of 2003 changed the basis for payment of drugs and biologicals not paid on a cost or prospective payment basis. Beginning January 1, 2004, through December 31, 2004, such drugs or biologicals are paid based on various standards specified in the statute, although the default standard is 85 percent of AWP. See §20, below for a full discussion of the basis for drugs in this category during 2004.*

Drugs or biologicals must meet the coverage requirements in Chapter 15 of the Medicare Benefit Policy Manual. Additionally, for end stage renal disease (ESRD) patients, see the Medicare Benefit Policy Manual, Chapter 11 . For ESRD patient billing for drugs and claims processing, see Chapter 8 of this manual.

The following chart describes the payment provisions for drugs.

Table - Drug Payment Methodology

References:

MIM 3610.18, 3660.7,5202.4, PM A-01-93, A-01-133, A-02-129, AB-02-075, AB-02-174 and Various CMS staff

In the table below, if the item does not have an *, the bill is submitted to the FI. An * indicates the bill is submitted to the carrier or DMERC as applicable.

Key to the following Table:

* Bills carrier or DMERC; no asterisk means bills FI or RHHI

† - Drugs & biologicals outside the composite rate are paid as described in 2 below. Those inside the composite rate are paid as described in 1.

1 - Included in PPS rate, or other provider-type all inclusive encounter rate

2 – Price taken from CMS issued SDP file. *The prices shown on the SDP file are 95% of AWP for drugs and biologicals furnished before January 1, 2004 and based on the provisions of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 for drugs and biologicals finished dduring 2004. In all cases the amount payable is the lower of the Medicare payment allowance limit (i.e., the Medicare price) or the billed charge. If no price is specified by the SDP, then the Medicare payment allowance limit is determined by the local carrier.*

3 - Reasonable cost

4 - Lower of cost or 95% AWP paid for drug in addition to PPS rate, or in addition to reasonable cost if excluded from PPS

5 - OPPS-APC, whether pass-thru drug or not

6 - Can not furnish as that “provider” type;

7 - \$10.00 per 1000 units (Payment rate for EPO set in statute)

8 - May get carrier billing number if qualified and bill carrier

++ Except in the State of Washington, where we permit the RDF to bill immunosuppressives due to the unique State assistance to the beneficiary provided only via the RDF.

Provider/Drug	Hepatitis B Vaccine	Pneumococcal & Flu Vaccines	Clotting Factors	Immuno - Suppressive	Erythropoietin (EPO)	Self Admin Anti-Cancer Anti-Emetic	Other Drugs

Pharmacy	2*	2 *	2 *	2 *	7 *	2 *	2 *
Durable Medical Equipment, <i>Prosthetics, Orthotics, and Supplies</i> (DMEPOS) Supplier	2*	2 *	2 *	2 *	7 *	2 *	2 *
Critical Access Hospital (CAH) Outpt-Method I	3	3	3	3	3	3	3
CAH Outpt-Method II	3	3	3	3	3	3	3
CAH Inpt	3	3	3	3	3	3	3

NOTE: RHCs do not bill for vaccines. These are paid on the cost report. Vaccine payment to FQHCs is bundled into the encounter rate.

Hepatitis B vaccine is paid on an APC basis in a hospital outpatient department. Deductible and coinsurance apply.

Influenza and pneumococcal vaccines are also paid on an APC basis in a hospital outpatient department. Neither deductible nor coinsurance apply.

HHAs cannot bill for vaccines, except on TOB 34X, since vaccines are not part of the HH benefit and cannot be paid under HH PPS.

Pneumococcal and influenza are paid once for the vaccine and once for the administration of the vaccine. The provider or supplier (including physician) must enter each of the HCPCS on separate lines of the claim.”

20 - Payment Allowance Limit for Drugs and Biologicals *Not Paid on a Cost or Prospective Payment Basis*

(Rev. 54, 12-24-03)

AB-02-075, AB-02-174, PRM 2711.2 B.2, B3-5202, R1799B3

Prior to January 1, 2004, drugs and biologicals not paid on cost or prospective payment are paid based on the lower of the billed charge or 95 percent of the average wholesale price (AWP) as reflected in published sources (e.g., Red Book, Price Alert, etc.).

Examples of drugs that are paid on this basis include, but are not limited to, drugs furnished incident to a physician's service, immunosuppressive drugs furnished by pharmacies, drugs furnished by pharmacies under the durable medical equipment benefit, covered oral anticancer drugs, and blood clotting factors.

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, changed the basis for payment of drugs and biologicals not paid on a cost or prospective payment basis. For January 1, 2004, through December 31, 2004, such drugs or biologicals are paid as described below:

- The payment limits for blood clotting factors will be 95 percent of the AWP.*
- The payment limits for new drugs or biologicals will be 95 percent of the AWP. A new drug is defined as an unlisted drug (not currently covered by a HCPCS code) that was FDA approved subsequent to April 1, 2003. A drug would not be considered new if: the brand or manufacturer of the drug changed; a new formulation of the vial size is developed ; or the drug received a new indication..*
- The payment limits for pneumococcal and hepatitis B drugs and biologicals will be 95 percent of the AWP.*
- The payment limits for certain drugs studied by the OIG and GAO are based on the percentages of the April 1, 2003 AWP's specified on Table 1 below.*
- The payment limits for infusion drugs furnished through an item of implanted durable medical equipment on or after January 1, 2004, will be 95 percent of the October 1, 2003 AWP.*
- Drugs and biologicals not described above are paid at 85 percent of the April 1, 2003 AWP.*

Payment limits determined under this instruction shall not be updated during 2004.

