

Federal Acquisition Regulation

32.205

whether the arrangement will be in the best interest of the Government.

32.203 Determining contract financing terms.

When the criteria in 32.202-1(b) are met, the contracting officer may either specify the financing terms in the solicitation (see 32.204) or permit each offeror to propose its own customary financing terms (see 32.205). When the contracting officer has sufficient information on financing terms that are customary in the commercial marketplace for the item, those terms may be specified in the solicitation.

32.204 Procedures for contracting officer-specified commercial contract financing.

The financing terms shall be included in the solicitation. Contract financing shall not be a factor in the evaluation of resulting proposals, and proposals of alternative financing terms shall not be accepted (but see 14.208 and 15.206 concerning amendments of solicitations). However, an offer stating that the contracting officer-specified contract financing terms will not be used by the offeror does not alter the evaluation of the offer, nor does it render the offer nonresponsive or otherwise unacceptable. In the event of award to an offeror who declined the proposed contract financing, the contract financing provisions shall not be included in the resulting contract. Contract financing shall not be a basis for adjusting offerors' proposed prices, because the effect of contract financing is reflected in each offeror's proposed prices.

[60 FR 49711, Sept. 26, 1995, as amended at 62 FR 51271, Sept. 30, 1997]

32.205 Procedures for offeror-proposed commercial contract financing.

(a) Under this procedure, each offeror may propose financing terms. The contracting officer must then determine which offer is in the best interests of the United States.

(b) *Solicitations.* The contracting officer must include in the solicitation the provision at 52.232-31, Invitation to Propose Financing Terms. The contracting officer must also—

(1) Specify the delivery payment (invoice) dates that will be used in the evaluation of financing proposals; and

(2) Specify the interest rate to be used in the evaluation of financing proposals (see paragraph (c)(4) of this section).

(c) *Evaluation of proposals.* (1) When contract financing terms vary among offerors, the contracting officer must adjust each proposed price for evaluation purposes to reflect the cost of providing the proposed financing in order to determine the total cost to the Government of that particular combination of price and financing.

(2) Contract financing results in the Government making payments earlier than it otherwise would. In order to determine the cost to the Government of making payments earlier, the contracting officer must compute the imputed cost of those financing payments and add it to the proposed price to determine the evaluated price for each offeror.

(3) The imputed cost of a single financing payment is the amount of the payment multiplied by the annual interest rate, multiplied by the number of years, or fraction thereof, between the date of the financing payment and the date the amount would have been paid as a delivery payment. The imputed cost of financing is the sum of the imputed costs of each of the financing payments.

(4) The contracting officer must calculate the time value of proposal-specified contract financing arrangements using as the interest rate the nominal discount rate specified in Appendix C of the Office of Management and Budget (OMB) Circular A-94, "Guidelines and Discount Rates for Benefit-Cost Analysis of Federal Programs", appropriate to the period of contract financing. Where the period of proposed financing does not match the periods in the OMB Circular, the interest rate for the period closest to the finance period shall be used. Appendix C is updated yearly, and is available from the Office of Economic Policy in the Office of Management and Budget (OMB).

[60 FR 49711, Sept. 26, 1995, as amended at 65 FR 16279, Mar. 27, 2000]
