

(b) *Recovery from nonbeverage products.* Distilled spirits recovered in the manufacture of a nonbeverage product are considered as having been used in the manufacture of that product. If the spirits were eligible when so used, they became subject to drawback at that time. Upon recovery, such spirits may be reused in the manufacture of nonbeverage products, but shall not be reused for any other purpose. When reused, such recovered spirits are not again eligible for drawback and shall not be used in the manufacture of intermediate products.

(c) *Cross references.* For additional provisions respecting the recovery of distilled spirits and related record-keeping requirements, see §§17.168 and 17.183.

**§ 17.154 Spirits contained in intermediate products.**

Spirits contained in an intermediate product are not subject to drawback until that intermediate product is used in the manufacture of a nonbeverage product.

**§ 17.155 Spirits consumed in manufacturing intermediate products.**

Spirits consumed in the manufacture of an intermediate product—which are not contained in the intermediate product at the time of its use in nonbeverage products—are not subject to drawback. Such spirits are not considered to have been used in the manufacture of nonbeverage products. However, see §17.127 with respect to optional treatment of ingredients as unfinished nonbeverage products, rather than as intermediate products.

**Subpart H—Records**

**§ 17.161 General.**

Each person claiming drawback on taxpaid distilled spirits used in the manufacture of nonbeverage products shall maintain records showing the information required in this subpart. No particular form is prescribed for these records, but the data required to be shown shall be clearly recorded and organized to enable appropriate TTB officers to trace each operation or transaction, monitor compliance with law and regulations, and verify the accu-

racy of each claim. Ordinary business records, including invoices and cost accounting records, are acceptable if they show the required information or are annotated to show any such information that is lacking. The records shall be kept complete and current at all times, and shall be retained by the manufacturer at the place covered by the special tax stamp for the period prescribed in §17.170.

**§ 17.162 Receipt of distilled spirits.**

(a) *Distilled spirits received in tank cars, tank trucks, barrels, or drums.* For distilled spirits received in tank cars, tank trucks, barrels, or drums, the manufacturer shall record, with respect to each shipment received—

- (1) The date of receipt;
- (2) The name and address of the person from whom received;
- (3) The serial number or other identification mark (if any) of each tank car, tank truck, barrel, or drum;
- (4) The name of the producer or warehouseman who paid or determined the tax;
- (5) The effective tax rate (if other than the rate prescribed by 26 U.S.C. 5001); and
- (6) The kind, quantity, and proof (or alcohol percentage by volume) of the spirits.

(b) *Distilled spirits received in bottles.* For distilled spirits received in bottles, the manufacturer shall record—

- (1) The date of receipt;
- (2) The name and address of the seller;
- (3) The serial number of each case, if the bottles are received in cases;
- (4) The name of the bottler;
- (5) The effective tax rate (if other than the rate prescribed by 26 U.S.C. 5001); and
- (6) The kind, quantity, and proof (or alcohol percentage by volume) of the spirits.

(c) *Distilled spirits received by pipeline.* For distilled spirits received by pipeline, the manufacturer shall record—

- (1) The date of receipt;
- (2) The name of the producer or warehouseman who paid or determined the tax;
- (3) The effective tax rate (if other than the rate prescribed by 26 U.S.C. 5001); and

(4) The kind, quantity, and proof (or alcohol percentage by volume) of the spirits.

(d) *Determination of quantity.* At the time of receipt, each manufacturer shall determine (preferably by weight) and record the exact number of proof gallons of distilled spirits received. The amount received in bottles may be determined by the required statements on the labels. The amount received in sealed drums with no evidence of leakage may be determined from the record of shipment, which is required by §19.780 of this chapter to accompany spirits received from a distilled spirits plant. If spirits are received in a tank car or tank truck, and the result of the manufacturer's gauge of the spirits is within 0.2 percent of the number of proof gallons reported on the record of shipment required by §19.780, then the number of proof gallons reported on that record may be recorded as the quantity received. Nevertheless, the receiving gauge shall be noted on the record of receipt. If, for any shipment, the amount recorded in the manufacturer's records as the quantity received is greater than the amount shown as taxpaid on the record required by §19.780, a deduction equivalent to the excess shall be made from the amount of drawback claimed in the manufacturer's claim covering that period. If no claim is filed for that period, then the deduction shall be made in the manufacturer's next claim. Losses in transit that exceed the 0.2 percent limitation provided in this paragraph shall be determined and noted on the record of receipt. Such losses shall not be recorded as distilled spirits received.

(e) *Receipt of imported rum, or spirits from Puerto Rico or the Virgin Islands.* If spirits are received which contain at least 92% rum, and which originate from Puerto Rico or the U.S. Virgin Islands, the record of receipt shall indicate the place of origin. If rum is received, the record shall indicate whether it is from Puerto Rico, from the U.S. Virgin Islands, imported from other countries, or domestic.

(f) *Shipments from distilled spirits plants.* If spirits are received directly from the distilled spirits plant that paid or determined the tax, the manufacturer shall retain the record of ship-

ment required by §19.780 of this chapter. To the extent that the information on that record duplicates the requirements of this section, retention of that record shall satisfy those requirements. If there are differences between the information on the record of shipment and the information required to be recorded by this section, the requirements of this section may be met by appropriate annotations on the record of shipment.

**§ 17.163 Evidence of taxpayment of distilled spirits.**

(a) *Shipments from distilled spirits plants.* For each shipment of taxpaid spirits from the bonded premises of a distilled spirits plant, the manufacturer shall obtain the record of shipment prepared by the supplier under §19.780 of this chapter. This record shall be retained with the commercial invoice (if the latter is a separate document) as evidence of taxpayment of the spirits. The record shall show the effective tax rate(s) (if other than the rate prescribed by 26 U.S.C. 5001) applicable to the shipment.

(b) *Purchases from wholesale and retail liquor dealers.* Manufacturers shall obtain commercial invoices or other documentation pertaining to purchases of distilled spirits from wholesale and retail liquor dealers (including such dealership operations when conducted in conjunction with a distilled spirits plant). For spirits other than alcohol, grain spirits, neutral spirits, distilled gin, or straight whisky (as defined in the standards of identity prescribed by §5.22 of this chapter), the manufacturer of nonbeverage products shall obtain evidence, from the producer or bottler of the spirits, as to the effective tax rate paid thereon.

(c) *Imported spirits.* For imported spirits that were taxpaid through Customs, evidence of such taxpayment (such as Customs Forms 7501 and 7505, receipted to indicate payment of tax, and the certificate of effective tax rate computation, if applicable) shall be secured from the importer and retained by the manufacturer.

(d) *Evidence of effective tax rate.* If the evidence of effective tax rate, required by this section for distilled spirits
