225.7012-2

(2) When either a broad agency announcement (BAA) or program research and development announcement (PRDA) is used, or when the determination is otherwise not based on direct competition between foreign and domestic proposals, the determination must not be merely conclusory.

(i) The determination must specifically explain its basis, include a description of the method used to determine the competency of U.S. firms, and describe the cost or price analysis performed.

(ii) Alternately, the determination may contain—

(A) A finding, including the basis for such finding, that the proposal was submitted solely in response to the terms of a BAA or PRDA, or other solicitation document without any technical guidance from the program office; and

(B) A finding, including the basis for such finding, that disclosure of the information in the proposal for the purpose of conducting a competitive acquisition is prohibited.

(b) Forward a copy of the certification (from 225.7011-3(b)) and, as appropriate, the determination or justification and approval (J&A) within 30 days of contract award to the Ballistic Missile Defense Organization, Attn: BMDO/DRI, 7100 Defense Pentagon, Washington, DC 20301-7100, if award is based on—

(1) A determination under paragraph (a) of this subsection;

(2) Other than full and open competition under FAR subpart 6.3; or

(3) An unsolicited proposal under FAR subpart 15.6.

Use the provision at 252.225-7018, Notice of Prohibition of Certain Contracts With Foreign Entities for the Conduct of Ballistic Missile Defense RDT&E, in all competitively negotiated BMD solicitations for research, development, test, and evaluation, unless foreign participation is otherwise excluded.

225.7012 Restrictions on anchor and mooring chain.

225.7012-1 Restrictions.

(a) Under Public Law 101-511, Section 8041, and similar sections in subsequent Defense appropriations acts, DoD appropriations for fiscal years 1991 and after may not be used to acquire welded shipboard anchor and mooring chain, four inches in diameter and under, unless—

(1) It is manufactured in the United States, including cutting, heat treating, quality control, testing, and welding (both forging and shot blasting process); and

(2) The cost of the components manufactured in the United States exceeds 50 percent of the total cost of components.

(b) Acquisition of welded shipboard anchor and mooring chain, four inches in diameter and under, when used as a component of a naval vessel, is also restricted under 10 U.S.C. 2534(a)(3)(ii). However, the more stringent restriction under 225.7012-1(a) takes precedence.

[61 FR 13107, Mar. 26, 1996]

225.7012-2 Waiver.

The restriction in 225.7012-1(a) may be waived by the Secretary of the Department responsible for acquisition, on a case-by-case basis, where sufficient domestic suppliers are not available to meet DoD requirements on a timely basis and the acquisition is necessary to acquire capability for national security purposes.

(a) Document the waive in a written D&F containing—

(1) The factors supporting the waiver; and

(2) A certification that the acquisition must be made in order to acquire capability for national security purposes.

(b) Provide a copy of the D&F to the House and Senate Committees on Appropriations.
