DEPARTMENT OF ENERGY

[Docket Nos. EA-291]

Application To Export Electric Energy; Dominion Energy Marketing, Inc.

AGENCY: Office of Fossil Energy, DOE. **ACTION:** Notice of application.

SUMMARY: Dominion Energy Marketing, Inc. (DEMI) has applied to export electric energy from the United States to Canada, pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before May 24, 2004.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Import/Export (FE–27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350 (FAX 202–287–5736).

FOR FURTHER INFORMATION CONTACT: Xavier Puslowski (Program Office) 202– 586–4708 or Michael Skinker (Program Attorney) 202–586–2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On April 6, 2004, DEMI applied to the Department of Energy ("DOE") for authority to export electric energy from the United States to Canada. DEMI, a Delaware corporation with its principal place of business in Richmond, Virginia, is a wholly-owned indirect subsidiary of Dominion Resources, Inc. DEMI does not own or control any electric generation or transmission facilities nor does it have a franchised service area. DEMI will be engaged in the marketing of power as both a broker and as a marketer of electric power at wholesale. DEMI proposes to purchase the power that it will export to Canada from Federal power marketing agencies and electric utilities within the United States.

In FE Docket No. EA–291, DEMI proposes to export electric energy to Canada and to arrange for the delivery of those exports to Canada over the international transmission facilities owned by Basin Electric Power Cooperative, Eastern Maine Electric Cooperative, International Transmission Company, Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power and Light, Minnkota Power Cooperative, Inc., New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power Company, Vermont Electric Power Company, and Vermont Electric Transmission Company.

The construction of each of the international transmission facilities to be utilized by DEMI has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Comments on the DEMI application to export electric energy to Canada should be clearly marked with Docket EA–291. Additional copies are to be filed directly with Michael C. Regulinski, Esquire, Dominion Resources Services, Inc., 120 Tredegar Street, Richmond, VA 23219 and David Martin Connelly, Esquire, Bruder, Gentile and Marcoux, L.L.P., 1701 Pennsylvania Avenue, NW., Suite 900, Washington, DC 20006–5805.

A final decision will be made on this application after the environmental impact has been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy home page at *http:// www.fe.doe.gov.* Upon reaching the Fossil Energy home page, select "Electricity Regulation," and then "Pending Proceedings" from the options menus.

Issued in Washington, DC, on April 20, 2004.

Anthony Como,

Deputy Director, Electric Power Regulation, Office of Coal & Power Import/Export, Office of Coal & Power Systems, Office of Fossil Energy.

DEPARTMENT OF ENERGY

[Docket No. EA-264-A]

Application to Export Electric Energy; ENMAX Energy Marketing, Inc.

AGENCY: Office of Fossil Energy, DOE. **ACTION:** Notice of application.

SUMMARY: ENMAX Energy Marketing Inc. (ENMAX) has applied to renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before May 10, 2004.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Import/Export (FE–27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350 (fax 202–287–5736).

FOR FURTHER INFORMATION CONTACT: Rosalind Carter (Program Office) 202– 586–7983 or Michael Skinker (Program Attorney) 202–586–2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On May 30, 2002, the Office of Fossil Energy (FE) of the Department of Energy (DOE) issued Order No. EA–264 authorizing ENMAX to transmit electric energy from the United States to Canada. That two-year authorization will expire on May 30, 2004.

On April 5, 2004, FE received an application from ENMAX to renew the authorization contained in EA–264 for a term of five (5) years. ENMAX is a Canadian corporation having its principal place of business in Calgary, Alberta, Canada. ENMAX is a whollyowned subsidiary of ENMAX Energy Cooperation which in turn is a whollyowned subsidiary of ENMAX Corporation. ENMAX Corporation is wholly owned by the City of Calgary and provides electricity transmission and distribution services in the City of Calgary.

ENMAX proposes to arrange for the delivery of electric energy to Canada over the existing international transmission facilities owned by Basin Electric Power Cooperative, Bonneville Power Administration, Eastern Maine Electric Cooperative, International Transmission Company, Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power Inc., New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power, and Vermont Electric Transmission Company. In addition, ENMAX has requested it be authorized to export electric energy using international transmission facilities currently owned by Boise Cascade and NSP/Excel which have not previously been authorized for thirdparty exports.

The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by ENMAX, as more fully described in the application, has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's rules of practice and procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the ENMAX application to export electric energy to Canada should be clearly marked with Docket EA–264–A. Additional copies are to be filed directly with Darin L. Lowther, Manager, Regulatory Affairs, ENMAX Energy Marketing Inc., 141–50 Avenue, SE., Calagary, AB T2G 4S7 and Jerry L. Pfeffer, Skadden, Arps, Slate, Meagher, & Flom, LLP, 1440 New York Avenue, NW., Washington, DC 20005–2111

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy home page at *http:// www.fe.de.gov.* Upon reaching the Fossil Energy home page, select "Electricity Regulation," and then "Pending Procedures" from the options menus. Issued in Washington, DC, on April 19, 2004.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Coal & Power Import/Export, Office of Coal & Power Systems, Office of Fossil Energy.

DEPARTMENT OF ENERGY

[Docket No. EA-290]

Application To Export Electric Energy; Ontario Power Generation, Inc.

AGENCY: Office of Fossil Energy, DOE. **ACTION:** Notice of application.

SUMMARY: Ontario Power Generation, Inc. (OPG) has applied for authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before May 10, 2004.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Import/Export (FE–27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585–0350 (FAX 202–287–5736).

FOR FURTHER INFORMATION CONTACT: Steven Mintz (Program Office) 202–586– 9506 or Michael Skinker (Program Attorney) 202–586–2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On March 15, 2004, the Office of Fossil Energy (FE) of the Department of Energy (DOE) received an application from OPG to transmit electric energy from the United States to Canada. OPG is a Canadian corporation having its principal place of business at Toronto, Ontario, Canada. OPG operates a number of power generation facilities in Ontario, some of which are owned by OPG and some by various subsidiary corporations. OPG does not own or control any transmission or distribution assets, nor does it have any franchised service area in the United States or Canada. OPG's generation assets previously were owned by Ontario Hydro, the former government-owned utility providing generation, transmission and certain distribution services in Ontario.

OPG proposes to arrange for the delivery of electric energy to Canada

over the existing international transmission facilities owned by Basin Electric Power Cooperative, Boise Cascade, Bonneville Power Administration, Citizen Utilities, Eastern Maine Electric Cooperative, International Transmission Company, Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power Inc., Minnkota Power Cooperative, New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power, Northern States/Ecel, Vermont Electric Cooperative Inc., and Vermont Electric Transmission Company. The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by OPG, as more fully described in the application, has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

OPG has requested expedited processing of its application so that it may export power to Canada on the earliest possible date.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with § 385.211 or § 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the OPG application to export electric energy to Canada should be clearly marked with Docket EA–290. Additional copies are to be filed directly with Andrew Barrett, Vice President, Regulatory Affairs, Ontario Power Generation Inc., 700 University Avenue, Toronto, Ontario M5G 1X6 Canada and Jerry Pfeiffer, Energy Industries Advisor, Victor A. Contract, Skadden, Arps, Slate, Meagher & Flom LLP, 1440 New York Avenue, NW., Washington, DC 20005–2111.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at http://
