The purpose of the Committee is to help assess the progress in developing and implementing the Head Start National Reporting System (NRS) and provide recommendations for integrating the NRS with other ongoing assessments of the effectiveness of the program. Definitions of Terms

The following definitions apply:
At-Risk Agencies refers to CSBG eligible entities in crises. The problem(s) to be addressed must be of a complex or pervasive nature that cannot be adequately addressed through existing local or State resources.

Capacity-building refers to activities that assist Community Action Agencies (CAAs) and other eligible entities to improve or enhance their overall or specific capability to plan, deliver, manage and evaluate programs efficiently and effectively to produce intended results for low-income individuals. This may include upgrading internal financial management or computer systems, establishing new external linkages with other organizations, improving board functioning, adding or refining a program component or replicating techniques or programs piloted in another local community, or making other cost effective improvements.

Community in relationship to broad representation refers to any group of individuals who share common distinguishing characteristics including residency, for example, the "low-income" community, or the "religious" community or the "professional" community. The individual members of these "communities" may or may not reside in a specific neighborhood, county or school district but the local service provider may be implementing programs and strategies that will have a measurable affect on them. Community in this context is viewed within the framework of both community conditions and systems, *i.e.*, (1) public policies, formal written and unstated norms adhered to by the general population; (2) service and support systems, economic opportunity in the labor market and capital stakeholders; (3) civic participation; and (4) an equity as it relates to the economic and social distribution of power.

Community Services Network (CSN) refers to the various organizations involved in planning and implementing programs funded through the Community Services Block Grant or providing training, technical assistance or support to them. The network includes local Community Action Agencies and other eligible entities; State CSBG offices and their national association; CAA State, regional and

national associations; and related organizations which collaborate and participate with Community Action Agencies and other eligible entities in their efforts on behalf of low-income people.

Eligible applicants described in this announcement shall be eligible entities, organizations, (including faith based) or associations with demonstrated expertise in providing training to individuals and organizations on methods of effectively addressing the needs of low-income families and communities. See description of Eligible Entities below.

Eligible entity means any organization that was officially designated as a Community Action Agency (CAA) or a community action program under section 673(1) of the Community Services Block Grant Act, as amended by the Human Services Amendments of 1994 (Pub. L. 103-252), and meets all the requirements under sections 673(1)(A)(I), and 676A of the CSBG Act, as amended by the COATES Human Services Reauthorization Act of 1998. All eligible entities are current recipients of Community Services Block Grant funds, including migrant and seasonal farm worker organizations that received CSBG funding in the previous fiscal year.

Local service providers are local public or private non-profit agencies that receive Community Services Block Grant funds from States to provide services to, or undertake activities on behalf of, low-income people.

Nationwide refers to the scope of the technical assistance, training, data collection, or other capacity-building projects to be undertaken with grant funds. Nationwide projects must provide for the implementation of technical assistance, training or data collection for all or a significant number of States, and the local service providers who administer CSBG funds.

Non-profit Organization refers to an organization, including faith-based, which has "demonstrated experience in providing training to individuals and organizations on methods of effectively addressing the needs of low income families and communities." Acceptable documentation for eligible non-profit status is limited to: (1) A copy of a current, valid Internal Revenue service tax exemption certificate; (2) a copy of the applicant organization's listing in the Internal Revenue Service's most recent list of tax-exempt organizations described in section 501(c)(3) of the IRS code; and/or (3) articles of incorporation bearing the seal of the State in which the corporation or association is domiciled.