Q0136	87

In general, CMS establishes a single, national payment limit for FI and carrier payment for each Medicare-covered drug whose payment is determined based on the methodology described above. Drugs billed to DMERCs are still priced locally, albeit under the new statutory formula, as applicable. See §20.1 for a discussion of Single Drug Pricer (SDP). The four DMERCs jointly establish drug payment limits for drugs that are billed to DMERCs.

The CMS provides a SDP file to each carrier and FI for pricing drugs. The carrier should develop payment limits using the above methodology only when CMS does not supply a payment limit for the drug. Each FI and carrier must accept the SDP files made available by CMS for pricing bills/claims for any drug identified on the price files.

20.1 - Single Drug Pricer (SDP)

(Rev. 54, 12-24-03)

AB-02-174, B-03-059, AB-03-047

Effective January 1, 2003, contractors pay drug claims on the basis of the prices shown on the SDP files, if present.

On a quarterly basis, CMS furnishes three SDP files to all FIs, carriers, and ROs except regional home health intermediaries (RHHIs) and durable medical equipment regional carriers (DMERCs), as follows:

1. "HCPCS" Drug Pricing File
 - a. CMS furnishes a SDP file that contains drugs identified by a code established by the Health Care Procedure Code System (HCPCS). This HCPCS drug-pricing file (HDPF) contains:
 - Every HCPCS drug code for every drug for which claims are submitted to

local carriers (excluding DMERCs);

- With respect to each such HCPCS code, the unit of measure by which such HCPCS code is defined;
 - With respect to each HCPCS code and unit of measure, the Medicare allowed amount;
 - With respect to each HCPCS code for which the price has changed from the price determined in the previous quarter, an indication as to whether the new price is higher or lower than the price determined in the prior quarter;
 - With respect to each new HCPCS code, an indicator to that effect; and
 - with respect to each deleted HCPCS code, an indicator to that effect.
- b. The filename convention is as follows: (1) “hdpf” in the first 4 positions (2) positions 5-8 correspond to the year and quarter for which the file is applicable (e.g., hdpf0301.xls).
- c. An HDPF will be made available approximately **30** days before the beginning of each calendar quarter, i.e., on or about each February 1, May 1, August 1, and November 1.

2. “Not otherwise classified” (NOC) Drug Pricing File

- a. CMS furnishes a NOC SDP file for drugs “not otherwise classified.” This NOC drug pricing file (NDPF) contains:
- With respect to every drug NOC under the HCPCS for which claims are submitted to local carriers (excluding DMERCs), the NDC code and drug name;
 - With respect to each such NDC code, the unit of measure by which such drug is covered;
 - With respect to each NOC drug, the Medicare allowed amount;
 - With respect to each NOC drug for which the price has changed from the price determined in the previous quarter, an indication as to whether the new price is higher or lower than the price determined in the prior quarter;
 - With respect to each new NOC drug, an indicator to that effect; and
 - With respect to each deleted NOC drug, an indicator to that effect.
- b. The filename convention is as follows: (1) “ndpf” in the first 4 positions (2)

positions 5-8 correspond to the year and quarter for which the file is applicable (e.g., the initial NOC file's filename was "ndpf0301.xls").

- c. The CMS makes a revised NDPF available approximately **30** days before the beginning of each calendar quarter, i.e., on or about each February 1, May 1, August 1, and November 1.

NOTE TO FIs: The NOC file does not necessarily contain all NOC drugs. FIs must contact local carriers to determine if there are other drugs the carrier has priced separately and request the prices for those drugs as needed.

3. The CMS furnishes a pricing documentation file (PDF) that contains *only new drugs and biologicals for which a Medicare price has been established since the previous quarter*:

- a. The data in the drug pricing file, i.e., each HCPCS code and its Medicare allowed amount;
- b. With respect to each HCPCS drug code, every product, as identified by its NDC code, that contains the same active ingredient as specified in the definition of the HCPCS code;
- c. With respect to those NDC codes used to determine the Medicare-allowed amount, an indicator to that effect;
- d. With respect to each such NDC, the price or prices used to determine the average wholesale price (AWP) of the product;
- e. With respect to each such price, an identification of the source(s) of the price; and
- f. With respect to each such source, the date, edition, and other information necessary and sufficient to enable CMS to verify the price.

Except as specifically noted, each FI and carrier will:

- Upon receiving the quarterly update files, execute its normal update process using the SDP files. If necessary, the contractor shall process manually to implement SDP file prices effective with the beginning of the following quarter.
- Compare the prices it paid previously with the prices shown on the prior SDP file; taking note of the unit pricing quantity shown on the applicable SDP file and comparing it to the unit pricing quantity to ensure that any apparent price changes are real.
 - Carriers must notify physicians of price changes.
 - FIs must notify ESRD facilities (with respect to ESRD drugs not included in the composite rate) and hospitals (with respect to clotting factors) of

price changes to the extent and in the manner you have done previously.

