42.1406 Report of shipment.

42.1406-1 Advance notice.

Military (and as required, civilian agency) storage and distribution points, depots, and other receiving activities require advance notice of shipments en route from contractors' plants. Generally, this notification is required only for classified material; sensitive, controlled, and certain other protected material; explosives, and some other hazardous materials; selected shipments requiring movement control; or minimum carload or truckload shipments. It facilitates arrangements for transportation control, labor, space, and use of materials handling equipment at destination. Also, timely receipt of notices by the consignee transportation office precludes the incurring of demurrage and vehicle detention charges.

42.1406-2 Contract clause.

The contracting officer shall insert the clause at 52.242-12, Report of Shipment (REPSHIP), in solicitations and contracts when advance notice of shipment is required for safety or security reasons, or where carload or truckload shipments will be made to DoD installations or, as required, to civilian agency facilities.

42.1501 General.

Past performance information is relevant information, for future source selection purposes, regarding a contractor's actions under previously awarded contracts. It includes, for example, the contractor's record of conforming to contract requirements and to standards of good workmanship; the contractor's record of forecasting and controlling costs; the contractor's adherence to contract schedules, including the administrative aspects of performance; the contractor's history of reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the contractor's business-like concern for the interest of the customer.

42.1502 Policy.

(a) Except as provided in paragraph (b) of this section, agencies shall prepare an evaluation of contractor performance for each contract in excess of \$1,000,000 (regardless of the date of contract award) and for each contract in excess of \$100,000 beginning not later than January 1, 1998 (regardless of the date of contract award), at the time the work under the contract is completed. In addition, interim evaluations should be prepared as specified by the agencies to provide current information for source selection purposes, for contracts with a period of performance, including options, exceeding one year. This evaluation is generally for the entity, division, or unit that performed the contract. The content and format of performance evaluations shall be established in accordance with agency procedures and should be tailored to the size, content, and complexity of the contractual requirements.

(b) Agencies shall not evaluate performance for contracts awarded under
