

## Federal Acquisition Regulation

## 5.202

the exceptions in 5.202 and the special situations in 5.205, the contracting officer must transmit a notice to the GPE, for each proposed—

(i) Contract action meeting the threshold in 5.101(a)(1);

(ii) Modification to an existing contract for additional supplies or services that meets the threshold in 5.101(a)(1); or

(iii) Contract action in any amount when advantageous to the Government.

(2) When transmitting notices to the GPE before January 1, 2002, contracting officers must direct the GPE to forward the notice to the CBD.

(3) When transmitting notices to FACNET, contracting officers must ensure the notice is forwarded to the GPE. For notices published before January 1, 2002, contracting officers must ensure that the notices are forwarded by the GPE to the CBD.

(c) The primary purposes of the notice are to improve small business access to acquisition information and enhance competition by identifying contracting and subcontracting opportunities.

(d)(1) The GPE may be accessed via the Internet at <http://www.fedbizopps.gov>.

(2) Subscriptions to the CBD must be placed with the Superintendent of Documents, Government Printing Office, Washington, DC 20402, Telephone (202) 512-1800.

[66 FR 27410, May 16, 2001]

### 5.202 Exceptions.

The contracting officer need not submit the notice required by 5.201 when—

(a) The contracting officer determines that—

(1) The synopsis cannot be worded to preclude disclosure of an agency's needs and such disclosure would compromise the national security (e.g., would result in disclosure of classified information). The fact that a proposed solicitation or contract action contains classified information, or that access to classified matter may be necessary to submit a proposal or perform the contract does not, in itself, justify use of this exception to synopsis;

(2) The proposed contract action is made under the conditions described in 6.302-2 (or, for purchases conducted

using simplified acquisition procedures, if unusual and compelling urgency precludes competition to the maximum extent practicable) and the Government would be seriously injured if the agency complies with the time periods specified in 5.203;

(3) The proposed contract action is one for which either the written direction of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services for such government, or the terms of an international agreement or treaty between the United States and a foreign government or international organizations, has the effect of requiring that the acquisition shall be from specified sources;

(4) The proposed contract action is expressly authorized or required by a statute to be made through another Government agency, including acquisitions from the Small Business Administration (SBA) using the authority of section 8(a) of the Small Business Act (but see 5.205(f)), or from a specific source such as a workshop for the blind under the rules of the Committee for the Purchase from the Blind and Other Severely Handicapped;

(5) The proposed contract action is for utility services other than telecommunications services and only one source is available;

(6) The proposed contract action is an order placed under Subpart 16.5;

(7) The proposed contract action results from acceptance of a proposal under the Small Business Innovation Development Act of 1982 (Pub. L. 97-219);

(8) The proposed contract action results from the acceptance of an unsolicited research proposal that demonstrates a unique and innovative concept (see 2.101) and publication of any notice complying with 5.207 would improperly disclose the originality of thought or innovativeness of the proposed research, or would disclose proprietary information associated with the proposal. This exception does not apply if the proposed contract action results from an unsolicited research proposal and acceptance is based solely upon the unique capability of the

## 5.203

source to perform the particular research services proposed (see 6.302-1(a)(2)(i));

(9) The proposed contract action is made for perishable subsistence supplies, and advance notice is not appropriate or reasonable;

(10) The proposed contract action is made under conditions described in 6.302-3, or 6.302-5 with regard to brand name commercial items for authorized resale, or 6.302-7, and advance notice is not appropriate or reasonable;

(11) The proposed contract action is made under the terms of an existing contract that was previously synopsisized in sufficient detail to comply with the requirements of 5.207 with respect to the current proposed contract action;

(12) The proposed contract action is by a Defense agency and the proposed contract action will be made and performed outside the United States, its possessions, or Puerto Rico, and only local sources will be solicited. This exception does not apply to proposed contract actions subject to the Trade Agreements Act (see subpart 25.4). This exception also does not apply to North American Free Trade Agreement proposed contract actions, which will be synopsisized in accordance with agency regulations;

(13) The proposed contract action—

(i) Is for an amount not expected to exceed the simplified acquisition threshold;

(ii) Will be made through a means that provides access to the notice of proposed contract action through the GPE; and

(iii) Permits the public to respond to the solicitation electronically; or

(14) The proposed contract action is made under conditions described in 6.302-3 with respect to the services of an expert to support the Federal Government in any current or anticipated litigation or dispute.

(b) The head of the agency determines in writing after consultation with the Administrator for Federal Procurement Policy and the Administrator of the Small Business Adminis-

### 5.203 Publicizing and response time.

Whenever agencies are required to publicize notice of proposed contract actions under 5.201, they must proceed as follows:

(a) An agency must transmit a notice of proposed contract action to the GPE (see 5.201). All publicizing and response times are calculated based on the date of publication. For notices published before January 1, 2002, the publication date is the date the notice is published in the CBD. For notices published on or after January 1, 2002, the publication date is the date the notice appears on the GPE. The notice must be published at least 15 days before issuance of a solicitation except that, for acquisitions of commercial items, the contracting officer may—

(1) Establish a shorter period for issuance of the solicitation; or

(2) Use the combined synopsis and solicitation procedure (see 12.603).

(b) The contracting officer must establish a solicitation response time that will afford potential offerors a reasonable opportunity to respond to each proposed contract action, (including actions via FACNET or for which the notice of proposed contract action and solicitation information is accessible through the GPE), in an amount estimated to be greater than \$25,000, but not greater than the simplified acquisition threshold; or each contract action for the acquisition of commercial items in an amount estimated to be greater than \$25,000. The contracting officer should consider the circumstances of the individual acquisition, such as the complexity, commerciality, availability, and urgency, when establishing the solicitation response time.