- Advise the RO of any price on a SDP file it believes is not correct.
- Not substitute its price for the price shown on an SDP file unless authorized to do so by a joint memorandum from CMS.
- If updated prices, in whole or in part, are not made available on a timely basis, use the prices from the prior quarter's SDP files to the extent necessary.
- Carriers continue to price drugs as outlined in [§20.2](#) with respect to any drug that is not listed on the SDP files and with respect to any compounded drug that is not identified by a single NDC.
 - Report to the RO, on or before March 1 of each year, whether any drugs are being priced separately, including but not limited to NOC drugs. If one or more drugs are being priced separately, then the name of the drug, its NDC, the price determined, and the source used to price drug must also be included in the report.
- Carriers and FIs: Publish current SDP prices on their Web site immediately upon receipt of the file from CMS.
- FIs: As needed on a quarterly basis and within seven days of receipt of the SDP files, request, from carriers, prices of drugs that carriers may price separately.
 - Carriers: Upon request, on a quarterly basis and within seven days of any such request, furnish to FIs within jurisdiction, free of charge, the subset of files, which includes drugs that are priced separately.
- FIs and Carriers: Respond to questions about price changes and the implementation of AWP pricing as done previously. Contractors respond to questions about the SDP on the basis of these instructions. Questions that cannot be answered should be referred to the RO.
- Carrier shared systems shall maintain five fee screens/pricing files (a current period and four prior periods) for Part B "incident to" drugs billed to carriers for payment on a fee-for-service basis.
- Since they post the updated SDP file to their Web site upon receipt from CMS, carriers are waived from the requirement to give 30 days advance notice for fee schedule changes with respect to drugs.
- SDP does not preclude the use of inherent reasonableness or the establishment of local medical review policies, including the use of a least costly alternative.
 - If a least costly alternative is determined and a process for the least costly alternative exists on the SDP, the SDP price for the least costly alternative

must be used.

- Medicare coverage determinations are independent of the SDP. The presence or absence of a price for a particular drug in the SDP is irrelevant to Medicare coverage determinations.
- EPO=Q codes are included in the SDP, applicable to physician claims. The statutory limit for EPO applies to nonphysician claims.
- “Unit Measurement” means the amount of whatever measurement is used in the code description (e.g., milligrams (mg)).

ROs:

1. Advise carriers concerning the implementation of the SDP.
2. Respond to questions about drug price changes.
3. Respond to questions about the implementation of the AWP pricing methodology.
4. Respond to questions about the SDP on the basis of these instructions.
5. Refer any questions that cannot be answered to central office (CO) per item 6, below.
6. Advise CO of matters that require CO attention.

20.2 – Calculation of the AWP

(Rev. 54, 12-24-03)

AB-02-075, PRM 2711.2.B.2, B3-5202.1

Carriers must ensure that if any NDCs are added or deleted, the formulae are applied appropriately.

A separate AWP is calculated for each drug as defined by a HCPCS code. Within each HCPCS code there may be a single source or there may be many sources, or there may be no source.

- For a single-source drug or biological, the AWP equals the AWP of the single product.
- For a multi-source drug or biological, the AWP is equal to the lesser of;
 - The median AWP of all generic forms of the drug or biological; or
 - The lowest brand name product AWP.

A “brand name” product is defined as a product that is marketed under a labeled name that is other than the generic chemical name for the drug or biological.

Note: Repackagers make the status of the drug a multi-source.

After determining the AWP, carriers multiply it by *0.85 or 0.95, or other percentage, as applicable*, and round to the nearest penny. This is the drug payment allowance limit. Carriers round it in accordance with standard rounding procedure. Part B coinsurance and deductible requirements apply.

In applying this procedure, carriers use the package sizes that are most commonly used for the most frequently administered dosage of the drug.

Intermediaries get drug prices from the carrier for drugs not listed on the Single Drug Pricer.

20.3 - Detailed Procedures for Determining AWP and the Drug Payment Allowance Limits

(Rev. 54, 12-24-03)

AB-02-075, PRM 2711.2B.2, B3-5202.1

20.3.1 - Background

(Rev. 1, 10-01-03)

Payment for drugs and biologicals under Medicare is determined by a standard methodology. Law and regulations require that a drug payment allowance limit be used as described in [§20.1](#). (See [42 CFR 405.517](#) and *MPDIMA, Section 303(b)*)

The earliest drug payment allowance limit effective in 2004 will not be subsequently updated during 2004. When limits are initially established, carriers inform FIs and the provider community as described in paragraph [§30](#) below.

**2004 DIMA Drug Payment Limits
Effective January 1, 2004**

HCPCS	Short Description	2004 Payment Limit for Drugs (other than ESRD drugs separately billed by independent ESRD Facilities and drugs infused through DME)	2004 Payment Limit for ESRD Drugs Separately Billed by Independent ESRD Facilities	2004 Payment Limit for Drugs when Infused through DME
