46.104 Contract administration office responsibilities.

When a contract is assigned for administration to the contract administration office cognizant of the contractor's plant, that office, unless specified otherwise, shall—

- (a) Develop and apply efficient procedures for performing Government contract quality assurance actions under the contract in accordance with the written direction of the contracting office:
- (b) Perform all actions necessary to verify whether the supplies or services conform to contract quality requirements;
- (c) Maintain, as part of the performance records of the contract, suitable records reflecting—
- (1) The nature of Government contract quality assurance actions, including, when appropriate, the number of observations made and the number and type of defects; and
- (2) Decisions regarding the acceptability of the products, the processes, and the requirements, as well as action to correct defects.
- (d) Implement any specific written instructions from the contracting office:
- (e) Report to the contracting office any defects observed in design or technical requirements, including contract quality requirements; and
- (f) Recommend any changes necessary to the contract, specifications, instructions, or other requirements that will provide more effective operations or eliminate unnecessary costs (see 46.103(c)).

[48 FR 42415, Sept. 19, 1983, as amended at 63 FR 9065, Feb. 23, 1998]

46.105 Contractor responsibilities.

- (a) The contractor is responsible for carrying out its obligations under the contract by—
- (1) Controlling the quality of supplies or services:
- (2) Tendering to the Government for acceptance only those supplies or services that conform to contract requirements:
- (3) Ensuring that vendors or suppliers of raw materials, parts, components, subassemblies, etc., have an acceptable quality control system; and

- (4) Maintaining substantiating evidence, when required by the contract, that the supplies or services conform to contract quality requirements, and furnishing such information to the Government as required.
- (b) The contractor may be required to provide and maintain an inspection system or program for the control of quality that is acceptable to the Government (see 46.202).
- (c) The control of quality by the contractor may relate to, but is not limited to—
- (1) Manufacturing processes, to ensure that the product is produced to, and meets, the contract's technical requirements;
- (2) Drawings, specifications, and engineering changes, to ensure that manufacturing methods and operations meet the contract's technical requirements:
- (3) Testing and examination, to ensure that practices and equipment provide the means for optimum evaluation of the characteristics subject to inspection:
- (4) Reliability and maintainability assessment (life, endurance, and continued readiness);
- (5) Fabrication and delivery of products, to ensure that only conforming products are tendered to the Government;
- (6) Technical documentation, including drawings, specifications, handbooks, manuals, and other technical publications:
- (7) Preservation, packaging, packing, and marking; and
- (8) Procedures and processes for services to ensure that services meet contract performance requirements.
- (d) The contractor is responsible for performing all inspections and test required by the contract except those specifically reserved for performance by the Government (see 46.201(c).

[48 FR 42415, Sept. 19, 1983, as amended at 55 FR 38517, Sept. 18, 1990]

Subpart 46.2—Contract Quality Requirements

46.201 General.

(a) The contracting officer shall include in the solicitation and contract the appropriate quality requirements.
