(b) Contracting officers shall ensure that—

(1) Concurrence of the requiring activity is obtained for any proposed substitutions prior to contract award;

(2) Any necessary additional information regarding the SPI process identified in the proposal is obtained from the cognizant administrative contracting officer; and

(3) In competitive procurements, prospective offerors are provided the opportunity to obtain verification that an SPI process is an acceptable replacement for a military or Federal specification or standard for the particular procurement prior to the date specified for receipt of offers.

(c) Any determination that an SPI process is not acceptable for a specific procurement shall be made prior to contract award at the head of the contracting activity or program executive officer level. This authority may not be delegated.
