Review: Certain Welded Carbon Steel

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

SUMMARY: In response to a request by domestic interested parties, the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on certain welded carbon steel pipe and tube (welded pipe and tube) from Turkey. This review covers one producer/exporter of the subject merchandise, The Borusan Group (Borusan). We preliminarily determine that Borusan made sales below normal value (NV). If these preliminary results are adopted in our final results, we will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties based on the difference between the export price (EP) and the NV.

EFFECTIVE DATE: April 6, 2004.

SUPPLEMENTARY INFORMATION:

Background

On May 15, 1986, the Department published in the **Federal Register** the antidumping duty order on welded pipe and tube from Turkey (51 FR 17784). On May 1, 2003, the Department published a notice of opportunity to request an administrative review of this order. See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 68 FR 23281 (May 1, 2003). On May 30, 2003, in accordance with 19 CFR 351.213(b), interested parties Allied Tube & Conduit Corporation, IPSCO Tubulars, Inc., and Wheatland Tube Company requested a review of Borusan.

On July 1, 2003, the Department published a notice of initiation of administrative review of the antidumping duty order on welded pipe and tube from Turkey, covering the period May 1, 2002, through April 30, 2003 (68 FR 39055). On January 6, 2004 the Department extended the deadline for the preliminary results until no later than March 31, 2004. See *Certain Welded Carbon Steel Pipe and Tube from Turkey: Extension of the Time Limit for the Preliminary Results of Antidumping Duty Administrative Review* (69 FR 628). From March 1 through March 12, 2004, we conducted sales and cost verifications of Borusan's questionnaire response.

Scope of the Review

The products covered by this order include circular welded non-alloy steel pipes and tubes, of circular cross-section, not more than 406.4 millimeters (16 inches) in outside diameter, regardless of wall thickness, surface finish (black, or galvanized, painted), or end finish (plain end, beveled end, threaded and coupled). Those pipes and tubes are generally known as standard pipe, though they may also be called structural or mechanical tubing in certain applications. Standard pipes and tubes are intended for the low pressure conveyance of water, steam, natural gas, air, and other liquids and gases in plumbing and heating systems, air conditioner units, automatic sprinkler systems, and other related uses. Standard pipe may also be used for light load-bearing and mechanical applications, such as for fence tubing,
