[Project No. 2205-006-VT]

Central Vermont Public Service Corporation; Notice of Availability of Supplemental Environmental Assessment

October 22, 2004.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's Regulations, 18 CFR part 380 (Order No. 486, 52 F.R. 47879), the Office of Energy Projects has reviewed the settlement agreement filed on July 3, 2003, on the relicensing of the Lamoille Hydroelectric Project, located on the Lamoille River, in Franklin, Lamoille, and Chittenden Counties, Vermont, and has prepared an Environmental Assessment (EA) to supplement the EA issued on October 8, 1991.

The Supplemental EA contains our analysis of the potential effects of the existing project and concludes that licensing the project under the settlement agreement, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the Supplemental EA is on file with the Commission and is available for public inspection at the Commission in the Public Reference Room. The Supplemental EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
