March 22, 2004.

Rule 2010 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure provides that, to eliminate unnecessary expense or improve administrative efficiency, the Secretary may establish a restricted service list for a particular phase or issue in a proceeding.¹ The restricted service list should contain the names of persons on the service list who, in the judgment of the decisional authority establishing the list, are active participants with respect to the phase or issue in the proceeding for which the list is established.

The Commission staff is consulting with the Alabama State Historic Preservation Officer (hereinafter, SHPO) and the Advisory Council on Historic Preservation (hereinafter, Council) pursuant to the Council's regulations, 36 CFR Part 800, implementing Section 106 of the National Historic Preservation Act, as amended, (16 U.S.C. 470 f), to prepare and execute a programmatic agreement for managing properties included in, or eligible for inclusion in, the National Register of Historic Places at Project No. 2165-015.

The programmatic agreement, when executed by the Commission, the SHPO, and the Council, would satisfy the Commission's Section 106 responsibilities for all individual undertakings carried out in accordance with the license until the license expires or is terminated (36 CFR 800.13[e]). The Commission's responsibilities pursuant to Section 106 for the Black Warrior

¹ 18 CFR 385.2010.

River Project would be fulfilled through the programmatic agreement, which the Commission proposes to draft in consultation with Alabama Power Company, the licensee for Project No. 2165; the Mississippi Band of Choctaw Indians; the Jena Band of Choctaw Indians; the Chickasaw Nation, the Poarch Band of Creek Indians; the U.S. Forest Service; the U.S. Army Corp of Engineers; and the U.S. Bureau of Indian Affairs. The executed programmatic agreement would be incorporated into any Order issuing a license.

[Project No. 2232-457]

Duke Power Company; Notice of Availability of Environmental Assessment

March 23, 2004.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission) regulations (18 CFR Part 380), Commission staff have prepared an environmental assessment (EA) that analyzes the environmental impacts of allowing Duke Power Company, licensee for the Catawba-Wateree Hydroelectric Project, to grant an updated Water Withdrawal Easement to the City of Mount Holly, North Carolina for project property within Mountain Island Lake that will supercede an existing easement. The updated easement will allow Mount Holly to install and maintain new intake screens on existing water intake pipes at its Raw Water Intake Pumping Station at

Mountain Island Lake, and allow Mount Holly to increase water withdrawals from the currently-permitted rate of 3.0 million gallons per day (MGD) to a maximum of 13.5 MGD. Increases in water withdrawal would occur incrementally over time. The EA contains staff's analysis of the potential environmental impacts of the proposal and concludes that approval of the Proposed Action would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Approving Non-Project Use of Project Lands and Waters," which was issued March 23, 2004, and is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "elibrary" link. Enter the docket number (prefaced by P-) and excluding the last three digits, in the docket number field to access the document.
