

the ABC (300,00 mt) or above may have adverse impacts on the herring stock. Therefore, the Council decided that these greater OY options would pose an unacceptable level of risk to the sustainability of the herring stock.

Another alternative considered involves DAP. Based on the proposed 2004 DAP specification of 226,000 mt, there could be an increase of up to 134,169 mt in herring landings, or \$19,186,167 in revenue based on \$143/mt. Revenues to the fleet may also increase under the Council's non-preferred 2003 DAP alternative of 236,000 mt. However, the magnitude of economic impact of the DAP would depend on the processing sector's ability to expand markets and increase capacity to handle larger amounts of herring in 2004. Given the current capacity of the processing sector, the Council concluded that setting the DAP at 226,000 mt would provide sufficient allocation for expansion of the U.S. domestic processing sector and that setting the DAP at 236,000 mt was unlikely to result in additional expansion.

Small Entity Compliance Guide

Section 212 of the Small Business Regulatory Enforcement Fairness Act of 1996 states that, for each rule, or group of related rules, for which an agency is required to prepare a FRFA, the agency shall publish one or more guides to assist small entities in complying with the rule and shall designate such publications as "small entity compliance guides." The agency shall explain the actions a small entity is required to take to comply with a rule or group of rules. As part of this rulemaking process, a small entity compliance guide will be sent to all holders of permits issued for the Atlantic herring fishery. In addition, copies of this final rule and guide (i.e., permit holder letter) are available from the Regional Administrator (see **ADDRESSES**) and may be found at the following web site: <http://www.nmfs.gov/ro/doc/nero.html>.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 30, 2004.

Rebecca Lent,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 031124287-4060-02; I.D. 032904B]

Fisheries of the Exclusive Economic Zone Off Alaska; Rock Sole in the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for rock sole in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2004 total allowable catch (TAC) of rock sole in the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), April 1, 2004, until 2400 hrs, A.l.t., December 31, 2004.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2004 TAC specified for rock sole in the BSAI is 34,850 metric tons (mt) as established by the 2004 harvest specifications for groundfish of the BSAI (69 FR 9242, February 27, 2004).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the 2004 TAC specified for rock sole will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 31,850 mt, and is setting aside the remaining 3,000 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for rock sole in the BSAI.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such a requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent the Agency from responding to the most recent fisheries data in a timely fashion and would delay the closure of rock sole fishery in the BSAI.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 30, 2004.

John H. Dunnigan,

Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the Exclusive Economic Zone off Alaska; Pacific Cod by Catcher Vessels Using Trawl Gear in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by catcher vessels using trawl gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the B season allocation of the 2004 total allowable catch (TAC) of Pacific cod specified for catcher vessels using trawl gear in this area.
